This Article is brought to you for free and open access by the Nebraska Game and Parks Commission at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Nebraska Game and Parks Commission Publications by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.
WHY BUY A PERMIT?

It is important for anglers to buy a fishing permit to support Nebraska fisheries management and habitat protection and restoration projects.

WHO MUST HAVE A PERMIT?

A fishing permit is required to take, or attempt to take, fish, bullfrogs, snapping turtles, tiger salamanders or mussels by any method. An angler must carry the permit and has a bona fide intention of becoming a legal resident of this state. Others who may obtain a resident permit include:

1. military personnel stationed in Nebraska and on active duty here for at least 30 consecutive days;
2. nonresident students upon proof they have attended classes full time for at least 30 consecutive days at any Nebraska college, university, junior college, vocational school or any foreign exchange high school student; and
3. any person duly enrolled in and attending a civilian conservation center or similar government work or training facility for 30 consecutive days.

A nonresident fishing permit is required of all people who are not Nebraska residents, except those listed above and those under 16 years of age who are accompanied by someone possessing a valid Nebraska fishing permit.

See the Border Waters section for permit requirements for fishing the waters of the Missouri River.

The owner, or a guest of the owner, of any totally private body of water which: (1) is located entirely on private land; (2) is entirely privately stocked; (3) does not connect by inflow or outflow with any other off-property body of water; and (4) is not commercially operated, is not required to have a fishing permit on that body of water. See Private Waters section on pages 24-25.

Fee-exempt permits are available to the following resident veterans: (1) 50 percent disabled as a result of service in the armed forces, (2) those who received a pension from the Veterans Administration as a result of a total and permanent disability not incurred in the line of duty in military service, and (3) those who obtained fee-exempt permits prior to Jan. 1, 2006. Aquatic habitat stamps are included with these fee-exempt permits. Information and application forms are available from Nebraska Game and Parks Commission offices.

A “special fishing permit” is available for physically disabled or developmentally disabled persons who cannot cast or retrieve without assistance. This permit entitles the disabled person and one person assisting him or her to take, fish, catch, harvest or possess any aquatic organism in compliance with state regulations. If the person assisting does not possess a current fishing permit, they are restricted to one daily bag limit between the two anglers. The annual permit is issued on a calendar year basis and costs $5 regardless of the age of the applicant. A “disabled person” means a person certified by a...
physician to have a permanent physical impairment or developmental disability that results in the inability to use fishing equipment unassisted. Applications are available from the Commission headquarters in Lincoln or offices in Alliance, Bassett, Kearney, Norfolk, North Platte, Omaha and the Ak-Sar-Ben Aquarium near Gretna. An educational fishing project permit can be obtained by instructors at any university, college, or high school from the Fisheries Division for his/her students, 16 years of age and older, who are participating in an educational fishing project.

IT IS UNLAWFUL TO...

- borrow or use the permit of another or lend your permit to another.
- leave dead fish or any part thereof on the banks or in the water of any stream, lake or other body of water.
- fish on any private land without landowner permission.
- use a crossbow or similar device while archery fishing, except for a disabled person who has a medical certificate on file.
- seine sport fish of any size.
- use float lines.
- leave fish in a trap for more than 24 hours.
- release into public waters of the state any fish that did not originate in that body of water.
- attempt to snag fish, except in designated areas. See the Snagging section for details.
- use limb lines or set lines in any pond, lake or reservoir.
- catch fish by hand.
- buy or attempt to buy a permit while under license suspension or revocation in any state.
- keep an externally foul-hooked fish, except those legally snagged.
- consume and/or have an open container of alcohol at any state park, state recreation area or wildlife management area.

FISH KILL REPORTS
Report dead or dying fish by notifying your local conservation officer, Commission district office, or the 24-hour Nebraska State Patrol pollution complaint number, (402) 471-4545, as soon as possible. Prompt notification will make it easier to determine the cause.

Keep the water safe and clean for future fishing. Report dumping/pollution activities to the Environmental Protection Agency at 1-800-223-0425.

REGULATIONS CHANGES FOR 2008

- Midlands Lake and Shadow Lake (Sarpy County) and Papio 13 – West Dodge Park Lake (Douglas County) each now have a 21-inch minimum length on black bass. These are new urban lakes that will receive heavy fishing pressure.
- War Axe State Recreation Area now is catch and release for black bass. This area has been stocked with smallmouth bass to provide anglers a unique bass fishing opportunity.
- Channel catfish, blue catfish and flathead catfish are now regulated separately. Daily bag limits will be as follows: channel catfish – Missouri River, 5; all other waters, 10, unless otherwise posted or regulated: Blue catfish – statewide, 1; and flathead catfish – statewide, 5. The goal is to simplify regulations. Always refer to the Public Waters section for any special area regulations.
- The following waters now have a daily bag limit of 3 for channel catfish: Alda DOR (Hall County), Bassway WMA (Buffalo County), Blue Hole West WMA (Buffalo County), Bufflehead WMA (Buffalo County), Cheyenne SRA (Hall County), Coot Shallows WMA (Buffalo County), Cozad SRA (Dawson County), Darr WMA (Dawson County), Dogwood WMA (Dawson County), East Gothenburg WMA (Dawson County), East Odessa WMA (Buffalo County), Grand Island Rest Area (DOR) (Hall County), Kea Lake WMA (Buffalo County), Kea West WMA (Buffalo County), Liberty Cove (Webster County), Midlands Lake (Sarpy County), North Kearney Rest Area (DOR) (Buffalo County), Papio 13 – West Dodge Park Lake (Douglas County), Sandy Channel SRA (Buffalo County), Shadow Lake (Sarpy County), Union Pacific SRA (Buffalo County), War Axe SRA (Buffalo County), West Cozad WMA (Dawson County) and West Wood River WMA (Hall County). These are small waters; thus, the purpose of reducing the daily bag limit from 10 to 3 is to help spread out the harvest of channel catfish.

### STATEWIDE (continued)

- Fort Kearny SRA Lake #2 (Kearney County) and Windmill SRA Lake #3 (Buffalo County) have been added to the list of lakes that are catch-and-release on channel catfish. The protection of channel catfish will result in the creation of a quality catfish population, providing area users the opportunity of catching a large channel catfish while still providing harvest on other lakes located on these areas.
- DeSoto National Wildlife Refuge Lake (Washington County) was added to the list of Missouri River waters managed with a 15-inch minimum length on walleye, sauger and saugeye. This regulation change is only to comply with the existing refuge regulations.
- Swan Lake was removed from the list of lakes having a protective slot limit for northern pike. Following renovation in 2006, northern pike were not reintroduced.
- Blue Hole East (NPPD) was removed from the list of lakes with a 30-inch minimum length for northern pike since this lake currently is not open for public use.
- Midlands Lake (Sarpy County), Papio 13 – West Dodge Park Lake (Douglas County), Shadow Lake (Sarpy County) and War Axe SRA (Buffalo County) were added to the list of waters that have a panfish daily bag limit of 10. These areas will receive heavy fishing pressure; thus the goal is to maintain density and quality size by reducing overall harvest.
- Stagecoach Reservoir and Wagon Train Reservoir (both Lancaster County) were removed from the list of lakes having an 8-inch minimum length for sunfish. Gizzard shad have gained access to these lakes, limiting their ability to produce quality size bluegill.
- Paddlefish harvest will now be regulated through a new permit system. Please refer to page 20 for a detailed explanation on the new system. The number of snagging permits issued was increased from 1,400 to 1,600.
- The Two Rivers Trout Lake (Douglas County) open season regulation was modified so the Commission no longer is restricted to the dates of April 1 through Oct. 31.
- Fort Robinson State Park and Buffalo Creek WMA (Dawes and Sioux Counties) no longer are restricted to two lines for ice-fishing. Statewide line limits apply.
- Big Bordeaux Creek WMA (Dawes County) no longer is total catch-and-release for trout. Statewide regulations now apply.
- Compressed-air spear guns have been approved for use for underwater spearfishing.
- The no-live-baitfish regulation has been removed from Wagon Train Reservoir.
- The following lakes no longer allow the use or possession of live baitfish: Ansley City Lake (Custer County), Bethphage Pond (Kearney County), Heartwell Park Pond (Adams County), Holdrege City Lake (Pughs County), Lexington City Lake (Dawson County), Lincoln Park Pond (Nuckolls County), Ravenna Lake (Buffalo County), Sutton Clark Pond (Clay County) and Yanney Park Lake (Buffalo County). The purpose of this regulation is to reduce the chance of the introduction of unwanted fish species.
- L.E. Ray Lake (Grand Island) is regulated with a total catch-and-release for trout. Statewide regulations now apply.

### BAG, POSSESSION, AND LENGTH LIMITS

Bag and possession limits may vary between “inland waters” and “waters of the Missouri River.” For this purpose only, “inland waters” include all waters of the state except the waters of the Missouri River. “Waters of the Missouri River” include all of the river along Nebraska’s border and all reservoirs, oxbows, sloughs, chutes, backwaters and marshes that have annual surface...
water connection to the river and the first 300 yards upstream from the mouth of all tributary streams.

Any fish that is not to be counted in the bag limit must be returned immediately to the water with as little injury as possible. Any fish placed on a stringer or in a container, or not returned to the water must be counted in the bag; thus, no culling or high-grading is allowed.

**Daily Bag:** The daily bag limit is fish harvested from midnight to the following midnight. No person may possess more than one day’s bag limit of fish while on the water or actively engaged in fishing.

**Possession Limit:** This is the total number of a species of fish that a person may possess in portable coolers, home freezers, registered in his/her name in a commercial cold storage locker or in any other way under their control. Fish or aquatic animals placed in public storage or transferred must be labeled with the owner’s name, address, phone number, date of birth, signature, date taken, species and numbers and the name of recipient if they are transferred.

**Length Limit:** The proper method to obtain the length of a fish is to lay the fish on its side with its mouth closed and the tail lobes pressed together. With a yardstick or tape measure under the fish, measure the length from the tip of the snout to the end of the tail. (Do not follow the contour of the fish, which would exaggerate its length). A minimum length limit means a fish must be equal to or longer than the defined length to be legally harvested. A maximum length limit means a fish must be shorter than the defined length to be legally harvested.

**Protected Slot Limit:** This is a range of lengths of a particular species that cannot be legally harvested on a given lake. For instance, a 28-to-34-inch protected slot limit on northern pike means that a northern pike less than 28 inches in length or greater than 34 inches can be harvested.

**One-Over Length Bag Limits:** For some species, such as largemouth bass and walleye, the number of large fish that can be harvested may be limited on some or all waters. For example, while it may be legal to harvest four largemouth bass more than 15 inches from a given lake, statewide regulations prohibit an angler from harvesting more than one largemouth bass 21 inches or longer each day from any waters. Therefore, for lakes with a 21-inch minimum length limit on largemouth bass, the daily bag limit becomes one fish.

---

**KNOW WHAT YOU CAUGHT**

**Channel Catfish**
- Anal fin has 24 - 29 rays with outer margin rounded.
- Spots not present on large fish.

**Blue Catfish**
- Anal fin has more than 30 rays with outer margin straight.

**Flathead Catfish**
- Lower jaw extends past upper jaw.
- Square, unforked tail.

---

**KNOW WHAT YOU CAUGHT**

**Northern Pike**
- Five or fewer pores on each side of lower jaw
- Cheeks fully scaled

**Muskellunge**
- Six or more pores on each side of lower jaw
- Upper half of cheeks scaled

**Pallid Sturgeon - An Endangered Species**
- Illegal to possess
- Outer barbels twice as long as inner barbels
- Base of barbels “U” shaped inner two set out in front

**Lake Sturgeon - A Threatened Species**
- Illegal to possess
- Short snout turns up at end
- Barbels are not fringed

**Shovelnose Sturgeon**
- Nebraska’s most common sturgeon
- Barbels all the same length
- Barbels straight across
- Smallest Nebraska sturgeon, rarely exceeds 4 pounds
LENGTH LIMITS

Statewide and special length limits: The following species have minimum length limits statewide: largemouth bass, smallmouth bass, spotted bass, walleye, sauger, saugeye, and muskellunge. Please refer to the Public Waters Section of this guide on the specific waterbody that you are fishing for any special regulations.

Black Bass (largemouth, smallmouth, and spotted)
Daily bag limit can contain only one black bass of 21 inches or longer, statewide.

• Largemouth Bass:
12-inch minimum — Privately owned waters and the Missouri River between Nebraska and Iowa and between Nebraska and Missouri.
15-inch minimum — Statewide on all government or publicly owned, controlled or managed waters, also including DeSoto National Wildlife Refuge (Washington County), Snyder Bend Lake (Dakota and Thurston counties) and Lake Yankton (Cedar County). Exceptions to this regulation are those waters that are regulated by either a 21-inch minimum or catch and release on all black bass species.

• Smallmouth and Spotted Bass:
12-inch minimum — Statewide on all publicly owned, controlled or managed waters, including the Missouri River between Nebraska and Iowa and between Nebraska and Missouri.

Walleye, Sauger and Saugeye
Daily bag limit can contain only one walleye, sauger or saugeye of 22 inches or longer on all inland waters except Elwood Reservoir.

15-inch minimum — statewide except for that portion of the Missouri River downstream of Gavins Point Dam (no minimum length) and selected reservoirs listed below. DeSoto National Wildlife Refuge (Washington County) has a 15-inch minimum length.

18-inch minimum — Harlan County Reservoir, including the Republican River upstream to the Nebraska Highway 46 bridge (Harlan County), Sherman Reservoir (Sherman County), and Calamus Reservoir (Loup and Garfield counties).

• Merritt Reservoir — daily bag limit of four may include one walleye from 15 through 18 inches and three over 18 inches or four over 18 inches, but no more than one over 22 inches in length allowed in the daily bag.

• Elwood Reservoir — 15-inch minimum length in conjunction with an 18- to 24-inch protected slot limit with only one walleye over 24 inches allowed in the daily bag limit.

• Branched Oak Reservoir — daily bag limit is one walleye 22 inches or longer.

Muskellunge/Tiger Muskie
40-inch minimum — statewide

Black Bass (largemouth, smallmouth, and spotted)
12-inch minimum — Privately owned waters and the Missouri River between Nebraska and Iowa and between Nebraska and Missouri.
15-inch minimum — Statewide on all government or publicly owned, controlled or managed waters, also including DeSoto National Wildlife Refuge (Washington County), Snyder Bend Lake (Dakota and Thurston counties) and Lake Yankton (Cedar County). Exceptions to this regulation are those waters that are regulated by either a 21-inch minimum or catch and release on all black bass species.

• Largemouth Bass:
12-inch minimum — Privately owned waters and the Missouri River between Nebraska and Iowa and between Nebraska and Missouri.

Crappie
10-inch minimum: Branched Oak Reservoir (Lancaster County) Cottonmill Lake (Buffalo County), Czechland Lake (Saunders County), Sherman Reservoir (Sherman County), Walnut Creek Recreation Area (Sarpy County), Wehrspann Lake* (Sarpy County), Yanney Park Lake, (Buffalo County) and Zorinsky Lake* (Douglas County).

*Note: The length limit is not in effect during the month of April on Wehrspann and Zorinsky lakes.

Sunfish
8-inch minimum — Czechland Lake (Saunders County), Mormon Island Lakes West, Middle and East (Hall County), Walnut Creek Recreation Area (Sarpy County), Wildwood Lake (Lancaster County), Windmill SRA #4 (Buffalo County), and Yankee Hill Lake (Lancaster County).

Striped Bass, White Bass and their hybrids (combined)
Daily bag limit can contain only one fish 18 inches or longer - Statewide

18-inch minimum — Bridgeport SRA (Morrill County), Fremont SRA (Dodge County), Fort Kearny SRA (Kearney County), Louisville SRA (Cass County) and Windmill SRA (Buffalo County).

Bullfrogs
4½-inch minimum — Snout to vent statewide.

AREAS WITH SPECIAL DAILY BAG LIMITS

• Trout (All species)
Daily bag limit – 4
Lake Ogallala (Keith County)
Two Rivers Trout Lake (Douglas County) (Four tag allowed per tag with up to three tags purchased per day.)

• Black Bass (largemouth, smallmouth, and spotted)
Total catch and release
Please refer to the Public Water Section for the individual waters managed with this regulation.

KNOW WHAT YOU CAUGHT

White Bass
• Anal fin spines stair-stepped
• Broken lateral stripes
• One tooth patch on base of tongue

Wiper
• Broken horizontal lines
• Usually two tooth patches on base of tongue

Yellow Bass
• Has yellow cast
• Six or seven lateral stripes, three are above lateral line
• Lines are broken toward tail
• Second and third anal spine same length

White Perch
• Second and third anal spine same length
• Sides plain, no stripes

Yellow Bass
• Tooth patch

Tooth patch

White Bass

Wiper

White Perch

Yellow Bass

1011
• Striped Bass, White Bass and their hybrids  
  Daily bag limit – 3 (no more than 1 longer than 18 inches)  
  Elwood Reservoir (Gosper County),  
  Stagecoach Reservoir (Lancaster  
  County and Willow Creek Reservoir  
  (Pierce County))

• Daily bag limit – 1  
  Bridgeport SRA (Morrill County),  
  Fremont SRA (Dodge County),  
  Fort Kearny SRA (Kearney County),  
  Louisville SRA (Cass County),  
  and Windmill SRA (Buffalo County)

Total catch and release  
  Branched Oak Reservoir (Lancaster County)

• Northern Pike  
  Daily bag limit – 1  
  Cottonmill Lake (Buffalo County)

• Daily bag limit – 10  
  Box Butte Reservoir (Dawes County)  
  The daily bag limit of 10 pike can  
  include only 1 pike over 34 inches  
  and 9 less than 28 inches or all 10  
  under 28 inches. Possession limit is  
  20.

• Panfish  
  Daily bag limit – 10  
  Total catch and release. Please refer  
  to the Public Waters Section for  
  the individual waters managed with  
  these regulations.

• Channel catfish  
  Daily bag limit – 3  
  Please refer to the Public Waters  
  Section for the individual waters  
  managed with this regulation.

Total catch and release  
  Fort Kearny SRA #2 (Kearney  
  County), Two Rivers SRA Lake #3  
  and #4 (Douglas County), Wildwood  
  Lake (Lancaster County) and  
  Windmill SRA #3 (Buffalo County).

• Flathead catfish  
  Total catch and release  
  Branched Oak Reservoir (Lancaster  
  County)

NOTE: Urban lakes are usually  
  managed with restrictive harvest to  
  maintain a quality fishery. Be sure to  
  check for special regulations in the  
  Public Waters Section for each specific  
  lake prior to fishing.

LENGTH LIMITS AND  
CLEANING OF FISH  
Where length and bag limits apply,  
fish cannot be filleted until fishing is  
completed for the day and anglers are  
on the water. Fish species subject to  
a bag limit and possession limit, but not a  
length limit, can be processed prior to  
transport if the fillets are kept in one  
piece until cooked, so the bag and  
possession limits can be determined.  
Fish species subject to a length limit  
cannot be possessed with more than  
the gills, viscera and scales removed  
while on the water, wading or engaged  
in fishing. Any fish in possession while  
actively fishing or on the water will be  
subject to length and bag limits that  
apply to the water being fished. Once  
on the water, the fish can be filleted for  
transportation and storage.

Know what you caught. When in  
doubt – release the fish unharmed.

HOOK-AND-LINE  
REGULATIONS  
Hook-and-line fishing is allowed  
year-round throughout the state (no  
closed season), except as noted or as  
posted at an area. Definition of a hook:  
one hook means a single, double, or  
treble-pointed hook. All hooks attached  
to an artificial bait or lure shall be  
counted as one hook.

Ponds, Lakes or Reservoirs: Anglers  
are limited to no more than two  
lines, with a maximum of two hooks on  
each line, with these being any type of  
atached line (rod and reel or fishing  
pole) on all lakes, ponds or reservoirs  
or in their inlets, outlets and canals  
in one-half mile of these bodies of  
water, with the exception of ice-fishing  
line limits. This includes Lewis and  
Clark Lake from Gavins Point Dam  
upstream to the Santee boat ramp in  
 Knox County, Nebraska.

Ice-Fishing: A total of five lines with  
two hooks on each line are permitted  
while ice-fishing. Each ice-fishing line  
must be under direct supervision and  
within unaided observation of the  
angler. Holes made for ice-fishing may  
not exceed 10 inches in diameter on  
any area controlled by the Commission.

A special $5 permit is required for a  
permanent shelter on state recreation  
and wildlife management area lakes.  
Applications and regulations are  
available from conservation officers,  
Commission offices or by mail from the  
Game and Parks Commission, Box 30370,  
Lincoln, NE 68503. This does not  
apply to temporary shelters used  
and removed each day.

Rivers or Streams: A total of 15  
hooks are allowed, ranging from 15  
lines with a single hook attached, to  
three lines with a maximum of five  
hooks attached. Anglers must be at  
least one-half mile from any lake, pond  
or reservoir that is associated with a  
river or stream. These can be rods and  
reels, poles, bank lines, or set lines that  
in some way are attached to the bank  
and not free-floating. Float lines are  
illegal in Nebraska. Float lines are  
defined, as any line not attached to  
the shoreline or a pole. All bank lines  
and set lines must contain identification,  
to include the angler’s name, address  
and fishing-permit number or current  
driver’s license number. Note: Upon  
completion of fishing, all bank lines and  
set lines must be removed.

SNAGGING  
Snagging of paddlefish and nongame  
fish is permitted only in the Missouri  
River under season dates and limits  
specified in the Paddlefish and  
Snagging of Nongame Fish section.  
All other waters of the state are  
closed to snagging for all species at  
times. All fish that are snagged  
accidentally or otherwise foul-hooked  
must be returned to the water immediately.

BAIT REGULATIONS  
Baitfish, listed amphibians, and  
crayfish may not be sold, except by  
permit. For commercial purposes (bait  
dealers, private aquaculturists, and  
nonresident fish dealers), refer to the  
official regulations supplied with your  
permit. The following regulations apply  
only to bait obtained for personal use. It  
is unlawful to take baitfish, listed  
amphibians, or crayfish from any lake,  
reservoir, or bayou unless otherwise  
stated below. Digging and trapping for  
bait or any other purpose is prohibited  
on all state-owned or controlled areas.  
Seining for baitfish, listed amphibians,  
or crayfish is allowed on streams  
located on SRAs and WMAs unless the  
stream is listed as closed. All  
nonbaitfish, of whatever size, taken  
while netting or seineing for bait, must  
be immediately returned to the waters  
from which taken. The bag and  
possession limit of baitfish and listed  
amphibians for personal use is 100.

Gizzard shad and alewife may be  
taken for use as bait by legal dip nets  
from lakes, ponds, reservoirs, and below  

LAKE AND RIVER LEVEL  
INFORMATION ON THE  
INTERNET  
Anglers can find current water  
level information online for many of  
Nebraska’s large reservoirs.

Fish Species Categorization

**GAME FISH**
*
Is defined to include all baitfish, commercial fish and sport fish:

**SPORT FISH**
The following fish species are designated as sport fish:

- all sunfish hybrids
- American eel
- black crappie
- blue catfish
- bluegill
- brook trout
- brown trout
- burbot
- channel catfish
- chinook salmon
- cutthroat trout
- flathead catfish
goldeye

- grass pickerel
- green sunfish
- largemouth bass
- muskellunge
- northern pike
- orangespotted sunfish
- paddlefish
- pumpkinseed
- rainbow trout
- redear sunfish
- rock bass
- sauger
- saugeye

- shovelnose sturgeon
- skipjack herring
- smallmouth bass
- spotted bass
- striped bass
- striped bass hybrid (wiper)
tiger muskellunge
walleye
white bass
white crappie

**NO-LIVE-BAITFISH AREAS**
The following areas do not allow the use or possession of live baitfish:

- Chalkrock Lake (Cedar County)
- Cottonmill Lake (Buffalo County)
- Crescent Lake National Wildlife Refuge (Garden County)
- Frye Lake (Grant County)
- Holmes Lake (Lancaster County)
- Meadowlark Lake (Seward County)
- Olive Creek Lake (Lancaster County)
- Pibel Lake (Wheeler County)
- Valentine National Wildlife Refuge (Cherry County)
- Wildwood Lake (Lancaster County)
- Yankee Hill Lake (Lancaster County)

**BAITFISH**
The following fish species are designated as baitfish:

- alewife
- bigmouth shiner
- brassy minnow
creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner

The following amphipods and crustaceans are covered under the baitfish regulations:

- devil crayfish
- northern crayfish
- northerm leopard frog
- plains leopard frog
- ringed crayfish

**THREATENED AND ENDANGERED SPECIES**
The following fish species are designated as Threatened or Endangered in Nebraska and are not legal to possess:

- blacknose shiner
- finescale dace
- lake sturgeon
- northern redbelly dace
- pallid sturgeon
- pearl dace
- sturgeon chub
- topeka shiner

**PANFISH**
The following fish species are designated as panfish:

- all sunfish hybrids
- black crappie
- bluegill
- green sunfish
- orangespotted sunfish
- pumpkinseed
- redear sunfish
- rock bass

**SUNFISH**
The following fish species are designated as sunfish:

- all sunfish hybrids
- bluegill
- green sunfish
- orangespotted sunfish
- pumpkinseed
- redear sunfish

**COMMERCIAL FISH**
The following fish species are designated as commercial fish:

- black bullhead
- freshwater drum
- yellow bullhead

**NONGAME FISH**
All species that do not appear on any of the above lists are considered nongame.

- alewife
- bigmouth shiner
- brassy minnow
creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner

The following amphipods and crustaceans are covered under the baitfish regulations:

- devil crayfish
- northern crayfish
- northerm leopard frog
- plains leopard frog
- ringed crayfish

- black bullhead
- freshwater drum
- yellow bullhead
- yellow perch
- alewife
- bigmouth shiner
- brassy minnow
creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner

The following areas do not allow the use or possession of live baitfish:

- Chalkrock Lake (Cedar County)
- Cottonmill Lake (Buffalo County)
- Crescent Lake National Wildlife Refuge (Garden County)
- Frye Lake (Grant County)
- Holmes Lake (Lancaster County)
- Meadowlark Lake (Seward County)
- Olive Creek Lake (Lancaster County)
- Pibel Lake (Wheeler County)
- Valentine National Wildlife Refuge (Cherry County)
- Wildwood Lake (Lancaster County)
- Yankee Hill Lake (Lancaster County)

**Note:** Check the Public Fishing Areas section for additional urban waters where live baitfish are prohibited.

**White Perch:** It is illegal to transport or possess live white perch away from the body of water from which they were caught.
Dumping Baitfish: It is illegal to release your baitfish, or any fish caught from a different body of water, into public waters.

Exporting: Up to 100 legally captured baitfish and/or listed amphibians may be exported by a resident for personal use for fishing outside the state. No other baitfish taken from Nebraska waters may be transported out of the state in any manner, except baitfish artificially propagated in man-made impoundments by licensed aquaculturists.

Importing: It is unlawful to import or transport carp, carpsucker, buffalo, quillback, gar, gizzard shad, alewife or bowfin into the state for use as bait. Special permits are required for a person to import and sell bait or baitfish.

Baits and Scents: Cutbait is legal if the fish used has been legally acquired and the size, bag and possession limits for that species and body of water have been followed. It is also legal to chum for fish using non-harmful baits. Anise oil and other scents that do not stun, kill, or harm fish are permitted.

Leopard Frogs & Tiger Salamanders: All regulations that cover the legal use of baitfish also apply to the use of leopard frogs and tiger salamanders.

Crayfish: There is no limit on the number of crayfish a person may possess. Anyone over the age of 16 must have a bait dealer’s license in order to sell crayfish. Crayfish may be captured by hook and line, by hand, or by legal fish nets and traps as described below.

Fish Nets and Traps: The possession or use of nets, traps and electrical gear capable of stunning fish is prohibited except for the following:

- Baitfish seines of one-fourth inch nonmetallic square mesh only and not more than 20 feet long and four feet deep.
- Baitfish dip nets of one-fourth inch, nonmetallic square mesh. Neither length nor width may exceed 36 inches.
- Baitfish and bait traps of one-fourth inch square mesh material with a length of 24 inches or less, a diameter of 16 inches or less and a throat one inch or less in diameter. All minnow traps shall be raised and the baitfish removed at least every 24 hours.
- Landing nets, made of non-metallic mesh, used only for landing fish caught on hook-and-line.

CAST NETS

Cast nets may be used to collect bait with the following restrictions:

Cast nets may be used only on the following bodies of water: Calamus Reservoir, Davis Creek Reservoir, Elwood Reservoir, Enders Reservoir, Farwell South Reservoir, Gallagher Canyon Reservoir, Harlan County Reservoir, Jeffrey Reservoir, Johnson Lake, Lake Maloney, Medicine Creek Reservoir, Lake McConaughy, Phillips Canyon Reservoir, Plum Creek Reservoir, Red Willow Reservoir, Sherman Reservoir, Sutherland Reservoir, Swanson Reservoir and the Tri-County Canal from the diversion dam in Lincoln County to the J-2 return.

- Only cast nets up to 10 feet in diameter with a mesh size no larger than three-eighths inches square measure are legal gear.
- Cast nets may be used only during the months of July, August, September, October and November.
- Cast nets may be used to collect gizzard shad and alewife only.
- Live gizzard shad and alewife only may be used for bait the same day they were captured and only in the same body of water where they were collected.

FISH STOCKING

It is unlawful to release any non-native fish, reptile or amphibian in waters of the state or to release any fish in any public waters in the state except in those waters from which it came, without written authorization from the Game and Parks Commission.

NOTICE: DO NOT transfer any fish from one lake or stream to another. It is illegal to dump baitfish into a body of water. You could be destroying your own fishing!

TROUT WATERS

It is unlawful to possess a dip/landing net or seine of any type on trout streams in Sioux, Scotts Bluff, Morrill, Garden and Keith counties that are tributaries to the North Platte River and Lake McConaughy, including: Pumpkin, Red Willow, Wildhorse, Stuckenhole, Ninemile, Tub Springs, Winter, Sheep, Dry Sheep, Spotted Tail, Dry Spotted Tail, Otter, Clear, Longon, Upper Dugout, Indian, Silvernail Drain and Cedar creeks.

It is unlawful to take or attempt to take sport or nongame fish by bow and arrow or spear or to take or attempt to take by seine or trap any bait or minnows in any of the following trout streams:

- Antelope County: Verdigre Creek and all tributaries.
- Brown County: Bone Creek and all tributaries, Long Pine Creek and all tributaries, Plum Creek and all tributaries and Fairfield Creek.
- Box Butte County: Niobrara River.
- Cherry County: Middle Loup River and all tributaries, North Loup River and all its tributaries, Schlage Creek, Fairfield Creek, Snake River and all tributaries, and Plum Creek and all tributaries.
- Cheyenne County: Lodgepole Creek west of Brownson.
- Dawes County: Chadron Creek, Big Bordeaux Creek, Little Bordeaux Creek, White River above Crawford, Niobrara River from Box Butte Reservoir west to the Wyoming border and all tributaries, Dead Horse Creek, Squaw Creek and White Clay Creek.
- Garden County: Blue Creek.
- Holt County: Steel Creek and North, Middle and South branches of Verdigre Creek.
- Hooker County: Dismal River and all tributaries.

Keith County: Otter Creek, Whetetail Creek, and Longon Creek and all tributaries.

Kimball County: Lodgepole Creek and all tributaries.

Knox County: North, Middle and South branches of Verdigre Creek and all tributaries above the town of Verdigre, and Steel Creek.

Loup County: Gracie Creek.

Morrill County: Red Willow Creek, Cedar Creek, Greenwood Creek, Wildhorse Creek, Lawrence Fork Creek, Silvernail Drain, Indian Creek, Stuckenhole Creek and Pumpkin Creek below Nebraska Highway 88.

Rock County: Long Pine Creek.

Scotts Bluff County: Ninemile Creek, Winters Creek, Tub Springs, Wet Spotted Tail Creek, Dry Spotted Tail Creek, Sheep Creek, Dry Sheep Creek, Stuckenhole Creek, Akers Draw, Mitchell Drain, Moffat Drain, Alliance Drain and Bayard Drain.

Sheridan County: Snake River, Larabee Creek, White Clay Creek, Pine Creek, Deer Creek and Little Bordeaux Creek.

Sioux County: Sheep Creek Drain. Dry Sheep Creek Drain, Dry Spotted Tail Creek, Spotted Tail Creek, Niobrara River and all tributaries, White River, Soldier Creek and all tributaries, Monroe Creek, Sowbelly Creek and Hat Creek.

Webster County: Elm Creek.

ARCHERY/SURFACE SPEARFISHING

Game fish may be taken by bow and arrow from July 1 through Dec. 31 from sunrise to sunset, statewide. Game fish may not be taken with surface spears. Nongame fish may be taken by archery or surface spear statewide from sunrise to sunset between Sept. 1 and March 31 and 24 hours a day from April 1 through Aug. 31. Only hand-drawn longbows (including compound bows) are legal. A disabled person who has a medical certificate
It is unlawful to take by seine, dip net, or trap any baitfish in the following streams that contain threatened and endangered fish species:

- Cherry County: Brush Creek west of Brownlee, and Gordon Creek west of Nebraska Highway 61.
- Dawes County: Niobrara River east of Box Butte Reservoir and west of U.S. Highway 385.
- Keya Paha County: Cottonwood Creek, East Holt Creek and Holt Creek
- Madison County: Taylor Creek west of U.S. Highway 81.

Bullfrog season runs Aug. 15 through Oct. 31. The bag limit is eight bullfrogs per person. They may be captured only by hand, by the use of a hand net, or by the use of a harpoon. Bullfrogs must measure 4½ inches from snout to vent or be released. Only the entrails may be removed prior to transport.

Snapping turtles may be taken year-round, and limits are 10 in the daily bag and 20 in possession. They may be taken only by hand, hand net, hook-and-line, bow-and-arrow or gaff hook.

Mussels may be taken year-round by hand, hand net or hook-and-line. The limit is 10 daily and 20 in possession.

The Missouri River (South Dakota, Iowa and Missouri): Anglers holding a valid Nebraska, South Dakota, Iowa or Missouri sport fishing license or permit may fish all waters of the Missouri River in the state they are licensed, as well as Missouri River waters of the state immediately across the river. Waters of the Missouri River are defined to include all flowing portions and backwaters, sloughs and chutes that draw water from the Missouri River. Oxbows and backwaters separated from the Missouri River by land are included if the state boundary line passes through some part of such waters.

Mouths of tributaries may be fished only in the state that the angler is licensed. Anglers may fish from either bank or boats. Anglers fishing in the state for which they do not hold a fishing permit must abide by the more restrictive of the two state’s regulations. Both Iowa and Missouri resident anglers can fish waters of Hamburg, Bend WMA and the Nebraska portion of the Missouri River from the chute entrance (adjacent to Iowa) to the chute exit (adjacent to Missouri).
NEW PADDLEFISH PERMIT SYSTEM
Interest in harvesting paddlefish, either by archery or snagging, always has been high. Over the past several years, paddlefish harvest has been regulated through a lottery in which anglers paid a $5 fee to apply. Since more applications were received for both archery and snagging than the harvest quota allowed, some anglers did not receive a harvest tag for several years. The lottery was designed to give preference to applicants who either did not apply the previous year or failed to be selected for a tag, over anglers who had a tag the previous year.

A new system will start in 2008. Paddlefish permits will be handled in a manner similar to Big Game permits. A permit fee of $21 (includes $1 issuance fee) has been established, eliminating the $5 application fee. Also, a true preference point system is being established, so each year an angler applies but fails to receive a paddlefish permit, they will receive a preference point. With this system, those applicants with the highest number of preference points will be selected first to receive a permit. If permits remain after awarding permits to the group with the highest number of preference points, the group of applicants with the next highest number of preference points will be entered into the selection process. Each preference point group is randomly sorted. If two applicants submit a buddy application, priority will be given based on the lowest number of points possessed by either applicant. Buddy permit applicants must be both residents or both non-residents in order to be eligible for permits. Those anglers who applied for paddlefish tags in 2007, but failed to receive one will be awarded a preference point going into the 2008 selection process. No second drawing will be conducted; rather, any remaining permits will be awarded on a first-come, first-serve basis. Permit application information and form can be found on pages 22 and 23 well as our website www.OutdoorNebraska.org.

Lastly, all paddlefish anglers must also possess a valid Nebraska fishing permit.

PADDLEFISH AND SNAGGING OF NONGAME FISH

Missouri River - Snagging of paddlefish and nongame fish is permitted from the Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge channel northwest to the east end of the chalk point. However, snagging off the north wall of the spillway is prohibited. All snappers must obtain and have in their possession an unfilled paddlefish tag while actively snagging, in addition to a valid fishing permit, if required. From Gavins Point Dam to 0.6 mile downstream, they may fish only with a Nebraska resident or nonresident fishing permit or a South Dakota resident permit. In the remainder of the river open to snagging, South Dakota nonresident permits also are valid.

Paddlefish harvested by snagging may be possessed only on the Missouri River during the open season in the designated open area. All inland waters are closed to paddlefish harvest. The snagging season runs only from Oct. 1 through Oct. 31. Legal hours are 7 a.m. to 7 p.m. Applicants must be 12 years old by Oct. 1 in order to apply for a snagging permit (see section on Paddlefish Tags). A paddlefish must be tagged immediately in the dorsal fin with the angler’s tag upon addition to the creel. Any paddlefish tag that is locked prior to attachment, altered or modified shall be void and will not be replaced. Only one hook may be used when snagging, and the gap between the point of the hook and the shank may not exceed one-half inch.

The daily bag and possession limits are the total number of tags issued to an individual. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. (See section on Paddlefish Tags). All paddlefish anglers are required to cast for and hook their own fish. Paddlefish between 35 and 45 inches long (measured along the centerline of the fish, lying flat, from the front margin of the eye to the natural fork of the tail), must be returned to the water immediately. The slot limit is designed to protect spawning-size fish.

It is unlawful to use a gaff hook or other penetrating device while landing snagged paddlefish. Immediate cleaning of a snagged paddlefish is restricted to the removal of only the snout, in front of the eye, and the viscera. Final processing may not be completed until anglers have reached their residence or prior to consumption. Anglers should be prepared to transport a large paddlefish with only the snout removed, if they choose to harvest a fish more than 45 inches in length.

HOW TO MEASURE A PADDLEFISH

LENGTH

Missouri River - Paddlefish may be taken by bow and arrow and possessed on open waters of the Missouri River only during the season that begins on the second Saturday of July (July 12) and runs for 30 consecutive days (through Aug. 10), with legal hours being sunrise to sunset. The area of the Missouri River open to archery paddlefish is from Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge channel northwest to the east end of the north wall of the spillway. The area downstream of this line is open to archers taking both game and nongame fish during the appropriate seasons.

Paddlefish harvested by bow and arrow may be possessed only on the Missouri River during the season in the designated open area. All paddlefish archery anglers must obtain and have in their possession a paddlefish tag in addition to a fishing permit. Applicants must be 12 years old by the second Saturday of July to apply (see section on Paddlefish Tags). Any paddlefish landed must be tagged immediately in the dorsal fin with the angler’s tag. Any paddlefish tag that is locked shut prior to attachment, altered or modified shall be void and will not be replaced. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. Only the head, viscera and tail may be removed from archery-harvested
FISH SALVAGE IN IRRIGATION CANALS

The Commission has implemented regulations affecting fish salvage activities on dewatered irrigation canals. The following list summarizes the regulations for fish salvage of irrigation canals:

- Fish salvage is restricted to canals listed in the regulations. An application must be filled out, approved by the Commission, and carried by parties conducting fish salvage on canals.
- Stocking fish in any body of water with fish salvaged from irrigation canals must be approved on the salvage application form.
- Salvaged sport fish taken for human consumption are subject to all statewide length, daily bag and possession limits.
- Salvaged baitfish must comply with bait collection regulations.
- All approved fish salvaged from irrigation canals must be reported to the Commission on the report form provided.

PLATTE RIVER DRAINAGE:
- Buffalo County: Kearney Canal
- Dawson County: Buffalo Creek Supply Canal, Cozad Irrigation Canal, Dawson County Irrigation Canal, Farmers and Merchant Canal
- Dawson and Buffalo Counties: Elm Creek Canal
- Dawson and Lincoln Counties: Gothenburg Canal, Orchard and Alfalfa Canal, Six-Mile Irrigation Canal, Thirty-Mile Irrigation Canal
- Gosper County: E67 Canal System
- Gosper and Phelps Counties: E65 Canal System
- Gosper, Phelps and Kearney Counties: Phelps County Canal System
- Keith and Lincoln Counties: Sutherland Supply Canal
- Lincoln County: Maloney Supply Canal

REPUBLICAN RIVER DRAINAGE:
- Franklin County: Franklin Pump Canal
- Franklin and Harlan Counties: Naponee Canal

The following is a list of canals where the Commission may authorize salvage activities during dewatering:

Office use only. Application number ____________________________

Resident/Nonresident Fee $21

APPLICATION FOR PADDLEFISH PERMIT

- Paddlefish Archery Permit
- Paddlefish Snagging Permit

First name Middle initial Last name

Address - Street / P.O. Box / Rural Route and Box Number

City State Zip ( )

Daytime Telephone Social Security Number (last 4 digits)

Date of birth - Month: _____ Day: ______ Year: ______ Sex: _____

Hair color: ______ Eye color: ______ Height: _____ ft. ______ in. Weight: ______

- Buddy permit (please attach second application form along with fee and enclose in same envelope)

E-mail address ____________________________

- VISA - MasterCard

Card number: ____________________________ Exp. date ____________________________

Please note that the applicant must be 12 years old by the second Saturday of July to apply for an archery tag and by October 1 to apply for a snagging permit. Permit cost is $21 (includes $1 issuance fee)

Send this application with appropriate fee to:
Nebraska Game and Parks Commission 2200 N 33rd St. P.O. Box 30370, Lincoln, NE 68503-0370

Paddlefish Archery Permit Application Periods

Application Period ____________________________ April 1 - 30*

Any remaining permits after the first drawing will be sold on a first-come, first-serve basis with sales starting at 1:00 P.M. CDT on the first working day of June

Paddlefish Snagging Permit Application Periods

Application Period ____________________________ July 1 - 31*

Any remaining permits after the first drawing will be sold on a first-come, first-serve basis with sales starting at 1:00 P.M. CDT on the first working day of Sept.

*All application periods begin at 1 p.m. Central Daylight Savings Time. Mailed applications must be received in the Lincoln office by 5 p.m. on the last day of the application period. Online applications end at midnight.
designated release areas and on-the-water measurements and immediate release of fish (no on-shore weigh-in ceremony). A Fishing Tournament Approval Certificate must be present at the tournament site. The tournament dates and forms will be listed on the Commission’s Web site, www.OutdoorNebraska.org.

Tournament Results: A “tournament results form” will be sent to the tournament director. This form must be completed and returned to the Fisheries Division within 30 days following the conclusion of the fishing tournament. Failure to return the form or provide the requested information will result in denial of future fishing-tournament requests for at least one year.

Tagged Fish: The use of tagged or otherwise marked fish is prohibited in any fishing tournament, derby or contest that is held on: (1) waters owned or controlled by the Commission; and (2) waters stocked by the Commission during the preceding 24 months, excluding private lakes not owned by the state or other governmental entity.

FREE FISHING DAY
MAY 17

Free Fishing and Park Entry Day is intended to attract those who no longer fish or who have never fished and to give them an opportunity to do so without purchasing a permit. It is held on the Saturday prior to Memorial Day weekend. Anglers, both resident and nonresident, can take advantage of that day by taking a nonangling friend to any body of water in the state and showing them how much fun fishing can be.

**PRIVATE WATERS**

Permission from the landowner is required to access any body of water or stream located on private property. Although a private body of water may receive fish for stocking from the Commission, the owner controls access to it and anyone fishing it must have a valid fishing permit. The only waters where a fishing permit is not required are those entirely on private land, entirely stocked with private hatchery-reared fish, and not connected by inflow or outflow with other waters outside the pond owner’s property. An unlicensed angler who catches fish from such a body of water and wants to remove them from the premises must have a written statement from the pond owner listing the pond owner’s name and the number of fish taken.

After properly accessing a flowing body of water, an angler may fish while afloat in a tube, canoe or boat. An angler or canoeist in a nonpowered vessel can enter private property without permission only if it’s necessary to portage around a fence or obstruction. Landowner permission is required to operate vehicles, such as all-terrain vehicles, along or in a stream.

**LAKE MAPPING**

Do you want to have a better understanding of the bottom contours of the lake you are fishing? You are invited to check out our website – www.OutdoorNebraska.org. Click on the Fishing icon then go to Lake Mapping Program and click on “go”. Now you are ready to check out the various maps available for lakes. The list of lakes continues to grow, so be sure to check this site throughout the year.

**TOURNAMENTS, CONTESTS AND DERBI**

Tournament Registration: All fishing tournaments, derbies or contests held on publicly owned, controlled or managed waters that require an entry fee to participate, must be registered with the Commission’s Fisheries Division at least 45 days prior to the event. Voluntary information on other tournaments, such as club tournaments, is welcome. An event may be denied if the date(s) and location(s) conflicts with a previously approved event. Applicant denial can also be based on safety concerns due to low water conditions or anticipated heavy use that could result in boat ramp congestion. The Commission’s Fisheries Division may impose special conditions not specifically covered herein for a fishing tournament, derby, or contest if deemed necessary to protect the resource or to assure public safety. Special conditions may include, but are not limited to: aerated live wells, release of live fish,

Since 1983, the Nebraska Game and Parks Foundation has supported numerous efforts to conserve and maintain the habitat, parklands and wildlife that make Nebraska special.

The Foundation’s focus on the care and preservation of our natural resources helps to ensure that future generations will be able to enjoy the same opportunities and amenities that we take for granted today.

To learn more about the Foundation, or how your tax-deductible contribution can help this mission continue, please visit our website.

www.NebraskaGameAndParksFoundation.org
The catch must be verified. This may be done by an employee of the Commission, a permit vendor, a witness or a photograph.

Anglers 16 years of age or older must possess a current Nebraska fishing permit and enter the permit number on the application.

Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement to receive an award.

Anglers may receive only one award based on weight per year for each species. There is no limit on the number of catch-and-release awards.

Anglers who release a Master Angler fish will receive a “Catch and Release Master Angler” pin in addition to the Master Angler certificate.

Minimum weights must be met to qualify for a Master Angler Award for a harvested fish.

Minimum lengths are used strictly for Master Angler Awards for a fish that was caught and released.

**STATE RECORDS / MASTER ANGLERS**

If you make an outstanding catch, it may qualify for either a Game and Parks Commission State Record or a Master Angler Award. Application forms are available from any Commission office, conservation officer or permit vendor, or are found in the Fishing Guide or on the Commission’s Web site www.OutdoorNebraska.org. Rules include:

**STATE RECORD RULES**

1. Fish MUST be caught in accordance with Nebraska Fishing Regulations by rod and reel (not set lines or limb lines), underwater spear-fishing, surface spearing, or archery and MUST be taken from Nebraska waters.

2. Fish MUST be weighed on an accredited or certified scale. A commercial measuring tape or stick should be used to measure the fish. The fish should be measured, from the tip of the mouth (closed) to the tip of the tail (tail lobes pressed together) with the fish laying flat on the tape.

3. Only fish that exceed the current record by at least one ounce are eligible for a state record.

4. Two witnesses, one of which MUST be a permanent employee of the Commission, must witness the weighing and measuring of the fish and sign the application.

5. The angler MUST display a Nebraska fishing permit to the Commission employee that witnesses the weight.

6. One clear photograph showing a close-up side view of the fish, and one clear photograph showing the angler with the fish MUST accompany the completed application form. All photographs become the property of the Commission.

7. A Commission fisheries biologist MUST verify the species of fish. The fish MUST be preserved flat until the species is verified.

8. The Commission reserves the right to collect fish scale, tissue or spine samples to check fish identification, and to refuse any questionable application submitted.

9. The Commission reserves the right to revoke state records if the record holder is found in possession of illegal fishing gear or has been cited for repeated fishing violations that cast suspicion on the authenticity of the record catch.

10. No fish caught from any aquaculture or commercial put-and-take facility is eligible.

11. The application must be submitted within 30 days of the date the fish is caught.

**MASTER ANGLER RULES**

1. All fish must be taken from Nebraska waters.

2. If a fish is caught from private waters, a valid fishing permit is required to receive the award.

3. Fish must be taken by hook-and-line. Fish caught on bank lines are not eligible. Fish must be legally hooked, played and landed by the applicant for the award.

4. The catch must be verified. This may be done by an employee of the Commission, a permit vendor, a witness or a photograph.

5. Anglers 16 years of age or older must possess a current Nebraska fishing permit and enter the permit number on the application.

6. Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement to receive an award.

7. Anglers may receive only one award based on weight per year for each species. There is no limit on the number of catch-and-release awards.

8. Anglers who release a Master Angler fish will receive a “Catch and Release Master Angler” pin in addition to the Master Angler certificate.

9. Minimum weights must be met to qualify for a Master Angler Award for a harvested fish.

10. Minimum lengths are used strictly for Master Angler Awards for a fish that was caught and released.

**THE MINIMUM SIZE REQUIREMENTS ARE:**

- American Eel  . . . . . . . . . . . . . . . . 24 in. or 1lb.
- Bass
  - Largemouth  . . . . . . . . . . . . . . . 20 in. or 5 lbs.
- Rock  . . . . . . . . . . . . . . . . . . . . 11 in. or 1 lb.
- Smallmouth  . . . . . . . . . . . . . . . 18 in. or 3 lbs.

**MASTER ANGLER / STATE RECORD APPLICATION**

Please print legibly. See rules.

PUBLIC FISHING AREAS

How to use this guide

The fisheries division divides the state into six geographic regions, or management districts, with an office in each district. In this guide, lakes, rivers and streams are listed in alphabetical order within the district they are located. The six districts are: Panhandle (northwest), North-central, Northeast, Southwest, South-central, and Southeast, presented in that order. Therefore, Sandhills lakes located in North-central Nebraska will be found in the second section of the guide, near the front, while lakes around Lincoln in the southeast will be found in the last section, near the back of the guide.

For boating regulations please refer to the 2008 Boating Regulation Guide.

PANHANDLE

The Panhandle is a haven for trout anglers. Rainbows, browns and brooks abound in the many Pine Ridge and North Platte valley coldwater streams. This area also contains several reservoirs and sandhill lakes that provide excellent walleye, muskie, northern pike and panfish fishing.

DISTRICT I - PANHANDLE

Alliance Office
Al Hanson,
Fisheries Supervisor
(308) 763-2940
Fax (308) 763-2943

Bourdeaux Creek (Dawes Co.) - SE of Chadron. Public access on Big Bourdeaux Creek WMA. Brook and brown trout.

SOUTH-CENTRAL

A variety of opportunities awaits anglers in south-central Nebraska. Large reservoirs, like Harlan and Sherman, offer fishing for walleye, white bass and channel catfish. Most reservoirs have modern and primitive camping facilities and allow all boating. Smaller lakes provide angling opportunity for largemouth bass, bluegill and channel catfish. River fishing is available at public areas on the Loup, Platte and Republican rivers. Stream trout fishing is offered at Elm Creek near Red Cloud.

SOUTHEAST

Fishing opportunity is increasing in the Southeast. Aquatic Habitat Projects are improving hundreds of acres of fishing water in the area. Farm ponds, streams and rivers are important fisheries. In spite of potential for heavy fishing pressure, anglers will find plenty of opportunities to catch catfish, largemouth bass and bluegill in most waters.

DISTRICT V - SOUTHEAST

Lincoln Office
Jeff Jackson,
Fisheries Supervisor
(402) 471-7647; Fax (402) 471-7649
