Abstract for DBER Group Discussion on 2014-09-25

Presenter(s), Department(s):
Dr. Tonia R. Durden
Assistant Professor
Extension Early Childhood Education Specialist
Department of Child, Youth and Family Studies
University of Nebraska-Lincoln

Title:
Gaps and Opportunities: STEM and Early Childhood Education

Abstract:
This research talk will share findings from an environmental scan of the STEM focused professional development programs offered within the Cooperative Extension System. A study was conducted to identify the programs’ content, delivery, scope, evaluation and partners. Results indicate that Extension has become a player in providing professional development opportunities for early childhood professionals and, with a focused effort on streamlining current resources, has the capacity to become a leader in this field.
Gaps and Opportunities: STE(A)M in Early Childhood Education

Tonia R. Durden, Ph.D.
Flow

• What is Cooperative Extension?
• Accessibility to Quality Early Childhood Education
• Environmental Scan Research
• Implications
• Q&A
• Cooperative Extension
• child.unl.edu
• about.extension.org
• **Investment** in early years (Byrant & Taylor, 2009; National Institute of Child Health and Human Development, 2005)
• Need for **skilled** caregivers (Pianta, 2011; Odom, Bryant & Maxwell, 2012)
• Positive effects PD has on observed quality child care (Fukkint & Lont, 2007)
Primary Focus: Identify training offered through Cooperative Extension System to Early Childhood and School Age Providers Across the Nation

Secondary Focus: To assess the availability of professional development opportunities for providers who serve military families.
Improving Child Care Quality & Availability
Methods

• Development, piloting and adaptation of questionnaire: What are the goals and objectives of your program?
• Identification of Sample: Purposeful-faculty, directors, educators, and other key leaders
• Data Collection: Electronic questionnaire; phone interviews (n=13*); Total: n=48.
• Data Cleaning: Removal of non ECE pd and member checking
• Data Analysis: Descriptive analysis; emergent themes
• 339 ECE programs (70%)
• BKC-multiple states/150 options
• 4.26 average hours
• Face to face training: n=269
Delivery Method

- Face to Face: 58%
- Online: 30%
- Not reported: 10%
- Face to Face & Online: 2%
• **Scope:** 18% local; 60% multiple counties; 11% nationally

Discussion

Extension playing a critical role in providing research based, accessible, professional development opportunities, particularly at the state level for childcare providers on issues facing our nation such as: childhood obesity; language and literacy; social emotional health; brain development and health and safety.
Program Evaluation: Emphasis on developing partnerships between Cooperative Extension and other research/evaluation entities should be considered in order to support more rigorous program evaluation efforts that document provider and child outcomes and impact.
**Translational/Applied Research:** Potential exists for Cooperative Extension to develop and disseminate programs on a national scale, providing the opportunity to work more efficiently and effectively by sharing resources across land grant universities and among leading early childhood professional organizations.
Extension is currently in an optimal position (applied research, innovation, strategic partnerships) to help strengthen and enhance quality of early childhood programs on a national scale.
