Nebraska Chapter Gamma Sigma Delta Newsletter

President's Message

Team Commitment

I just returned from the College of Agricultural Sciences and Natural Resources Senior Sendoff. This is always a great time to visit with our graduates and their parents and a great reminder of what a privilege it is to be a member of a team helping them achieve their past, present and future goals.

So many things are team efforts. Gamma Sigma Delta is no exception and through our activities we impact many graduates and future leaders in the agricultural sciences, natural resources and family and consumer sciences. In this brief note I would like to convey two messages to the Gamma Sigma Delta team.

First, to the many active members of the Nebraska Chapter of Gamma Sigma Delta thank you very much! Your dedication and commitment to Gamma Sigma Delta provide the Nebraska Chapter the opportunity: "to encourage high standards of scholarship and proficiency in all branches of the agricultural sciences, natural resources, and family and consumer sciences." In this newsletter there are numerous examples of how through awards and recognitions the Nebraska Gamma Sigma Delta team has encouraged excellence.

Next, I believe every team must have a vision. It is exciting to imagine a Gamma Sigma Delta seminar with over 200 in attendance, 10 nominations for each of our Gamma Sigma Delta wards and an initiation and awards banquet with 100% of the Gamma Sigma Delta members present to recognize our initiates and award winners!

Vince Lombardi said, "*individual commitment to a group, that is what makes a team work, a company work, a society work, a civilization work.*"

My request to you is to commit now. Please take a few minutes to write down two to three goals related to your ongoing commitment to Gamma Sigma Delta in 2008-09 and beyond; how will you help the team accomplish the vision?

Many thanks for your past, present and future dedication and commitment to Gamma Sigma Delta.
