TENTATIVE PLANS FOR FLAME WEEDING WORKSHOP ON AUGUST 22 AT THE HASKELL AG LAB, CONCORD, NE

(This announcement was sent to our attention by Dr. Stevan Knezevic on behalf of Dr. Datta.)

Here at the Haskell Ag Lab we are considering organizing a day-long workshop on flame weeding for Extension Educators and other colleagues within the UNL system (e.g., Extension Specialists and Technicians). Flame weeding is a collaborative project that has been continuing for the last five years between Dr. Knezevic's Weeds Science team and Dr. Gogos's Mechanical Engineering team.

We are also thinking of opening it for the general public, but before we do that we would like to know the level of interest within our system.

Please let me know by May 1, 2011 if you are interested in attending. Everybody is welcome. In addition, we talked to Gary Lesoing (SARA Coordinator for NE), and he might be able to help educators with travel expenses and food as it is an educational event.

Dr. Avishek Datta (adatta2@unl.edu), Post Doctoral Research Associate
