GRANTS FOR NONGAME WILDLIFE RESEARCH IN MINNESOTA

The Minnesota Nongame Wildlife Program is soliciting proposals for projects to be conducted during the 1992 and/or 1993 field seasons (or longer). Proposals should be for work contributing to the conservation and management of nongame wildlife (vertebrate or invertebrate) in Minnesota. High priority will be given to projects focusing on state endangered, threatened, or special concern species, native grassland species, wetland/aquatic species, and topics relevant to the management of state parks. Appropriate projects may include censuses/surveys, studies of life history/population dynamics/habitat requirements, assessment or identification of habitat quality/quantity, design of long-term monitoring programs, development/evaluation of land use/management techniques, and a wide variety of other topics. Awards average \$3000 per year, but requests up to \$10,000 per year will be considered. The deadline for submitting proposals is January 1, 1992. Decisions will be announced no later than March 1, 1992. For program guidelines, proposal format, list of research ideas, E&T species list, and other information, please contact: Richard J. Baker, Nongame Wildlife Program, Minnesota Department of Natural Resources, Box 7, 500 Lafayette Road, St. Paul, MN 55155-4007 (or call at 612-297-3764). Funding comes from contributions to the Minnesota Nongame Wildlife Tax Checkoff and Minnesota State Parks merchandise sales.

Corrections. (1) The secretary's name is listed as Scott Jensen in the June NBR. It should read Todd Jensen; this has been corrected in the electronic copy which will be archived. (2) On page 48 of the June NBR, Al and Ione Werthman's discovery of Acadian Flycatcher was in Hummel Park, Douglas County, not Fontenelle Forest, Sarpy County. The editor regrets both errors.
