This Article is brought to you for free and open access by the Bird Strike Committee Proceedings at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in 2004 Bird Strike Committee-USA/Canada 6th Annual Meeting; Baltimore, MD by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

EXHIBITORS: The following exhibitors welcome you to visit and learn about their products and services during the Bird Strike Committee-USA/Canada meeting, 13-16 September 2004, at the Hyatt Regency, Baltimore.

Admark International Corp. 501 FM 3083 E Conroe, TX 77303 USA 936-788-6050 936-788-1891 fax *majorana@admark.it*	Admark International Corp. is proud to present in USA the BGS; the new system for security and risk prevention, presented for the first time at "Salon du Bourget 2003". The whole system is able to: identify the presence of birds or animals in the airport site, determine and point out the risk of impact, and start the various devices for driving birds or animals away. The BGS has been conceived for airport sites, where the bird strike hazard is one of the most important problems for the safety during the take-off and landing phases.
Airepel (A division of Arkion) 3521 Silverside Road Wilmington, DE 19810 USA 302-252-0370 302-252-2995 fax *becky.price@airepel.com*	AVIPEL and AIREPEL S-2 Booster are our products. Avipel is a new bird repellent applied to surfaces such as ledges, roofs and structures where birds roost. Applied to a surface, birds ingest the active ingredient (AQ) through preening and experience a harmless, gut reaction, while also seeing the compound through the UV range. Airepel S-2 Booster is a companion product used to enhance adherence of Avipel to certain surfaces.
Air FieldTurf 422 George Street Milford, MI 48381 USA 248-202-0956 *www.airfieldturf.com*	Air FieldTurf, a division of FieldTurf, Inc. has currently launched a new Artificial Aviation Turf into the marketplace. Our company commitment to on-going research and development, technology, and expertise within the Artificial Turf marketplace, a turnkey operation from development to manufacturing to installation and maintenance all resides under one roof. Our strong background and the ability of Air FieldTurf to fully understand the sensitivity and concerns within the Aviation industry allows us to bring you the most technical and safest quality product to fulfill your needs.

Bird Busters 300 Calvert Avenue Alexandria, VA 22301 USA 703-299-8855 703-299-0844 fax *jwagner@birdbusters.com*	Bird Busters will display three new bird deterrent systems. The Sonic Bird Sweep is capable of delivering directional, intelligible sounds up to 1 mile. The Firefly Flight Diverter, a new visual deterrent designed to affect avian vision day or night will deter raptors and other species in flight. BirdBlaster, a bird activated radar deterrent system uses compressed air in a timed sequence to produce an audio/visual alert.
BirdTec, Inc. 29 Pearl NW, Ste. 225 Grand Rapids, MI 49503 USA 616-459-4622 616-459-7868 fax *dmcd125@att.net*	Bruce Vergote has successfully developed an array of equipment for the control and elimination of nuisance birds from problem population areas. Products use well-known ReJeX–iT or a similar MA/soy oil blend and employ simple timers and compression systems to create environments unfavorable to all birds. Privately owned by Michigan investors involved in the business, BirdTec, Inc. has a major commitment to solving bird problems near and around airports.
Border Collie Rescue 16051 E FM 1097 Willis, TX 77378 USA 936-856-3745 408-547-8906 fax *birdstrike@bcrescue.org*	BCR's Birdstrike Control Program serves as a premiere source of professionally custom-trained dogs and quality on-site employee instruction for airports and military installations instituting bird and wildlife hazard control programs. BCR offers a complete wildlife control program that is instituted on a service basis - including wildlife control personnel, trained border collies, vehicles, and variable secondary control equipment or the purchase of trained dogs, along with an accompanying personnel training and support service program.
DeTect, Inc. 621 W. Baldwin Road Panama City, FL 32405 USA 850-763-7200 850-763-0920 fax *bashman@aol.com*	DeTect, Inc., based in Panama City, Florida USA, specializes in Bird Aircraft Strike Hazard (BASH) management services and systems supporting military, government, and commercial clients on projects worldwide. DeTect's BASH group is headed by a former Chief of the U.S. Air Force BASH Team and includes highly experienced BASH specialists, biologists, radar ornithologists, engineers and programmers. DeTect's staff have completed BASH projects at over 85 airports in 12 countries and are one of the world’s most experienced team of specialists in BASH and radar remote sensing of birds.

Euro-matic Plastics, Inc. 2201 Old Stantonsburg Road Wilson, NC 27893 USA 252-206-7510 252-293-0099 fax *kstuck@euromatic.us*	Euro-Matic Bird balls are 100mm hollow or water-filled plastic balls that form a floating cover for ponds and lagoons. The balls camouflage the water surface from waterfowl thus preventing unwanted birds from using or contaminating the water. Side benefits include heat retention, odor control, algae control, evaporation control, and vapor containment.
Fi-Shock, Inc. 5360 N. National Drive Knoxville, TN 37914-6695 USA 865-524-7380 865-673-4770 fax *melissa.cooney@fishock.com*	Fi-Shock Inc., a leader in animal control since 1968, introduces a revolutionary new electrified bird control system to the aviation industry. Bird Repel is the ideal anti-roosting device that provides an effective solution to the mess and dangers of birds in and around airports. At a fraction of the cost of other systems, Bird Repel is the most convenient and affordable answer to reducing bird hazards to aircraft operations. Hasta la vista Birdie!
Flyaway Farm & Kennels 5942 Moore's Creek Road Southport, NC 28461 USA 910-454-8105 910-352-2591 fax *rebecca@flyawaybordercollies.com*	Flyaway Farm and Kennels is the premiere military wildlife management company, with more Air Force contracts than any other company. Our complete program of habitat management and wildlife harassment featuring highly trained border collies, combined with our expertise in wildlife behavior and migration, has proven extremely successful in both decreasing the number of damaging bird strikes and significantly increasing training time for our military clients.

Geese Police, Inc. P.O. Box 656 Howell, NJ 07731 USA 732-938-9093 732-938-9092 fax *headqtrs@geesepoliceinc.com*	Geese Police, Inc. uses highly trained working border collies to herd Canada geese off properties. Geese Police, Inc., incorporated in 1997, began in 1986 when founder David Marcks pioneered the use of border collies for this unique purpose. Today Geese Police "employs" 35 border collies servicing over 250 accounts in New Jersey. In addition, Geese Police, Inc. has franchises in Illinois, Virginia, and Maryland.
Geo-Marine, Inc. 550 E 15th Street Plano, TX 75093 USA 972-423-5480 972-398-0194 fax *jgrimm@geo-marine.com*	Geo-Marine, Inc. (GMI) provides service in wildlife hazard assessment, wildlife management, Bird Aircraft Strike Hazard assessment and planning, National Environmental Policy Act, natural resources, wetland delineations and mitigation, noise, and air quality. GMI's Mobile Avian Radar System (MARS) provides all-weather, unattended, 24/7 real-time monitoring and archiving of bird and bat activity. MARS display options include air-traffic control radar displays, wireless distribution of activity to wildlife control units, and wildlife activity summaries for planning and control purposes.
Margo Supplies Ltd. P.O. Box 5400 High River, AB T1V 1M5 Canada 403-652-1932 403-652-3511 fax *jmarley@margosupplies.com*	As wildlife management specialists, Margo Supplies Ltd. has helped airfield personnel in making their BASH (bird/wildlife air strike hazard) program effective. Our radio controlled on-demand propane cannons, "Shock & Awe" multi-shot scare cartridge launchers, live traps and other management devices and techniques are used at military and civilian airports throughout the world. We have 25 years of experience, conduct our own intensive field-testing of the products, and only sell products proven to be effective.
NatureChem, Inc. 333 Fry Road Galivantsferry, SC 29544 USA 803-608-0429 803-358-1539 fax *www.naturchem.net*	Since 1987, NatureChem, Inc. has been a leader in providing vegetation management services for the industrial, commercial, utility, municipal, governmental, transportation and private markets. We control vegetation *everywhere* ... at plant sites, lakes, parks, airports, lift stations, pipelines, communication installations, rights-of-way, timber tracts, ditches, canals, rail ballast and yards, substations, graveled storage yards and tank farms. We also offer a full range of turf management services.

Pao-Chang Co. No. 1, Sec. 5, Jiaosi Road Jiaosi Township Yilan County 262 Taiwan, ROC 886-3-9882104 886-3-9874073 fax *joeyliaw@msa.hinet.net*	Pao-Chang Company produces and supplies smoke, signal, flare and chemical ammunition. The Long-distance Blast Banger Bird-Dispersing System has been developed for reducing the hazard of bird strikes on airports.
Reed-Joseph International Company P.O. Box 894 Greenville, MS 38702 USA 800-647-5554 662-335-8850 fax *jbj3@reedjoseph.com*	Now in our 51st year, Reed-Joseph is the nation's oldest and largest distributor of bird and wildlife control products. Our wide variety of Scare Away LP gas cannons, pyrotechnic cartridges, and electronic distress cry generators, as well as our many sight & motion products are vital components in BASH programs across the country. Stop by our booth to see how we can help your program.
SEA Technology Inc. P.O. Box 382 E. Oak Street Lebanon, KY 40150 USA 888-732-2246 775-703-2074 fax *george@aviandissuader.com*	SEA Technology was formed to develop, deliver and market technology that the parent company (Science and Engineering Associates) had developed for military use. The Avian Dissuader was among the first products to be brought to market and has enjoyed worldwide acceptance by the marketplace.

SePRO Corporation 11550 N. Meridian Street Suite 600 Carmel, IN 46032 USA 317-216-8166 317-216-8166 fax *bill3@sepro.com*	SePRO Corporation is a specialty environmental products company. Key business segments include the US Aquatics Industry, Horticulture/Greenhouse Markets, and Professional Turf Management. Customers range from end-use consumers to professional applicators to local, state and federal government agencies. SePRO acquired the marketing rights for FlightControl^{R} PLUS goose repellent in February 2004. Turf treated with FlightControl PLUS looks different to geese in the ultraviolet light spectrum.
Straughan Environmental Services 9135 Guilford Road, Ste. 100 Columbia, MD 21046 USA 301-362-9200 301-362-9245 fax *estraughan@sesenviron.com*	Straughan Environmental Services, Inc. (SES) is a small, woman-owned business firm that provides high-quality, cost-effective environmental consulting services to the aviation community. SES has proven experience that includes extensive experience with FAA environmental policies and regulations that must be applied throughout airport project planning, design, construction and operation, as well as local and state policies that must be addressed simultaneously. The combination of technical, hands-on expertise and policy understanding gives SES an edge in providing practical, cost-effective solutions in support of our clients' goals.
U.S. Filter Aerator Products 11765 Main Street Roscoe, IL 61073 USA 815-623-2111 815-623-6416 fax *johnsonta@usfilter.com*	USFilter Aerator Products manufactures equipment for wastewater treatment processes, including the Aqua-Lator® floating surface aerator. Aqua-Lator® has delivered excellent value and performance to thousands of wastewater treatment operators. Our newest product, the Aqua-Lator Environmental Ball, or E-Ball^{TM}, can be used to cover ponds and prevent birds from using these sites, particularly in the vicinity of airports. We offer a total solution for aerated lagoon treatment of airport deicing runoff by using a combination of floating surface aerators, mixers, and E-Balls^{TM}.

Winfield Solutions Box 578 Frankford, ON K0K 2C0 Canada 613-398-1221 613-398-8649 fax *admin@winfieldsolutions.com*	Winfield Solutions develops and markets North America's leading Airport Wildlife Management product called AIRMAN©. Accurate Risk Assessments and overall Flight Safety become enhanced with our detailed analysis tools. AIRMAN's rich data-driven reports and query results equip personnel to control wildlife pro-actively and with greater efficiency through our mobile delivery systems.
