This Article is brought to you for free and open access by the Animal Science Department at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Block & Bridle Student Organization by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.
BLOCK AND BRIDLE CLUB

On December 2, 1919 student representatives from four animal husbandry clubs met in Chicago, Illinois, and formed the National Block and Bridle Club, the local clubs, becoming chapters in the new national organization. These charter chapters were Iowa, Kansas, Nebraska, and Missouri. From this first meeting came a constitution which included a statement as to the objectives of this club. They are: (1) To promote a higher scholastic standard among the students of animal husbandry, (2) To promote animal husbandry, especially all phases, of student animal husbandry work in colleges and universities, (3) To bring about a closer relationship among the men pursuing some phase of animal husbandry as a profession.

Membership in Block and Bridle is open to any student of agriculture, on the college level, who has a sincere interest in animal husbandry.

EDITOR’S COMMENTS

This is the first Block and Bridle annual for the University of Nebraska Chapter.

The yearbook is sent to all club members, vocational agriculture teachers, county agents, people with ads, to businessmen, and friends of Block and Bridle.

This book is one of the several new undertakings of the Block and Bridle club this year.

We hope to have the cooperation and willingness of all members as we strive to make our club grow so that it will be of value to everyone related to it.

The participation and cooperation of everyone contributing to the publication of this yearbook is greatly appreciated.

We hope that this book is useful to all as they read of the activities of our proud organization.

President’s Address:

The Block and Bridle Club is the most active beneficial club I have been associated with at the University of Nebraska. The satisfactions, friends, and acquaintances have made my college days quite rewarding.

Adults forget sometimes the many good things the youth of today are doing. A close association with the staff and students has led to a strong Block and Bridle Club.

We have added several new activities to the club this year: additional awards in the showmanship contest, a window decal, an Appaloosa Show, new initiation paddle, a spring steak fry, and this yearbook. This complements our: fall steak fry, two initiations, ham sales, dance, Quarterhorse Show, tour, livestock and meats judging contest, spring picnic, and an awards banquet.

I have the utmost respect for the Block and Bridle Club and its members. Good luck to the new officers and may their year be as rewarding as it has been for me.

President 1969-70
LARRY KUBICEK

NATIONAL BLOCK and BRIDLE REPORT

Our congratulations to Associate Professor R. B. Warren, new Vice-President of the National Block & Bridle Club. Mr. Warren was elected at the 1969 National Convention held in conjunction with the International Livestock Exposition in Chicago on November 30, 1969.

Following the expiration of his two-year service as Vice-President, Mr. Warren will automatically assume a two-year term as President of the national organization.

At the meeting, the Nebraska chapters 1968-1969 scrap book placed third. The club also ranked 5th in over all activities.

Block & Bridle Quarter Horse Show

The Block and Bridle Quarter Horse Show was held on April 24 and 25, 1969 at the State Fair Grounds Coliseum. The Show is held annually in conjunction with the Nebraska intercollegiate rodeo sponsored by the University of Nebraska rodeo association.

 Included in the 12 halter and 12 performance classes were 244 registered and 37 cutting entries for a total of 281 entries.

 Grand Champion Stallion was Torino shown by Western Trails Ranch, Omaha, Nebraska. Champion Mare was Lady Gaines shown by Ann Harbour of Selinsgrove, Pa. Champion Gelding was Johnny Pat Star exhibited by Debbi Brehm of Lincoln.

 Again this year the show qualified as Class A with The American Quarter Horse Association, which makes it one of the largest in Nebraska.

 Judge for the fourteenth annual event was Mr. Marten Clark, Soledad, California. Gary Sierks and Maurice Boeckenhauer served as co-chairmen.
Three Animal Science Students Attend Meeting

Early in May, three University of Nebraska Animal Science students were chosen as winners to the National Animal Science Meetings to be held in August at Purdue University. The three Block and Bridle members attending the Meetings were Larry Kubicek, the Junior chosen to make the trip for his outstanding performance in activities and scholarship, Lyle Peterson, the Junior chosen for scholarship, and Roger Belohlavy, the Sophomore chosen for scholarship. The group made the trip with Dr. Ted Doane and Dr. John Ward. They toured the facilities at Iowa State University, the University of Illinois as well as those at Purdue. At the Meetings, the members listened to various technical papers which discussed research findings in the Animal Science field. They also attended a national Block and Bridle Meeting held in conjunction with the Society's Meetings. The members found the trip to be a rewarding, educational experience.

The Emblem of the Block and Bridle Club

The straight perpendicular at the left of the emblem stands for straight moral character, sincerity, and honor which we seek to maintain in all our connections with Animal Husbandry. It is placed above all others and we expect you to follow its guidance through an upright moral life. This one thing Block and Bridle Club demands of you. At the right are two distinct curves, which complete the letter B. These fundamentals are the basis upon which we build our social pleasure, mental energy, and moral force.

The block in the upper loop of the B represents the marketing or material side of our lives, and after all, our efforts are useless unless we are able to gain in the material things of life. The bridle in the lower loop of the B represents the control to always have over ourselves, so as to always walk and act as a lady or gentleman and a lover of livestock.

The colors of the Block and Bridle Club are Royal Purple and Navy Blue. The flower is the Lilac.
BANQUET

The Block and Bridle Club successfully concluded 1969’s activities with the Block and Bridle Banquet. The Banquet was held at the Gateway Auditorium in honor of Mr. Glenn Lewis, an outstanding contributor to the animal industry in the state of Nebraska.

Attending the Banquet were businessmen, professors, students, agricultural leaders, and friends of the Block and Bridle Club. The Knoll’s catered the event and served 265 meals.

The highest award given by the Nebraska chapter, the merit trophy, was awarded to Fred Boesiger of Firth, Nebraska. The B&B Junior Scholarship was given to Larry Kubicek of Wilber. Both awards are based on scholarship, Block and Bridle, and other activities.

Awards were furnished by many area agricultural business and organizations. To these people and all involved, thank you for your support in making this a successful banquet!

Glenn Lewis, an Exeter, Nebraska Farmer-Stockman who successfully met the challenges of the times from the “horse and buggy days” up to the present, was honored at the University of Nebraska Block and Bridle Club Banquet.

Lewis became the 33rd person to be honored by the Block and Bridle Club since 1938 for outstanding contributions to the Nebraska and national livestock industries.

A colored portrait of Lewis was presented by Block and Bridle Club president Tom Dearmont of Rose, to Dr. E. R. Peo, who accepted it on behalf of the NU Animal Science Department. The portrait is hung with those of previous honorees in the new Marvel L. Baker Animal Science Hall on the East Campus.

In paying tribute to Lewis, Nebraska State Director of Agriculture Elmer Schlaphoff said: “Mr. Lewis enjoys success not only in his business but also as a community leader. He has an intense interest in the young men around him. He possesses the rare ability to motivate others and several of the younger men he has encouraged are now leaders of the livestock industry at local, state and national levels.”

Born at Beaver Crossing, Lewis attended rural school in Seward County. He lived near Beaver Crossing until 1918, then moved to the Exeter community.

He served as president of the Nebraska Livestock Feeders Assn. in 1953. He has received Distinguished Service Awards from the Nebraska Livestock Feeders Assn. and the Exeter Chamber of Commerce; the Agricultural Achievement Award from Ak-Sar-Ben; and the Swift Centennial Award.

In 1966 he was honored by the Nebraska Hall of Agricultural Achievement, being described as a man “known for his leadership and for his promotion of the livestock industry” as well as being “a good neighbor.”

Lewis has been active in the Exeter Breeders & Feeders Assn., and has served as its president, and has been active in the Exeter Chamber of Commerce for many years.
Dr. P. E. Vipperman presents Fred Boesiger of Firth the Merit Trophy plaque presented annually by the National Block and Bridle Club.

Dean Pretzer of Diller was honored as the outstanding senior scholar by the University of Nebraska Block & Bridle Club at the group's annual awards banquet in Lincoln recently. Pretzer is shown receiving a watch from Glenn Lewis of Exeter, on behalf of the Nebraska Livestock Breeders and Feeders Association.

Mrs. Nancy Bremer receives the Workhorse Award from Dr. Vipperman.

Rex Adis presents Larry Kubicek with the 1st place trophy in the livestock judging contest. Larry also won the Block and Bridle Junior Scholarship.

FALL STEAK FRY

Block and Bridle kicked off the 1969 school year with a Steak Fry and speaker on October 2. The annual affair is an invitation to all incoming freshmen, faculty and students interested in Animal Science to join Block and Bridle Club. Dr. Mandigo had the honors of grilling the steaks and preparing the meal of potato salad, beans and ice cream. Lyle Peterson, Chairman of the Steak Fry, and other committee members, served the meal.

A short business meeting and presentation by Dr. Duane Acker followed the meal.

Block and Bridle members serving the “troops.”

President Larry Kubicek discusses B&B activities with South Dakota State University club president.

Ready for Seconds!!
The new freshman and new transfer students at the Block and Bridle meeting were congratulated on choosing the field of Animal Science. Because of the expanding need for meat, the increased affluence of the American population, and the fact that livestock are so important to Nebraska and adjacent states, they were congratulated for choosing the University of Nebraska with its outstanding reputation, especially in Animal Science, but also in the total agricultural area and in other disciplines at the University. They were especially congratulated for choosing the Animal Science Department at the University of Nebraska. I am personally acquainted with a number of the faculty and have high respect for them. Many hold a national or international reputation and those I know have demonstrated a real sincere empathy for the undergraduate student.

The main message of the presentation was to identify those groups or things that I felt the student in Animal Science should become very well acquainted with during their time on the University of Nebraska campus. These included:

1. The faculty. The students should know by sight and be able to visit with all members of the Animal Science faculty. They should see to it that they are acquainted with the research activity of each faculty member and the work they are doing at the various research farms and laboratories.

2. The Journal of Animal Science. This is the official document of the Animal Science scientific community. It contains research papers prepared by University of Nebraska faculty as well as by research workers on other campuses and in industry. They should subscribe to the Journal as early as possible in their college career.

3. All students should become well acquainted with the University Library. You are fortunate in having a very fine new library on the East Campus. An evening or an afternoon spent in that library can be a most pleasant and stimulating experience.

4. University students in the early 1970's should have a full acquaintance with the computer and how it can be used in ration formulation, formulation of sausage mixes, or in management processes. It is a fantastic machine that has fantastic applications in farming and ranching as well as other aspects of the agricultural industries.

5. I would challenge the members to become well acquainted with at least five off-campus people in the animal industry and with their business operations. This might include feedlots, professional farm managers, general livestock farmers, sandhills ranchers, feed industry personnel, and others. They should spend a few weekends or vacation days getting personally acquainted with these people and learning about how they visualize the animal industry presently and in the years ahead.

6. I would recommend that each student become acquainted with a Regent of the University of Nebraska and with the legislator from their district. The Regents and Legislators have responsibilities for reviewing the operations of the University and for providing funds. They have a sincere desire to learn about the operations of this most important institution through the eyes of an undergraduate student.

7. Undergraduate students should become thoroughly acquainted with and involved in the student government process on their campus. On some campuses I have observed that agricultural students pay little attention to the student government structure and responsibilities. In these days of campus unrest leadership opportunity sometimes goes by default to people who are not capable of leadership, at the least the kind of leadership most students want. We have some real solid, eager, and capable students in Colleges of Agriculture, and I firmly believe they should make themselves available to assume leadership roles in a total university environment.

Duane Acker
It was “wear your grubbies to the Horse Barn” on October 9, as Block and Bridle conducted the first of two sessions of informal initiations. A total of fifty-seven new initiates were worked over this year as Block and Bridle members put the newcomers through the procedures. The initiates all survived the wheelbarrow race, spittin’ contest and digging for jelly beans.

After the informal initiation, initiates were required to get their Block and Bridle paddle signed and learn the history of Block and Bridle.

"A Chew A day keeps the Doctor Away!"

"It's got to be here someplace!"

"Hop to it, Boys!"

"All together now!"

"... and Cox comes back for more!"
Block and Bridle Initiates Fifty-Seven

In two classes, Block and Bridle initiated fifty seven to the ranks. The following is a list of new members who passed both informal and formal initiation.

**FIRST SEMESTER**

Craig Anthony  
Dennis Bartels  
Don Bausch  
Dennis Belohavy  
Richard Brown  
Stuart Cooksley  
Jerry Cool  
Ralph Drake

Dennis Kahl  
Ronald Hindley  
Lynn Holden  
Joe Langer  
Roger Luther  
John McConville  
Fred McGuire  
John O'Brien

Bill O'Hare  
Glen Panning  
Dennis Panning  
Dennis Schlake  
Terry Seefeld  
Jerry Wiegel  
Kent Wiles  
James Ziegler

**SECOND SEMESTER**

Duane Anderson  
William Barger  
Lee Becker  
Doug Brand  
Jim Cox  
John Crook  
Bill Duke  
Larry Forbes  
Walter Green  
Max Hoffman  
Dave Janovec  
Tim Jansen

Mark Jensen  
Dave Kasl  
Paul Knobbe

Larry White  
Clinton Witte  
George Witte  
Hideake Yamamoto  
Tom Young

*Before... Informal Initiation*

*After! Formal Initiation*
"Little AK-SAR-BEN," the Block and Bridle Showmanship Contest, was held on October 24, at the horsebarn. "Little AK-SAR-BEN was open to the entire student body.

Judges for the contests were as follows:

Beef—Ted Aegerter, Seward
Swine—Alan Krivohlavek, Dorchester
Sheep—Bob Alschwede, Crete
Dairy—John Lindsay, Omaha

Winners in each division were as follows:

**BEEF**
1. Chuck Graff, Bancroft
2. Doug Brand, Fremont
3. Larry White, Lexington

**SWINE**
1. Clarence Meiergard, West Point
2. Tom Beck, Fremont
3. Roger Kubicek, Wilber

**SHEEP**
1. Tom Beck, Fremont
2. Larry Kubicek, Wilber
3. Dan Hilgencamp, Colon

**DAIRY**
1. Moya Brugman, Douglas
2. Mary Alice Coyle, McCook
3. Connie Bull

Champion and reserve champion showman of each division competed against each other for overall champion. Grand Champion showman Tom Beck received $50.00 and a trophy for his efforts. Reserve Champion Showman Larry Kubicek received a trophy for runner-up.

The Animal Science Professors' Annual Hog-Driving Contest was also held during the Showmanship contest. Karen Fenster, 1969 Block and Bridle Queen, and her attendants selected Professor R. B. Warren as the top Hog-Driving Professor.

Chairman and Co-chairman for 1969 Little AK-SAR-BEN were Rob Ravenscroft and Chuck Graff.
Community Service Committee

This past year the Block and Bridle Club initiated a community service committee. The general feeling within the club was that too many organizations make a monetary contribution to some community organization or project. The committee set up projects throughout the year for the members to contribute physical help.

The committee began functioning in February. The first project was furnishing volunteers for the Home and Neighborhood Development Organization of the Clinton Area in Lincoln. The volunteers solicited petitions for playground equipment and swimming facilities in two neighborhood parks to be presented before the City Park Board of Lincoln.

Volunteers helped with the distribution of information concerning litter and junk in a problem area.
HAM SALES

Ham sales are the major fund-raising activity for the club which finances an annual interstate educational tour by the club to observe livestock production and educational facilities, and also scholarship funds. This year the members and the five queen candidates sold 21,775 pounds of Hormel Cure 81 buffet style ham for a gross total of $29,775. The ham sale campaign started in mid-November and ended at Christmas.

The Block and Bridle Queen is selected in conjunction with the ham sales. The five finalists were Marge Keep, Peg Plank, Pat Bourn, Anita Schacht, and Anne Raab.

Top hand salesman awards were presented to Jerry Dearmont, Jim Koch and Francis Dobrovolny.

Governor Norbert T. Tiemann, a banker, former Block and Bridle member, and a native of northeast Nebraska, the major hog-producing area in the state, casts an appraising eye on a ham presented to him in his office. The ham was presented as a kickoff of the club's annual ham sale by Larry Kubicek (center), club's president; and ham drive chairman Ron Dvorak, both of Wilber.

We guarantee each CURE/81 ham when it's registered. We take pains to make this the world's most nearly perfect ham.
Block & Bridle Club

presented a country western dance on February 20, 1970. Featuring Hadley Barret & The Westerners from 8:00 to 12:00 p.m. The dance was held in the East Campus.

Peggy Plank of Gothenberg was crowned Block & Bridle queen and Pat Bourn was first runner-up. The attendants were: Marge Keep, Anita Schacht and Anne Raab.

The dance was a swinging success!

Queen Candidates, left to right, are: Anne Raab, Marge Keep, Anita Schacht, Pat Bourn and Peggy Plank.

Hadley Barret and the Westernaires providing the music for Block and Bridle's "Hoe Down."

Above—1969 Block and Bridle Queen Karen Fenster looks on as Jerry Leach presents trophy and watch to Peggy Plank, 1970 Block and Bridle Queen.

Left—Dr. and Mrs. Peo “groovin’” to the sounds of Hadley Barret.

23
1970 Block & Bridle Tour

The 1970 Block and Bridle Tour was a four day experience covering 1,500 miles. Chairman Jack Adkins lined up our extensive tour, and due to technical difficulties, several stops were omitted. Many of the members will recall viewing Kansas State through a 5" snowstorm and few can forget the friendliness of a small Kansas town named El Dorado while a broken-down bus was repaired.

As the overloaded bus with one girl and "no relief room" crossed the snow-covered plains of Kansas, the cries of "Guts," "Raise you one." and "Hi-Low Chicago" echoed through the bus as club members started playing cards.

The tour proceeded onward, and one stop which was enjoyed by one and all was the "stables" of Anheuser-Busch. Here, as the brew flowed freely, members indulged in another relaxing moment. Members of the tour will recall with mixed emotions the long trip from St. Louis to Quincy and Francis Dobrovolny with his overshoe.

The final night of the tour was spent in Iowa City, Iowa. As friends and faculty gathered around for the evening meal, and talk turned to lighter subjects, who will forget Dr. Mandigo's peculiar band-aid? Extra-curricular activities that many people will not forget were the atomic sit-ups, all night card parties, and the late arrivals the morning after.

The educational part of the tour was highlighted with stops at Litton Charalois at Chilicothe, Missouri and Steve Garst Feed Lots at Coon Rapids, Iowa. Although complete opposites in the same field, both operations were viewed with great interest by touring club members.

1969-1970 Program

Program Chairman for 1969-70 was Gary Sierks. He was responsible for speakers and programs we had following each business meeting. The various and sometimes controversial speakers that he presented were very much enjoyed by the club members. A resume of this year’s program is listed below.

STEAK FRY, OCTOBER 2, 1969

Dr. Duane Acker, Dean of College of Agriculture and Biological Sciences, South Dakota State University, Brookings, South Dakota. Gave a very interesting talk concerning the future of agriculture and some of the opportunities and challenges awaiting the animal science graduate.

OCTOBER 16, 1969

Mr. John Hermanson, Elmwood, Nebraska. Showed slides and presented an informative program about his swine operation.

NOVEMBER 6, 1969

Dr. Cecil Blunn, Animal Scientist from the University of Nebraska. Showed slides of his recent trip to Alaska.

NOVEMBER 20, 1969

Mr. Robert Gill, George A. Hormel and Company, Austin, Minnesota. Spoke on the meat industry as it is today and also made some predictions on the future. He also made a few comments to the members concerning merchandising the Hormel Cure 81 hams.

DECEMBER 4, 1969

Mr. Harold Hansel, Home and Neighborhood Development community service organization. Presented some ideas and suggestions to the club about community service projects they could carry out.

DECEMBER 18, 1969

Mr. Chuck Tremain, Executive Secretary, F1 Female Foundation, Beatrice, Nebraska. Talked about his newly formed organization and about their first annual meeting at the International Cattlemen’s Expo held in Las Vegas. He outlined his goals and procedures for promotion and registration of crossbred females.

FEBRUARY 2, 1970

Mr. John Cooper, The O. A. Cooper Feed Company, Humboldt, Nebraska. Spoke about his company and showed a film about the feed industry.

MARCH 5, 1970

Mr. Eddie Collins, Livestock Radio Commentary, Red Oak, Iowa. Gave a very interesting program concerning agricultural marketing and promoting of ag products.

MARCH 19, 1970

Mr. Jerry Anderson, Rancher and Cattle feeder, Red Oak, Iowa. Informed the members about some of the practices and goals of the Flying A Cattle Company.

APRIL 4, 1970

Mr. Stan Schelkopf, Manager of Cornhusker Farms, Schickley, Nebraska. Presented slides and discussed the production of pork on their farm.

Otto H. Liebers, former state senator, dairyman and farmer, was honored posthumously by the University of Nebraska Block and Bridle Club during the annual meeting of the Nebraska State Dairymen’s Association in Lincoln. A portrait of Liebers was presented to Dr. Frank Baker, chairman of the NU Animal Science Department, by the club, to be placed in Marvel Baker Hall on the East Campus along with those of past recipients of the award given for “Outstanding Contributions to Agriculture in Nebraska.” Shown with the portrait following the formal presentation are (from left), Mrs. Otto Liebers; State Senator Willard Waldo of DeWitt, who presented a tribute to Mr. Liebers; Durward Varner, Chancellor of the University of Nebraska, who was present for the award and delivered remarks to the State Dairymen Association; Mrs. Lawrence Liebers and Lawrence Liebers, son and daughter-in-law of the late State Senator Liebers.
"SHOTS BEHIND THE SCENES"

"A cloud of smoke and they're off!"

"It's what's up front that counts?"

"No, this is not Arnold from Green Acres!"

"Alright now, cut meat—
(1) At right angles to the grain.
(2) Tender from less tender and
(3) Thick from thin."

"A well dressed man always wears a tie!"

Marvel Baker Hall, Animal Science Building dedicated in 1968. The building is a complete unit, housing offices, classrooms, space for live animal research and chemical and physiological laboratories.

The Loeffel Meat Lab provides students with the opportunities to study meat animals, and the processing of meat and meat by-products.
PROFESSIONAL ANIMAL SCIENTISTS

BY FRANK H. BAKER

For The Nebraska Block & Bridle Annual—1970

Animal agriculture is the lifeblood of Nebraska. From it flows milk for three million people. In it grows pork for ten million people and enough beef to supply the entire population of Chicago and New York City. In animal agriculture exists the opportunity for economic development for Nebraska that is unequaled elsewhere in the state's economy. Current feed resources plus potential feed production resources, through development in Nebraska's land and water, represents the output of meat and milk in the future. Each new dollar generated in animal production represents three or more dollars in total economic activity in the state.

Animal Science is the technological base which supports animal agriculture. Students of Animal Science are the "people" or personnel inputs for the industry of the future. Students of Animal Science enroll in a university to develop their intellectual capacity to a level needed by future skills for the purpose of operating or managing animal units receives some attention in the curriculum. Skills can be developed in other ways, but the expansion of the intellectual capability for examining the theoretical base for exploiting and improving the animal agriculture of the future can be accomplished more effectively through a university than any other way.

For hundreds of years, youth, particularly students, have organized themselves for special purposes of interest to themselves or to society in general. Many great institutions of the world have originated from student organizations or through the influence of such groups. It is indeed significant that Animal Science students have long been active in "their organization" of the Block and Bridle Club. Such a club is a symbol of professionalism which springs from the student's love for the people with whom he has identified himself and his love for the animals upon which his chosen profession is based.

Block and Bridle Club members are professional animal scientists. Professionalism among scientists or other groups of people with common interests creates relationships and attitudes with special meaning and value. Professionals have special understanding of the technology and skills upon which their life's work or their profession is based. These professionals have special dedication to the application of their knowledge and skills to the benefits of the industry in which they work or to the people they serve. Professional animal scientists will serve all the people of Nebraska as they contribute to the continual improvement of the state's animal agriculture.

We are especially proud of the Nebraska Block and Bridle Club and each of its members. Through the years the club has made a great name for itself among other university student organizations on this campus and among the Block and Bridle Clubs located on university campuses in other states. Realistically, we know that a club can be no stronger than its weakest members. The strength of the Nebraska club lies in the fact that every member is a worker and is willing to give deeply of his time and talent to help the many projects succeed. These unselfish efforts of all members are obviously "works of love" i.e., love for Animal Science, love for the University, and love for the Cornhusker State. We salute you and the many previous classes of students for giving so much to the establishment of a great Animal Science Heritage in Nebraska.

Students are an ever-present, unchanging fiber of continuity of the Nebraska Animal Science Department. Their vigor, enthusiasm, and their great dreams of tomorrow's animal agriculture have kept the department viable and active for more than 70 years. The challenging questions of students keep professors continually updating and improving the material and methods used in Animal Science courses. The response of students to the dedicated efforts of the Animal Science staff is a continuing stimulus. The warm appreciative handshake of a former student is a special payment received by teachers that make them the envy of kings or presidents. The entire Animal Science staff joins me in saying thanks to each of you for sharing this part of your life with us.

COMPANY
There is good reason when you are looking for top quality breeding stock, to think first of Cornhusker Farms. We are now farrowing over 1,000 litters annually of Purebred Durocs, Hampshire and Yorkshire.

We are farrowing the year around and have breeding stock available at all times. We obtain our breeding stock by hysterectomy only from the nation's top herds. Cornhusker Farms extends every effort to improve its breeding stock in carcass quality and conformation and to produce a meat-type hog that will hang up a carcass with a high percentage of lean cuts.

We are state and nationally accredited and have 140 day weights. Backfat probes are available. We stress rapid, efficient gains produced by animals carrying an extra amount of ruggedness and bone.

Sound feet and legs with 12 or more nipples are a must in our breeding program.

Stop by anytime and see our 1970 crop. Everyone agrees that we are carrying more depth of quality and conformation in our herd than ever before. They are extremely heavy hammed and carry the cleanliness to be an asset in anyone's herd. Our herdsire battery includes the most popular sire in all three breeds. It is certainly the carcass that counts and top quality and conformation comes as no accident.

Rikli Charolais Breaks World Record

Sets a new World P.R.I. record. She is the offspring of our herdsire, T.L.B. FUYARD 7th, a former world record holder: P.R.I. - 12 months age - 1469 lbs. "T.L.B. FUYARD 7th" (by the great FUYARD 1st) is passing on the style and growthability that made him 10 times Grand Champion at major shows and Reserve Grand Champion at Kansas City Royal as a yearling.

FOR: PERFORMANCE - PREDICTABILITY - PROFIT
