Preface

This report contains historical price data for the major crops and livestock commodities produced in Nebraska. Prices received by producers are reported for 1960-2005 for most of the commodities.

The data was compiled from Nebraska Agricultural Statistics Service and Agricultural Prices, National Agricultural Statistics Service, USDA; Oil Crops Situation and Outlook, Economic Research Service, USDA; Cotton and Wool Outlook, Economic Research Service, USDA; and Livestock and Grain Market News, Agricultural Marketing Service, USDA. Sources of prices for each commodity are indicated on the tables.

Calendar year average prices (simple averages of the January through December prices) are provided in each table. For crops, marketing year averages weighted by sales are also provided. For some commodities, monthly prices for Nebraska were discontinued and other regional or national monthly and annual prices were reported. When possible, the Nebraska marketing year weighted average was also provided. Three-year, ten-year, and forty-year (or length-of table) monthly and yearly averages are included at the bottom of each table.

Some commodity price data series have been adjusted to provide a complete series and occasionally prices were interpolated for selected months. Because some original prices series have been discontinued, new price series, which may reflect Nebraska, regional, or national prices, are used for more recent years. Specific information on the necessary changes, adjustments, and data sources is provided in the footnotes of each table.

It is the intention to update this report annually. Appropriate additions, revisions, or deletions will be made at those times. Requests for the updated reports should be sent to Department of Agricultural Economics, Institute of Agriculture and Natural Resources, 303 H.C. Filley Hall, P.O. Box 830922, UNL-East Campus, Lincoln, Nebraska 68583-0922. Report can also be accessed by linking to http://agecon.unl.edu/mark or by contacting your local University of Nebraska county extension office.

(1) Weighted averages of fresh marketed, processed and starch potatoes.

(2) Information compiled from Agricultural Prices, National Agricultural Statistics Service, USDA.

(3) Monthly prices from 1960-1975 for Nebraska; from 1976-2005 for Colorado. When Nebraska price was unavailable prior to 1976, either the Colorado price (*) or US price (**) was used.

(4) Weighted by monthly sales within marketing year (Sept. 1-Aug. 31). Nebraska prices from 1960-1975 and Colorado from 1976-2005. Nebraska marketing year average from 1976-2005 is provided in last column.
