Foreward

Following herein are reporting sections for Cooperative Extension work done in Blaine, Thomas, Hooker, Grant and portions of Cherry Counties. The reports cover the fiscal year 1974 - 1975.

The area served is in the northern part of the High Plains Section of the Great Plains physiographic province. All of it is in the Sandhills except the extreme southeastern corner. Range management practices have aided grass cover to establish on the dunes and ridges. Some areas, locally called "choppies" still pose special management problems in blowout control.

The economic squeeze affecting many farmers is also in evidence in this area. Evidence of recent over-use of pastures combined with dry precipitation periods, can be seen throughout the District. Unfavorable climatic conditions and quality of seedling stock has resulted in a decline of tree plantings in recent years. Adequate rainfall in 1974 aided tree planting numbers to increase. Crossbreeding beef programs, with little advance planning in some cases, are increasing and have given variable results. Beef cattle testing programs continue to provide ranchers with useful information. Some misuse of the programs has been noted. Stimulating interest in steer programs has not had satisfactory results. Opposition to livestock shows (especially beef) is evident. Confusion on body types, economic practicality, modern cattle, etc., is apparent. Increased irrigation has called for more skillful management with the use of practices new to most producers. Variable results have been gained with irrigated pasture establishment and management.

Population changes have resulted in new problems concerning recreation, school organization, community activities, etc. Population declines of 16 - 18% were shown in the area for Blaine, Thomas and Hooker Counties in 1970 census. Use of rangeland areas for public recreation is a lively conversation topic, as has been Natural Resources Districts, center pivot irrigation, exotic breeds of cattle and school problems.

EXTENSION ORGANIZATION AND PLANNING

The sponsoring organization for Extension work in the Thedford District is known as the Thedford District Extension Service. It is financed by the county levy in each county. Budgets for the fiscal year periods are contained elsewhere in this report. Portions of South Cherry County are served under the Memorandum of Understanding between the Thedford District Extension Service and the Cherry County Extension Association. The budget contribution of Cherry County is \$3127.20. The balance of the budget is shared equally by Blaine, Thomas, Hooker and Grant Counties.

The Thedford District Extension Board consists of sixteen people; including two representatives from each Blaine, Thomas, Hooker and Grant Counties; and eight ex-officio memebers with voting privileges; the chairman of the Tri-County Home Extension Council and the Blaine County Home Extension Council, the chairman of each of the four county 4-H Councils, and two representatives of the Cherry County Extension Board. Election of regular Extension Board Members was done by mail ballot. Old and new board members met jointly in December.

The Extension Board meets monthly. Four of these meetings are full board meetings which all members, including ex-officio members, are expected to attend. These meetings included January: board re-organization; April and May: budget meetings; and December: new and retiring members. The other monthly meetings are attended by the Executive Committee to conduct regular business.
