Exercise 2: Group Resume

Resumes typically describe an individual's accomplishments. Since each of you has an incredible array of talents and experiences, let's create a group resume to become acquainted with your fellow classmates.

First, we need to divide up into teams of 3 to 4 students. Each of you should record your group's response to the following questions:

- [1] What are your group member's names?

- [2] What countries are represented by your group?

- [3] How many years (or days/hours) of college experience is within your group?

- [4] What is the average number of credit hour being taken by your group this semester?

- [5] What countries has your group traveled to?

- [6] How many group members are living in the dorm? In an apartment? In a house?

- [7] How many years of work experience does your group have?

- [8] Excluding this class, is there another common class among some of the group members?

- [9] What are some of your group's hobbies?
