CLOSING REMARKS - THIRD VERTEBRATE PEST CONFERENCE

RICHARD H. DANA, Vertebrate Pest Control Specialist, California Department of Agriculture,
Sacramento, California

The record of this meeting will stand as a tribute to all of those who participated in the Third Vertebrate Pest Conference. It should remind them for years to come of their worthwhile contributions.

Those of us who attended the Third Vertebrate Pest Conference are grateful for the opportunity to expand our acquaintances with workers in the vertebrate pest field and to share in their exchange of experiences and information.

On behalf of the Vertebrate Pest Technical Committee, which sponsors these conferences, I wish to thank all of the organizations, agencies and individuals that contributed to the success of this meeting.

On your behalf as well as that of the Vertebrate Pest Committee, thanks to the Sheraton Palace Hotel and the San Francisco Convention and Visitor's Bureau.

There have been no complaints and we are indebted to the General Program Committee and especially to the Arrangements and Registration Committee for the efficient handling of the conference registration.

Location and dates of the next Vertebrate Pest Conference have not yet been decided.

Neither the registration nor the attendance record is our measure of success of these conferences. Most important are the overall program, the participation in the floor discussion, and the personal contacts that are made. These count much more than the number of people.
