This Article is brought to you for free and open access by the Agricultural Sciences and Natural Resources, College of (CASNR) at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in The Sower (CASNR Alumni newsletter) by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.
Arnold, Gingery receive 1994 Alumni Awards

Saturday, October 29, 1994 was a great day to be in Lincoln, Nebraska! The sky was brilliant blue, the Huskers were red hot, and the atmosphere at the Wick Center was warm and pleasant as alumni and Natural Resources (CASNR) and the College of Human Resources and Family Sciences (HRFS) gathered for their annual Football Reunion and Awards Program.

Over 150 alumni and friends enjoyed an early breakfast buffet before the program, which included College Updates from Dean Donald Edwards - CASNR, and Dean Karen Craig - HRFS. Many of the items Dean Edwards reported to the group can be found in his column printed elsewhere in this issue of The Sower. CASNR is showing increases in enrollment and in the number of companies interviewing on campus.

The highlight of the program was the presentation of the College of Agricultural Sciences and Natural Resources Alumni Association (CASNRAA) 1994 Alumni Awards. Dr. Raymond Ward of Kearney, Awards Committee chairman, presented the Alumnus of the Year Award to Dr. Roy Arnold, of Corvallis, Oregon. Arnold, Provost and Vice President for Academic Affairs of Oregon State University, is a native of Lyons and a 1962 graduate of the University of Nebraska. He earned his master’s degree and doctorate from Oregon State and joined the UNL faculty in 1967 as assistant professor of Food Science and Technology. He later served as associate professor, professor, department chair, and dean and director of the Agricultural Experiment Station. Dr. Arnold served five years as Vice Chancellor for the Institute of Agriculture and Natural Resources at UNL before returning to Oregon State in 1987.

Receiving the 1994 Award of Merit was Robert O. Gingery of Lincoln. Gingery is a native of Filley, and caned UNL in 1942 and 1952. Starting his career as a teacher, Gingery is now retired from Farmland Industries, where he was division general manager. Always involved in civic affairs, Gingery has been active in such organizations as the Nebraska Ag 2001 Committee, the National Agricultural Alumni and Development Association and the Nebraska Agricultural Leadership Council, and has served as president of Partners of America, Capital City Kiwanis, Nebraska Ag Builders and the Nebraska Council for Public Relations in Agriculture.

Following the awards presentation, Dale Bacon of Lincoln “haunted” the audience with a few tales of supernatural occurrences on the UNL campus. And of course, many of the alums then had the opportunity to attend the NU-CU football game. (Final Score: NU - 24, CU - 7) It was indeed a great day to be in Lincoln, wearing red, and proud to be a UNL alumnus!

Note: The CASNRAA Board of Directors will be accepting nominations for the 1995 Alumni Awards (Alumnus of the Year, Award of Merit and Honorary Life Membership) prior to August 15, 1995. Please contact the Wick Alumni Center for information and or a nomination form.

ASAP Program kickoff held October 20

The ASAP (Alumni and Students Association Professionally) Mentoring Program officially kicked off the year with an informal dinner held at the Wick Alumni Center on Thursday, October 20. Response from the sophomore class was excellent again this year, and 26 students have been paired with a local professional in the student’s career area.

This program, now in it’s third year, offers students an opportunity to gain first-hand information on their chosen career, and hopefully gain some valuable insight and advice as they continue planning their academic course. The program is intentionally open and unstructured, allowing the student-mentor teams freedom to arrange meetings according to their own schedules. Past participants have found the ASAP program to be helpful, enlightening and fun.

If you are interested in serving as a mentor to a CASNR student, please call the Wick Alumni Center, 402-472-2841, for further information.

(Continued on page 6)
n Saturday, October 29, 1994, the College of Agricultural Sciences and Natural Resources Alumni Association held their annual fall reunion. This year it was held at the University of Nebraska-Lincoln Wick Alumni Center in conjunction with Homecoming and prior to the University of Nebraska-Lincoln/Colorado football game. As special recognitions and awards were presented and acquaintances renewed, one must be impressed with the accomplishments of the graduates from the University of Nebraska College of Agricultural Sciences and Natural Resources.

(formerly the College of Agriculture). The College of Agricultural Sciences and Natural Resources is your college — past, present and future! Many times we refer to the Institute of Agriculture and Natural Resources (the College of Agricultural Sciences and Natural Resources is the academic component of the Institute of Agriculture and Natural Resources) as having world class programs, faculty and students.

Yesterday’s students are today’s alumni; today’s students will soon join the ranks of alumni. Yesterday’s world class students have done well; we believe the same will be said for the current.

Let me introduce you to today’s students:

Why are we concerned about attracting and retaining high quality students in the College of Agricultural Sciences and Natural Resources? During the past two years about 60% of the companies coming to interview students at the University of Nebraska-Lincoln came to the College of Agricultural Sciences and Natural Resources. This fall the College of Agricultural Sciences and Natural Resources had the largest career fair in its history as 53 companies came to talk with College of Agricultural Sciences and Natural Resources students about internships and careers following graduation. Why is this of significance? During the past several years, and we anticipate this trend will continue, over 70% of all graduates from the College of Agricultural Sciences and Natural Resources took jobs in Nebraska. Many of the others that take jobs outside Nebraska take jobs that have a positive influence upon the economy of Nebraska. We anticipate the job market to remain strong. The graduates from the College of Agricultural Sciences and Natural Resources have a significant impact upon the economy of Nebraska.

Enrollments continue to increase as we implement new majors and minors, improve current curriculum, continue to provide quality teaching and advising in modern state-of-the-art learning facilities, and the job market remains strong. An important component to this increase is the College of Agricultural Sciences and Natural Resources’ newly implemented transfer programs with community, state and private colleges and universities — referred to as “From Start to Finish.”

Most important to the increase in enrollments in the College of Agricultural Sciences and Natural Resources is the continued support of the College of Agricultural Sciences and Natural Resources alumni. Your encouragement for young people to select a major in the college, provide job opportunities for graduates and financial support through scholarships, fellowships, internships and other gifts have made the difference.

As we look to the future, we need your continued guidance, encouragement and support. During the months and years ahead, we will continue to develop strategies and action plans; and visioning as to what the College of Agricultural Sciences and Natural Resources should be doing in the future.

In future issues of *The Sower*, I will share with you how you may be an active participant in strategic planning and visioning for the Institute of Agriculture and Natural Resources outreach program whereby academic programs are taken to the “students” regardless of location, and new multi-media teaching facilities.

Please visit your College of Agricultural Sciences and Natural Resources soon. Many changes have occurred, more will be forthcoming.

Don Edwards, Dean
Natural Resources. The overall goal of responsibilities while serving for the community leaders. One of the biggest placement office, which is housed in the recruitment of incoming students to the College of Agricultural Sciences and Natural Resources. The Student Ambassadors also work with University administration to create an awareness of needed or current college student services, and help foster communication between administration and students. Additionally, they work on projects such as Biology Career Workshop, High School Scholars Research Program, and Red Letter Days. Other responsibilities include mailings to general studies majors and incoming students, and setting up tours for potential students and their families.

The Student Ambassador program also helps develop personal leadership and communication skills within the ambassadors. Organizational skills are developed while setting up large projects and working in the office of the Dean. Last, but certainly not least, the nine team members become very good friends with each other and with the staff and administration of the College of Agricultural Sciences and Natural Resources.

Girl Scout Tech-Holiday

Saturday, October 22, 1994 was the date set for the College of Agricultural Sciences and Natural Resources to host the Homestead Girl Scout Council on the Tech-Holiday. The event began at 8:15 am and concluded at 11:30 am. There were 330 Girl Scouts ranging from 4th to 6th grades on campus that day who experienced what CASNR has to offer. Forty-seven students, staff, and faculty members were on hand, serving as guides, helpers, and presenters.

High School Scholars Research Program

The High School Scholars Research Program (HSSRP) involves high school juniors and seniors in a science competition held on East Campus. Twenty-four students applied for this opportunity to present research that they have worked on during their high school years. Twenty students from Nebraska, Wyoming, and Missouri were selected to participate in the program, and the top ten applicants will present their symposiums. Faculty members judged the symposiums and interviewed the students. The top prize winner received a research grant of $2,000 and full tuition scholarship. Second place received a $2,000 research grant, and third place a $1,000 research grant. HSSRP was held on Saturday, November 19, 1994.

Ag Career Day in York

On October 12, 1994, the First National Bank of York hosted three hundred high school students at Ag Career Day in York. Several individuals from CASNR gave presentations to the students, including Larry Larson, Kathy Anderson, Glenn Hoffman, Durward Smith, Mike Kocher, Cindy Cammack, Jack Schinostock, Del Hemsath of Nebraska College of Technical Agriculture, and Dee Griffin of the Great Plains Vet Education Center.

Red Letter Days

Fall Fridays mean busy days for the recruitment office at the College of Agricultural Sciences and Natural Resources — as many as 150 students will attend Red Letter Days this fall! Each Red Letter Day is an opportunity for high school seniors who are interested in the University to come to campus. The students and their families are given the opportunity to come to East Campus in the afternoon where they can sit in on an information session given by the CASNR Student Ambassadors. The Student Ambassadors also lead them on tours of East Campus and answer questions from a student’s point of view.

If you know of a student who may be interested in attending the College of Agricultural Sciences and Natural Resources at UNL, please contact the Office of the Dean, 402-472-2201, for recruitment information.

Placement Library moves

The Placement Library for CASNR has moved from 103 Ag Hall to 318 East Campus Union. This location makes the library easier for students, alumni and employers to access, and is near the on-campus interview rooms. The library is home to over 300 company files, company binders and videos, books on career planning and job hunting, current job listings, and a TV and VCR. The office was newly furnished in January 1994 by the Nebraska East Union; this fall a new computer was purchased with funds from the UNL Parents Association. This computer currently contains the Federal Opportunities Career Information System (FOICS) and the Nebraska Career Information System (NCIS). Office hours for the East Campus Career Services Center were increased to 30 hours/week in the fall of 1993, resulting in increased student usage of 2179. Office hours are 8am to noon Monday through Friday, with afternoon hours (1-5pm) on Tuesdays and Thursdays. The phone number is: 402-472-8273. Next time you’re on campus, stop in and visit!

Career Services Center available to alumni

Are you currently seeking employment? Let the Career Services Center (CSC) at UNL help you! Registering with CSC gives you access to hundreds of employers. CSC keeps binders full of current job openings, including requests from several professional recruitment agencies. In addition to on-campus interviews, some employers request resumes of students and alumni. If you are registered and your qualifications match what an employer is seeking, your resume is sent to them. The fee is $20/year for students, and $45/year for alumni. CSC is located in the CASNR Placement Library, 318 East Campus Union. The phone number for information is 402-472-8273.

Companies attending CASNR Career Day 1994:

- Advance Personnel*
- Ag Career Consulting
- Agronomic Associates
- American Cyanamid
- Archer Daniels Midland
- Asgrow Seed
- Cargill
- Cargill/Nutrena Feed Division
- Cenex/Land O Lakes
- Central
- Christensen Farms*
- Ciba Corporation
- Collingwood Grain
- Country General
- Continental Grain/North American Grain
- Continental Grain/Wayne Feeds
- Crop Pro-Tech
- Crop Quest
- DeKalb Swine Breeders

CASNR Alumni Update Day — March 17, 1995

Whether you consider yourself a high-tech info-surfer, or road kill on the information highway, you’ll benefit by attending the one-day “Windows on Agriculture” seminar, Friday, March 17, 1995. The successful agricultural professional must keep current with new technology, late-breaking research, market news and trends. Finding time to do that in the face of the ongoing demands of your job (whether that’s fixing fence, meeting the needs of your clients, or gathering statistics on soybean production in Brazil) is tough to do. To survive, you must be able to get the information you need, and get it in a timely fashion.

The College of Agricultural Sciences and Natural Resources has been a leader in developing cutting edge information delivery systems. The CASNR Alumni Update Day will help alumni discover some of the many ways they can tap into the vast reservoir of information available through the college. While the final program is not yet complete, topics being considered include: electronic information services, road maps for the information superhighway, evaluating commercial information services, sources for ag software, finding ag programming on satellite and cable TV systems, cost benefit analyses of the information you get (free or purchased), and tips on being a smart high-tech consumer.

What kind of information would you like information you could use your business? Return the form to receive registration materials and a finalized agenda, or call Alice at 402-472-2841. Registration materials will be mailed in mid-January, 1995. Mark your calendar now for the CASNR Alumni Update Day, Friday, March 17, 1995!

THE SOWER
Cliff Knispel, Ag Education, is a farm manager and ag consultant living in Ogallala, Nebraska.

Dale T. Lindgren, Horticulture, is a professor of Horticulture at the University of Nebraska West Central Research & Extension Center in North Platte, Neb.

Mark Nyfele, Wildlife, is a farmer at Columbus, Neb., where he raises corn, sweet corn, and “critter corn” (for squirrels). His wife Sharon (Sowder) is a private marriage and family counselor. They have three children: Debbie, ’94 - UNK; Tracy, a junior at UNL; and Scott, a senior at Columbus High.

Paul Underwood, Ag Education and Mechanized Ag, farms at Exeter, Neb., and is co-owner and president of McCool Fertilizer Co. Paul taught Vo-Ag, FFA and Young Farmers at Geneva from 1969-1978, and has served as president of the Nebraska Grain Sorghum Producers Association. He and his wife, Cherri, have three young children. Paul says he enjoys “family, friends, sports and the customers we do business with.”

Stan Wallen, Ag Honors, lives in Albany, Calif., where he is general manager/vice president of the first spice mixing co. of San Francisco. Stan has worked for the US Army Veterinary Food Inspection Service, earned his PhD from Iowa State, worked as an academic and a commercial laboratory manager. He also has worked in the meat and poultry industries. Stan’s wife is Sooan Lit Koulhi, and they have four children: Rebecca Ann, B.J., Pirooz and Roshann.

Dennis Wilkins, Ag Economics, is a farmer at Kennard, Neb. Dennis married Charlene Ahlborg in 1973, and they have four children: Brett, Ben, Brittany and Brianne. He has been a member of the Arlington School Board for ten years, and the Arlington Education Foundation for seven years. Farming since 1971, Dennis has been active in soil conservation and recycling, and enjoys traveling and sports — especially watching his kids play, stock car racing and baseball.

Other Class Notes:

34 James D. Metzger recently sent The Sower a copy of his autobiography. It is a thorough and beautifully documented history of his life and career, and he expresses great gratitude to the University of Nebraska, the College of Agriculture, and the Extension Service for assistance throughout his life. Metzger was assigned as flood control engineer to the civilian conservation corp at Fairbury, Neb. in August, 1934, later going on to work in Turkey, where irrigation and other technology was developed to fit local needs. Jim and his wife, Vern, live in Sonoma, Calif.

35 R.C. Kinch, Agronomy, earned his MS in 1936 and began working as a seed analyst for the Nebraska Department of Agriculture. Kinch was professor of Agronomy at South Dakota State University in Brookings from 1945 until 1966, at which time he became professor emeritus. Kinch lives in Brookings, S.D.

47 Samuel C. Wiggins retired from the USDA/CSRS in 1992 after more than 11 years of service. Prior to that, he was chair of the Department of Plant and Soil Science at the University of Vermont. In addition, Wiggins held the positions of associate professor and assistant professor at Oklahoma State and Iowa State, respectively. He writes that he is now part owner and manager of a public golf course in Vermont during the summer.

82 Dan Lindstrom, Animal Science, earned his J.D. from UNL College of Law in 1986 and began his practice in Kearney, Neb. Dan is now a partner in the law firm of Jacobsen, Orr, Nelson, Wright, Harder & Lindstrom, P.C., where he represents various agricultural and agribusiness clients. Dan is married to the former Carol Swanson, and they have three young children: Sam, Will and Kate.

90 Stacy Jo Lempka, Animal Science, attended Kansas State University College of Veterinary Medicine, graduating in May of 1994. Stacy is currently an associate veterinarian at Portage Park Animal Hospital and Dental Clinic in Chicago, Ill.

Michael E. Scholz, Ag Economics/ Animal Science/Agronomy, works for Van Dieten Supply Company as an area manager. Michael recently married Pam Gilbert and they are expecting their first child. They live in Lincoln, Neb.

What have you been up to since graduation?

The ALUMNI NOTES section of The Sower continues to be the best-read part of our effort to keep alumni informed about CASNR. UNL and ag grads. Studies over the years have shown that information published about alumni for alumni is well-received. Everyone wants to know about former classmates.

You may have, in the past, received a request for information about yourself in the mail. If you did, and responded, take another minute to update us all on what’s been happening in your life. If you received a request and did not respond, it’s time you did.

If you have NOT received a request for information about yourself, your career, your family, your interests and your observations about college life on East Campus, consider this a formal request; a few minutes of your time and a stamp will make The Sower more enjoyable to your friends and classmates.

Reminiscences about college life, as well as photos, are welcome, too! (Be sure to include your class year and major[s].)

CASNR-AA Calendar of Events

December 17, 1994: Graduation Celebration Breakfast, 7:30am, Beef Barbecue Pit, Fairgrounds

March 17, 1995: College Tour

May 6, 1995: Graduation Celebration Breakfast, 7:30am, Beef Barbecue Pit, Fairgrounds

May 11-13, 1995: Class of 1955/Half Century Club Reunion

June 24, 1995: CASNR-AA Board Retreat, Scottsbluff

August 15, 1995: 1995 CASNR Alumni Award Nominations Due

This issue of The Sower is being sent to all alumni of the College of Agricultural Sciences and Natural Resources. Published three times per year, The Sower provides news about alumni, updates from the College. Need 16 more reasons? When you join the Alumni Association, you also receive:

1. A subscription to NEBRASKA, the joint publication of the UNL Alumni Association and the University of Nebraska.
2. Career networking opportunities.
3. Invitations to cultural, academic and sports events.
4. Reunions and alumni club activities.
5. Discounts on University Bookstore merchandise, VISA cards, hotel and auto rentals, Wick Alumni Center space and University of Nebraska Press books.
6. Domestic, international and sports travel opportunities.

Your membership money also goes to support:

- Awards for outstanding alumni, faculty and students.
- The nationally-acclaimed Scarlet & Cream Singers.
- The UNL Student Alumni Association. (Career Guide, Freshman Study Break, Senior Sendoff.)
- Graduation receptions for students and their families.
- Distinguished Scholars Day. (Dinner and personalized dictionaries presented to high school scholars.)
- Homecoming.
- Majors Week. (Bringing outstanding alumni to campus to speak.)
- New Student Enrollment.
- Student Scholarships.
- Maintenance of the Wick Alumni Center, your home on campus.

One membership fee provides your membership in both the UNL Alumni Association and the College of Agricultural Sciences and Natural Resources Alumni Association. Membership is a great opportunity to stay in touch with the past, present and future of your college — and a chance to “give back” to the college that gave you a great start! Use the membership application below to join today.

UNL Alumni Association Membership Application Form
