Breakfast

8:00 a.m.-7:00 p.m.  
*Foyer*  
Conference Registration

8:00-11:45 a.m.  
*Ward Christopher*  
Core Committee Meeting
9:00 a.m.-12:00 noon Preconference Workshops and Meetings

Training 1  A Dialogue on Power in College Teaching (continued from Wednesday evening)

Training 4  Getting Started in Faculty Development
Joyce Povlacs Lunde, Myra Wilhite, University of Nebraska-Lincoln

Seminar 1-2  The Die May Be Cast: Modifying Communication Behaviors in Faculty Who Choose to Lecture
Erin Porter, University of Texas-Austin

Seminar 3-4  The Scholarship of Teaching
Maryellen Weimer, Pennsylvania State University

11:45 a.m.-1:00 p.m.
Reflections  Lunch

1:00-4:00 p.m.  Preconference Workshops and Meetings (continued)

Training 1  A Dialogue on Power in College Teaching (continued from a.m.)

Training 4  Getting Started in Faculty Development (continued from a.m.)
Governors I and III

Seminar 1-2  Being the Director of a Faculty Development Program: What Your Predecessor (if there was one) Never Told You
Marilla Svinicki, University of Texas-Austin

Seminar 3-4  Course and Curriculum Design
Bob Diamond, Syracuse University

Ward Christopher  Core Committee Meeting

Governors VI  Focus on Teaching Project, Steering Committee Meeting
[Note: Might be moved to Wednesday p.m.]

4:45-5:45 p.m.
University Hall  Social Hour and Cash Bar

5:45-7:30 p.m.
Chestnut  Dinner and Welcome

7:30-9:00 p.m.
Governors Rooms  Exhibits and Dessert Buffet

8:00 p.m.-??
Library  Networking and Informal Conversation
Off Broadway
Friday, October 25, 1991

7:00-8:15 a.m.  Breakfast  
Reflections

8:00 a.m.-7:00 p.m.  Conference Registration
Foyer

8:15-9:15 a.m.  Keynote Address—Improving Higher Education: Issues and Perspectives
Gene Rice, Antioch College
Chestnut

9:15-9:30 a.m.  Break
Foyer

9:30-10:30 a.m.  Concurrent Sessions

Governors I  Assessing and Improving the Effectiveness of the Instructional Aspects of Academic Units: Case Studies in Two Engineering Departments
Priscilla F. Visek, University of Illinois at Urbana

Governors III  Does Higher Education Want What Technology Has Promised to Deliver?
Frank Gillespie, University of Georgia

Governors IV  The Effective Culturally Diverse Classroom: A Sample Awareness Workshop for Faculty
Emily Wadsworth, McHenry County College

Governors VI  Perspectives on Program Evaluation: A New Imperative for Faculty Development Professionals
Martin J. Finkelstein, New Jersey Institute for Collegiate Teaching and Learning; Ann Austin, Vanderbilt University; Robert J. Menges, Northwestern University

Seminar 1-2  Student Ratings of Instruction: Twenty Principles for Improving Practice
W. Alan Wright, Carol O'Neil, Dalhousie University

Seminar 3-4  How to Determine Faculty Development Needs
Richard F. Lewis, University of Windsor

Training 1  Ways of Documenting the Effectiveness of Semester Length Faculty Development Programs
Margaret A. Waterman, University of Pittsburgh

Training 4  Institutional Efforts to Facilitate Faculty Development: A Model and Some Arguments
Nancy J. Egly, University of Nebraska-Lincoln
10:45-11:45 a.m. Concurrent Sessions

Governors I Reflections on Pedagogical Scholarship: Reports from the Field
Laurie Richlin, Antioch College; Milton D. Cox, Miami University

Governors III Changing Priorities at Colleges and Universities
Robert M. Diamond, Syracuse University

Governors IV An Informal Conversation about To Improve the Academy
Donald Wulff, Jodi Nyquist, University of Washington

Governors VI Does General Education Work?
Ann S. Ferren, The American University

Seminar 1-2 Using Case Studies in Faculty Development: Raising Diversity Issues
William M. Welty, Rita Silverman, Pace University

Seminar 3-4 Using an In-House Teaching Conference to Institute Faculty, Instructional, and Organizational Development
Eric W. Kristensen, Berklee College of Music

Training 1 The Teaching Portfolio and Ways of Knowing: Relating Teaching Improvement to Effective Instructional Consulting
Marilyn M. Leach, Loree Bykerk, Michael Sherer, University of Nebraska at Omaha

Training 4 Lessons Learned on Improving Teaching Effectiveness
Ray L. Shackelford, Ball State University; Peter Seldin, Pace University; Linda F. Annis, Ball State University

12:00 noon-1:15 p.m.
Reflections and Lunch
Off Broadway

1:30-3:00 p.m. Concurrent Sessions

Governors I A Method for Using Student Feedback to Improve Teaching
Beverly Black, Barbara Hofer, David Ametrano, University of Michigan

Governors III Quality Assurance for Faculty Service: A Model for Evaluating Services
Lila Seaman, Indiana Wesleyan University

Governors IV Ways of Growing Faculty Development: Multiplying Local Impact through Regional Collaboration
Lesley K. Cafarelli, Minnesota Private College Research Foundation; Stewart Bellman, Black Hills State University; Thomas Creed, St. John's University; Lyn Dockter-Pinnick, Fort Berthold Community College; Daniel Rice, University of North Dakota

Governors VI Front Line Faculty Development: Chairs Constructively Critiquing Colleagues in the Classroom
Linda Rae Hilsen, LeAne Rutherford, University of Minnesota, Duluth
### Friday, October 25, 1991 (continued)

POD
The Professional and Organizational Development Network in Higher Education

Lakeview Resort and Conference Center
Morgantown, West Virginia

POD is committed to improving higher education through faculty, instructional, and organizational development. The conference theme this year invites us to reexamine and exchange views on whether, how, and to what extent we know that our activities are contributing to improvements in higher education.

Conference Program
Introduction and Greetings

October 23, 1991

Dear Conference Participant:

Welcome to the 16th annual conference of the Professional and Organizational Development Network in Higher Education—POD. The program for this year's conference represents some of the best reflection and action around the theme of Improving Higher Education: Ways of Knowing. We hope that you will find the conference both professionally stimulating and personally satisfying.

The idea for this year's conference theme grew out of the 1990 conference, held at Granlibakken in Lake Tahoe. At the 1990 conference, discussions at several sessions turned on the issue of impact—that is, contributions of our faculty and instructional development centers and programs to improving teaching and the climate for teaching in colleges and universities.

For philosophical, practical, and/or symbolic reasons, many institutions have established identifiable programs and centers for the improvement of teaching. While some faculty and administrators strongly believe in the need for and efficacy of these organized activities, others are less convinced that the quality of teaching and the quality of education that students experience has improved significantly as a result of professional and organizational development activities. Pressures to reduce budgets and downsize operations have been felt throughout higher education and new forms of internal and external accountability are being widely discussed and implemented. In short, the environment for higher education, generally, and faculty and instructional development programs, specifically, has become more dynamic, intrusive, and stringent with regard to resource allocation decisions and performance expectations. At all levels of higher education, we must be prepared to respond to questions about needs, priorities, resources, and results. This year's conference theme invites participants to discuss issues and responses, from a variety of perspectives and different ways of knowing, about our contributions to the improvement of teaching and learning in higher education.

In addition to the conference sessions, we hope that you will take advantage of the social and recreational opportunities that are available. One primary reason for selecting the Lakeview Resort and Conference Center for our annual meeting site was the physical facilities and surrounding environment. A number of recreational activities are planned for Saturday afternoon—an excursion trip to Cooper's Rock State Forest, swimming events, a golf outing, and a tennis tournament. You may also be interested in doing your own sightseeing and shopping in the Morgantown area.

On behalf of all those who have contributed to the conference, we deeply appreciate the opportunity to be of service to you.

Nancy V. Chism
Conference Advisor

G. Roger Sell
Program Chair

Conference Theme and Index for Sessions

At the 1990 annual conference, POD sessions highlighted many exciting ways in which participants are addressing concerns vital to higher education. These concerns, for example, include assuring instructional quality while not sacrificing commitments to research and public service; responding to the needs of student diversity while maintaining a coherent curriculum; finding effective ways to both document teaching quality and use diagnostic feedback for teaching improvement; and helping faculty to continue their development and productivity throughout different career stages.

As we explored these and other issues of paramount importance to higher education, a second set of questions arose: How do we know what needs improving? How do we know what to do for improvement? How do we know if what we do actually results in improvement? Each of these questions suggests an inquiry process and evidence to back up our assertions. Do we have the necessary evidence? Do we have inquiry processes in place to generate and use such evidence?

For these reasons the theme for the 1991 POD conference is Improving Higher Education: Ways of Knowing.

Topical Index for Sessions

I. Program Assessment/Evaluation

Perspectives on Program Evaluation: A New Imperative for Faculty Development Professionals (Friday, 9:30)
How to Determine Faculty Development Needs (Friday, 9:30)
Does General Education Work? (Friday, 10:45)
The Teaching Portfolio and Ways of Knowing: Relating Teaching Improvement to Effective Instructional Consulting (Friday, 10:45)
The Professor as Active Learner: Evidence from the New Jersey Master Faculty Program (Friday, 3:15)
Assessing the Effectiveness of Teaching Consultation Programs (Saturday, 9:15)
Developing a Self-Correcting Faculty Development Program: A Challenge to Faculty Development Professionals (Saturday, 10:30)
Transforming the Academy: Do We Really Make Any Difference? (Saturday, 10:30)
Reflections on Teaching and Evaluating a Graduate Course in Faculty Development (Sunday, 9:30)

II. Evaluation for Documenting Instructional Effectiveness and Improving Instruction

Student Ratings of Instruction: Twenty Principles for Improving Practice (Friday, 9:30)
Assessing and Improving the Effectiveness of the Instructional Aspects of Academic Units: Case Studies in Two Engineering Departments (Friday, 9:30)
Using Peer Classroom Observations to Enhance a Teaching Portfolio (Friday, 1:30)
Front Line Faculty Development: Chairs Constructively Critiquing Colleagues in the Classroom (Friday, 1:30)
Student Management Teams: Applying Collaborative Management Concepts to the College Classroom (Friday, 3:15)
A Method for Using Student Feedback to Improve Teaching (Saturday, 9:15)
Improving Teaching Following Student-Based Formative Evaluation: Case Evidence of Success (Sunday, 9:30)
III. The Scholarship of Teaching, Classroom Research, and Practice-Centered Inquiry
The Scholarship of Teaching (Preconference Workshop)
Faculty Development and the New American Scholar (Friday, 8:15)
Reflections on Pedagogical Scholarship: Reports from the Field (Friday, 10:45)
An Informal Conversation about To Improve the Academy (Friday, 10:45)
Panel and Roundtable Discussion on Classroom Research (Friday, 1:30)
Connecting Theoretical and Conceptual Frameworks to Faculty Developers' Courses of Action and Assessment: A Series of Scenarios (Friday, 1:30)
Using Cases for Faculty Development (Friday, 3:15)
How to Write a Case Study: A Beginning Workshop (Friday, 3:15)
Knowing through Reflection: Chairs as Development Practitioners (Friday, 3:15)

IV. Strategies and Approaches for Faculty Development and Improving Instruction
A Dialogue on Power in College Teaching (Preconference Workshop)
Course and Curriculum Design (Preconference Workshop)
The Die May Be Cast: Modifying Communication Behaviors in Faculty Who Choose to Lecture (Preconference Workshop)
Does Higher Education Want What Technology Has Promised to Deliver? (Friday, 9:30)
Institutional Efforts to Facilitate Faculty Development: A Model and Some Arguments (Friday, 9:30)
Changing Priorities at Colleges and Universities (Friday, 10:45)
Using an In-House Teaching Conference to Institute Faculty, Instructional, and Organizational Development (Friday, 10:45)
Lessons Learned on Improving Teaching Effectiveness (Friday, 10:45)
Ways of Growing Faculty Development: Multiplying Local Impact through Regional Collaboration (Friday, 1:30)
Focus on Teaching Project: A Discussion with Campus Coordinators (Friday, 1:30)
The Tyranny of Content (Friday, 3:15)
Applying Research on Student Development to Teaching Students in College (Friday, 3:15)
Developing a Comprehensive Plan for Instructional Change (Saturday, 9:15)
Improving Higher Education: Issues and Perspectives on Teaching and Learning (Saturday, 8:15)
Strategic Teaching: The Possible Dream, the Enduring Process (Saturday, 10:30)
Promoting the Use of Active Learning in University Classes: Encouraging Reflective Practice among Faculty (Saturday, 10:30)
Improving Higher Education: A Panel Review (Sunday, 8:15)

V. Challenges for and Responses to Diversity
The Effective Culturally Diverse Classroom: A Sample Awareness Workshop for Faculty (Friday, 9:30)
Using Case Studies in Faculty Development: Raising Diversity Issues (Friday, 10:45)
Forging a Common Language (Friday, 3:15)
Breaking Barriers, Supporting Successes: Mentoring Junior Women Faculty (Saturday, 9:15)
A Comparison of Female and Male Professors: “Good” Teaching Perceptions and Practice (Saturday, 9:15)
The Second Stage: Designing a Diversity Workshop and Follow-up Activities for Faculty (Saturday, 10:30)
Multicultural Curriculum through Faculty Development (Saturday, 10:30)
Learning from Students about Teaching in the Multicultural Classroom: A Home-Grown Videotape Project with African-American Students (Saturday, 10:30)
The Challenge of Student Age Diversity in the Classroom: Strategies for Learning and Teaching (Saturday, 10:30)
VI. Developing and Managing Centers and Programs
Getting Started in Faculty Development (Preconference Workshop)
Being the Director of a Faculty Development Program: What Your Predecessor (if there was one) Never Told You (Preconference Workshop)
Hard Times Signal Challenges for Faculty Developers (Saturday, 9:15)
Consultant Directiveness: Is More Better? (Saturday, 9:15)
Funding Faculty Development: How to Get Your Piece of the Pie (Friday, 1:30)
Who's Minding the Store? The Doing of Faculty Development (Saturday, 9:15)

Conference Information and Resources

In the Foyer
- Registration Desk
- Message Center
- Local Area Information

Registration Hours
Wednesday-5:00-6:00 p.m.; 8:00-9:00 p.m.
Thursday-8:00-9:00 a.m.; 11:00 a.m.-1:00 p.m.; 4:00-9:00 p.m.
Friday-7:30 a.m. to 12:00 noon

During registration hours, conference personnel will be available to provide assistance and information.

Networking
The foyer area has been designated "Networking Headquarters." We encourage you to use this area as well as the library, golf rooms, and other conference facilities to get to know conference participants. POD represents a cross-section of higher education, and you are sure to find other attendees who share your concerns and interests. If you would like to get a group together to discuss a particular issue or project (for example, writing across the curriculum), please post a notice on the message board in the foyer area. This message also will be distributed at tables during mealtimes. The library is ideal for informal conversations, and the golf rooms (Nicklaus, Palmer, Watson, Player) can be scheduled for small group meetings and seminars that involve up to eight persons.

Message Center
A message center and display of information about the conference facility will be set up in the foyer area throughout the conference.

Exhibits
Exchanging program resources is on the agenda for Thursday evening's Resource Exhibits, organized by Mary Pat Mann. The event will begin at 7:30 p.m. If you have requested display space, be sure to reserve time to set up your materials prior to 7:30.

Conference Meals
On-site meals together are an important part of the POD conference tradition. Your Lakeview room registration or daily fee includes all meals, unless you have made special arrangements.

Videotape Resources
The Oak Room, located on the ground floor level near the Men's Locker Room, is equipped with a VCR and large television screen that can be used to view videotapes contributed by conference participants. The videotapes can be checked in and out near the registration desk in the foyer area. Individuals are responsible for videotapes they contribute and use at the conference.
Breaks

By midmorning and midafternoon each day, excluding Saturday afternoon, breaks will be provided with beverages and fruit or light snacks. These refreshments can be obtained on every floor during these times. Because break periods are scheduled for 15 minutes, participants may take their refreshments to their next session.

Smoking

Smoking is not permitted in conference rooms. Please use designated smoking areas or outdoor areas for smoking.

Bar Service

Lakeview has an in-house bar and cocktail lounge (Off Broadway). In addition, we have contracted for a cash bar service during social hours. A ticket that can be exchanged for one free drink is enclosed in your conference packet.

Copying/FAX

A copying service is available on-site for the following fees:
- 10 copies or less, $0.25/page;
- 11-25 copies, $0.20/page;
- 26 or more copies, $0.15/page.

Transparencies can be made for $2.50 each. A tax of 6% is attached to all copying services. Outgoing FAX service is $6.00 for the first page and $0.50 for each additional page. Incoming FAX service is $2.00 for the first page and $0.50 for each additional page. These services are available during daily hours in the Convention Services Office, located off the lobby area near the library, and after hours at the front desk.

Fitness and Sports Center Complex

Located just a few steps from the meeting and dining rooms, Lakeview’s Fitness and Sports Complex offers a range of recreational opportunities. The complex includes a 16’ x 50’ lap pool, an indoor cushioned running track, aerobic room and classes, a pro shop, a complete nautilus circuit and free weights, indoor tennis, racquetball, and wally ball courts, whirlpools and saunas, tanning beds, massage, locker rooms and shower facilities, and a snack and juice bar. By showing your room key, you can use these facilities without charge, except for the following: aerobic classes, $5.00 per class; racquetball and volleyball courts, $10.00 per hour; indoor tennis courts, $15.00 per hour. An additional indoor pool is located inside the hotel on the second floor. Horseback riding also can be arranged for $18.00 per person.

Golf

Two 18-hole golf courses are open to conference participants: Lakeview, located adjacent to the hotel and recognized as one of the outstanding courses in America; and Mountainview, a hillside course located a couple miles from the hotel. The conference greens fees are: Lakeview, $23.00 for 18 holes during the week and $27.00 for 18 holes during the weekend; Mountainview, $13.00 weekdays and $15.00 during the weekend. Golf carts can be rented for either course at a cost of $12.00 per person for 18 holes.

Conference Evaluation

Members of the program committee will collect evaluations at the end of each session. Feedback to individual presenters is a valuable part of the conference evaluation and we appreciate your cooperation and interest in providing this information.

We also ask that you make a special effort to complete an overall conference evaluation (form distributed in your registration packet) before you leave the conference site. We have introduced several new features to this year’s conference and your assessment of these changes, the conference facility, and the overall program will be taken very seriously in planning future POD conferences. Please return the conference evaluation form to the box marked “Evaluation” located in each room.
Acknowledgements

We wish to thank the following people for their contributions in planning and hosting the conference:

Preconference Workshop

A Dialogue on Power in College Teaching

Power. It's everywhere. Power clothing. Power lunches. Power walking. It's even in our classrooms. Is it a force for good or for evil? Or for both? How can we appropriately exercise power to enhance our educational missions? How can we keep power from becoming inimical to learning? How can we avoid the ethical problems brought by the misuse of power? What is the power of a teaching consultant, and how can it be used wisely? What does "empowering students" mean? How can we do this? Should we? What responsibilities are attendant to empowerment? Through an extended exploration and discussion we will deal with these and other issues relating to power, attempting to move toward greater clarity and resolution.

As with previous preconference dialogues (ethics and values, 1989 and 1990), the agenda and format for the workshop will be determined largely by participants. Beginning on Wednesday evening, this workshop continues all day Thursday.

  The Die May Be Cast: Modifying Communication Behaviors in Faculty Who Choose to Lecture
  It is often the realization on the part of many faculty developers that some college instructors are assigned a lecture format course by their departments or that others prefer to utilize a lecture format for whatever reason. In these cases, the die is already cast, but the faculty developer often can make positive contributions to the lecturer. This workshop will provide faculty development practitioners with materials, activities, and evaluation procedures that can be used toward that end. Participants will engage in an assessment exercise of oral communication strengths and weaknesses. They also will review video segments of actual lectures and gain experience in both providing useful performance critiques and consulting with faculty clients on lecturing.

  Seminar 3-4  
Maryellen Weimer  
The Pennsylvania State University  
Coordinator

  The Scholarship of Teaching
  If teaching and its improvement are to be taken seriously, a scholarship involving it needs to develop. The scholarship should include educational research, but it also should not be limited to that. As the Carnegie Commission report, Scholarship Reconsidered, proposed, we need broader definitions of scholarship. Those definitions ought to include the wisdom of practice, integration, and application. This workshop will explore definitions specifically in terms of how instructional and faculty developers can work still further on developing the literature of the field. Included will be discussion of how faculty can be encouraged to do more pedagogical publication and how the reputation and credibility of those publications can be enhanced.

  The workshop will include the following resource people: Elizabeth Fideler, Massachusetts Bay Community College; James Eison, University of South Florida; Laurie Richlin, Antioch College; and Ken Zahorski, St. Norbert College. There will be opportunity for participants to explore how their own scholarly efforts and activities could be disseminated. Participants are asked to bring samples of their own work to the session.

University of Hawaii-Manoa

Being the Director of a Faculty Development Program: What Your Predecessor (if there was one) Never Told You

As with most positions in academia, there is seldom any training for those lucky souls who are appointed directors of faculty development programs. Suddenly, one is confronted with a new array of problems quite different from those of helping faculty. Things like budgeting, staffing and personnel management, institutional politics, and interagency cooperation move to the top of the list. The purpose of this session is to form a support group and exchange helpful ideas about negotiating this terrain so that the actual business of faculty development can get done. The intended audience is individuals who are responsible for the management of faculty and instructional development centers or programs.

The agenda for the session will arise out of the group itself, but in general the intent is to engage in group problem-solving around questions of finance, staffing, management, and other administrative concerns. Each person will be asked to contribute to the planning of the session, do some preconference homework, and provide an analysis of some administrative issue with which they have grappled successfully. It is hoped that this will become an ongoing process beyond the conference, perhaps eventually resulting in an information booklet for new directors.

SEMINAR 3-4
Robert M. Diamond
Syracuse University

Course and Curriculum Design
This practical workshop will introduce a successful model for course, curriculum, and program design. It will describe the role of the developer in design, implementation, and evaluation. The following topics will be discussed: the politics of implementation, successful change, the skills needed to be an effective developer, and how to increase impact with limited resources. Participants will receive a copy of Diamond's Designing and Improving Courses and Curricula in Higher Education.

8:15-9:15 a.m.  Keynote Address—Faculty Development and the New American Scholar  
          William B. Bondeoson  
          University of Missouri-Columbia  
          Much is being written and discussed about views of the new American scholar in higher education. In what ways are these new views of scholarship different from the more traditional views of scholarship? Do new views of scholarship hold equally for different kinds of institutions? How are teaching and the research and development of teaching reflected in a modern view of faculty scholarship? To what extent will views of scholarship and its relationship to teaching vary by discipline or professional field, and why? What are some implications of these issues for faculty development? Our keynote speaker will address these questions based on his personal reflection of professional development over a career and his view of academy.

9:30-10:30 a.m.  Concurrent Sessions  

          Assessing and Improving the Effectiveness of the Instructional Aspects of Academic Units: Case Studies in Two Engineering Departments  
          The results of individual instructors' student evaluations of teaching and course quality too frequently are characterized as individual problems, not ones that involve the entire academic unit. This session will describe the Council on Program Evaluation (COPE) system, student evaluation of instructors, and focus group research results; it then will describe and compare the results of these systems in two academic units. Participants will learn to recognize and respond to (a) the range of opportunities for instructional improvement that result from varying types of
evaluations of teaching effectiveness, (b) the value of combining various evaluation systems to plan a comprehensive activity for faculty development, and (c) differences in the culture, curriculum, and philosophy of academic units and the management styles of their chairs.

Does Higher Education Want What Technology Has Promised to Deliver?
Information technology has been a large and expensive part of many of the recent innovations proposed to improve higher education; there is a need to examine the factors contributing to the effective use of the new technologies. During this focus session, POD participants will investigate the factors contributing to the success or failure of technological innovations in higher education. At the conclusion of the session they will be able to describe types of innovations, the instructional implications of technology, and factors in higher education that contribute to and work against effective use of technology.

The Effective Culturally Diverse Classroom: A Sample Awareness Workshop for Faculty
Responding to greater cultural diversity is a major issue under discussion by higher education professionals. This workshop will model sample activities for workshops on teaching culturally diverse classes and for addressing cultural diversity in the curriculum. It will cover developing cross-cultural competence, creating a supportive classroom environment, designing culturally sensitive teaching strategies, and fashioning an inclusive curriculum. Participants will experience awareness exercises that have been used successfully with college and university faculty, form ideas about how awareness workshops can be developed for faculty at different levels of knowledge, and receive a packet of materials that addresses multicultural education from a faculty viewpoint.

Perspectives on Program Evaluation: A New Imperative for Faculty Development Professionals
In this era of changing student demographics and economic turmoil, faculty development programming is both more needed and more carefully scrutinized for results than ever before. Three key dilemmas confronting efforts to assess faculty development programs will be presented; participants will then work together to explore ways to address them in the context of their own campus programs. A debriefing and discussion will be led by the presenters, who are program monitors for the New Jersey Institute for Collegiate Teaching and Learning.

Student Ratings of Instruction: Twenty Principles for Improving Practice
Student ratings of instruction are used widely for summative evaluation purposes in higher education. Yet lessons from the literature and from field observation are often ignored. Participants in this session will examine examples of student rating questionnaires with a view to finding fault. They will then discuss the 20 principles for improving practice under the headings of General Principles, Planning the Evaluation Environment, Questionnaire Design, and Administrative Procedures.

How to Determine Faculty Development Needs
This session will help the faculty developer to follow a systematic procedure to determine faculty development needs. The presenter will stress the importance of meeting the needs of both clients and the administration. Using a guided design approach, participants will solve a problem by working through a set of very specific instructions. They can expect to be able to apply the model to their own situations.

Friday, October 25, 1991 (continued)

TRAINING 4
Nancy J. Egly
University of Nebraska-Lincoln

Institutional Efforts to Facilitate Faculty Development: A Model and Some Arguments

Numerous case study research projects have recently focused on the role of department chairs in faculty development; the presenter will provide a model for institutional efforts toward improvement of new faculty academic socialization and faculty development. After the model is presented, the group will discuss campus-specific model testing and strategies for implementing the suggestions on their own campuses.

10:30-10:45 a.m.

10:45-11:45 a.m.

• Concurrent Sessions

GoVERNORS I
Laurie Richlin
Antioch College
Milton D. Cox
Miami University

Reflections on Pedagogical Scholarship: Reports from the Field

In the area of pedagogical scholarship, doctoral programs have been criticized as being too narrow to provide the range of knowledge and experience future faculty need to teach undergraduates. The session will include discussion of the meaning of results of two major studies related to pedagogical scholarship: preparation of graduate students to become teaching faculty as seen by “providers” and “consumers” of PhDs and (b) the impact of a faculty teaching scholar program on attitudes and behaviors related to teaching. Participants will learn possible solutions for increasing the emphasis on pedagogical scholarship in graduate student programs and among current faculty.

GoVERNORS III
Robert M. Diamond
Syracuse University

Changing Priorities at Colleges and Universities

At many institutions an increased emphasis on research and publications has had a direct and negative impact on the quality of teaching. Recognizing the importance of quality instruction, Syracuse University has embarked on a program designed to develop an appropriate balance between teaching and research. This practical session will describe the steps that have been taken and the modifications that are occurring in the promotion, tenure, and reward systems of the institution. Topics will include the evaluation of teaching, the redefinition of creativity and scholarship, and the role of deans and chairs in effecting change.

GoVERNORS IV
Donald Wulff
Jody Nyquist
University of Washington

An Informal Conversation about To Improve the Academy

This session provides conference participants with the opportunity to identify directions and consult with the coeditors of the 1992 edition of To Improve the Academy, an annual POD publication. Participants are invited to discuss ideas for articles, the nature of the publication, and other issues.

GoVERNORS VI
Ann S. Ferren
The American University

Does General Education Work?

Nationwide the undergraduate curricular reform movement has changed the kinds of courses offered, the requirements for graduation, and the strategies of instruction on our campuses. Inevitably the question is raised, “Has reform of the general education program improved the quality of undergraduate education?” This session will address a variety of assessment strategies that can help answer that question and link program review with faculty development and organizational development.
Using Case Studies in Faculty Development: Raising Diversity Issues  
This session will demonstrate the use of cases about diversity issues for faculty development purposes by engaging participants in a case discussion about a college teacher confronted by a charge of racial bias in her grading. This case will also be used as the model for the case writing workshop scheduled for Friday, 3:15-5:15 p.m.

Using an In-House Teaching Conference to Institute Faculty, Instructional, and Organizational Development  
Faculty often teach in isolation, with few opportunities for practical discourse on their teaching. Holding an in-house teaching conference stimulates exchanges between and among teaching colleagues and sends signals to administrators. Participants will learn about a conference held for the first time this year and discuss issues relevant to their own campuses.

The Teaching Portfolio and Ways of Knowing: Relating Teaching Improvement to Effective Instructional Consulting  
In this session we will explore ways of documenting a faculty development center’s effectiveness in the area of instructional improvement. The presenters will share ways in which they also have used information to demonstrate instructional consulting effectiveness. Participants will collaborate by generating new and other ways of demonstrating effectiveness in faculty/instructional development work.

Lessons Learned on Improving Teaching Effectiveness  
Many new faculty enter higher education with limited teaching experience or training. This session will share information gathered from more than 20 countries and illustrate how the information has been used to design an innovative program to address the needs of new faculty. Participants will discuss the relative success of various faculty development activities in enhancing teaching performance, identify common needs of new faculty and how they may be addressed, and participate in simulated faculty development program activities.

Lunch

• Concurrent Sessions

Funding Faculty Development: How to Get Your Piece of the Pie  
Getting funded usually requires (a) showing evidence of faculty development’s effectiveness and (b) political clout on campus. This session will help participants with both. Using a jigsaw group learning technique, participants will learn results of studies on what works in faculty development. They will also learn 10 keys to increasing faculty developers’ campuswide influence. Participants will apply this knowledge in a simulation in which a faculty developer is asking his or her supervisor for money.
Ways of Growing Faculty Development: Multiplying Local Impact through Regional Collaboration

This session is based on the thesis that diverse institutional “ways of knowing” produce “ways of growing” in faculty development. The Bush Regional Collaboration (BRC), a consortium of over one hundred college and university campuses, is dedicated to enhancing the quality of undergraduate education in its region. After overviews of the session and the BRC and presentations by directors of four institutions involved, participants will work in small groups organized by region. The session will be of interest to any faculty or staff member who would like to:

1. learn about the BRC, its history, goals and structure;
2. learn about the faculty development efforts of four BRC institutions and what they contribute to and derive from participation in the collaboration;
3. reflect on ways in which interinstitutional collaboration might multiply the impact of their own faculty development efforts; and
4. develop contacts and strategies for new or improved regional collaborations.

Front Line Faculty Development: Chairs Constructively Critiquing Colleagues in the Classroom

Even if an institution has a centralized faculty/instructional development program, the people who are often in the best position to promote faculty growth from the initial interview through retirement are department chairs. Department chairs should be prepared in ways to positively promote improvement of instruction possibilities within their departments. This session is aimed at helping department heads become even more effective front-line faculty developers by exploring ways that they can constructively critique and provide feedback on colleagues’ classroom instruction.

Using Peer Classroom Observations to Enhance a Teaching Portfolio

Documentation of exemplary teaching is an important part of institutional and individual accountability. The teaching portfolio is a viable way both to document and to positively influence teaching expertise. Participants will explore, through cooperative learning strategies, the related topics of teaching portfolios and peer classroom observations. Portfolio topics will include use, contents, value, and implementation. Participants will look at the power of peer classroom observations, featuring one-on-one consultations, collegiality, trained observers, and a narrative reporting instrument to document and positively influence teaching expertise.

Focus on Teaching Project: A Discussion with Campus Coordinators

This session will provide an opportunity for participants to discuss developments in the national Focus on Teaching Project sponsored by the Fund for the Improvement of Postsecondary Education. The overall purpose of the project is to improve the quality of teaching in research-oriented universities through enhancements to the evaluation, reward, and support of teaching. Direction of this multi-institutional project is provided through Syracuse University. Project coordinators at six major universities will discuss project developments on their campuses, what has been accomplished during the first year, and plans for the two remaining years of the project. The project coordinators and universities represented include Susan A. Ambrose, Carnegie Mellon University; Donald R. Brown, University of Michigan; Barbara Gross Davis, University of California-Berkeley; Robert J. Menges, Northwestern University; G. Roger Sell, The Ohio State University; and Mary Deane Sorcinelli, University of Massachusetts-Amherst.
Panel and Roundtable Discussion on Classroom Research

Classroom research is the systematic study by instructors of teaching and learning questions in their own classroom environments. The major objectives for this session are (a) to provide an opportunity for people who have some experience with classroom research and people who are curious about it to exchange innovative applications, ideas, questions, and suggestions; and (b) to investigate the general idea and the particulars of forming a network, including ways to obtain funding for classroom research.

After a brief introduction, participants will break up into subgroups facilitated by the four presenters, then report back to the whole group.

Connecting Theoretical and Conceptual Frameworks to Faculty Developers' Courses of Action and Assessment: A Series of Scenarios

Faculty developers need opportunities to discuss ways to respond to problems generated by graduate students, faculty members, and administrators. They need to draw on theoretical and conceptual frameworks that they can connect to courses of action. Participants in this session will read a series of scenarios (cases) involving graduate students, faculty members, and administrators. They will write an individual response to each scenario—a “what I would try to do” course of action and “how I might assess the outcome.” These will be shared and discussed in small group and large group settings.

3:00-3:15 p.m.
Foyer, each level

• Concurrent Sessions

Forging a Common Language

One of the problems confronting higher education is finding ways to teach to the multiple ways of knowing in our classrooms. This workshop will experientially demonstrate multiple ways of knowing through a monitored case discussion. Small group task forces will collaboratively develop ways of teaching to diversity. Participants should come away with a personal experience of different ways of knowing and with suggestions both for forging a common language for classroom discussions and for developing teaching approaches that work with the multiple audiences that inhabit our classrooms today.

Student Management Teams: Applying Collaborative Management Concepts to the College Classroom

Student management teams blend some of the attributes of Edward Deming's “quality circles,” some attributes of “brainstorming sessions” of researchers, and some unique attributes of their own. This workshop will consist of brief presentations followed by audience questions and panel response. Participants will learn about the use of student management teams to improve courses, to improve instructor communication, to encourage mentoring, to vest students with a group responsibility for the quality of a class, and to serve as a means through which students, faculty, and developers can promote a campus-wide concern for learning.
Using Cases for Faculty Development

Complex, fascinating stories about teaching and learning unfold in the classroom. Captured as cases on paper, these stories can engage faculty from all disciplines in rich discussion of fundamental issues, stimulate new insights into the dynamics of their own teaching, and encourage them to experiment with active learning strategies. This session will demonstrate large-group case discussion, then break into small groups to consider key questions about using cases for faculty development.

The Tyranny of Content

The need to “cover the material” through lecture often keeps faculty from trying alternative teaching strategies. This workshop will address the “tyranny of content” by generating practical solutions that professional developers can use when working with faculty. Participants will also evaluate the workshop format so that they might develop an improved version.

How to Write a Case Study: A Beginning Workshop

Case method is becoming an increasingly widely used instructional pedagogy. This workshop will introduce important elements of good case study construction and a process of case development that will enable participants to begin writing their own cases and helping others on their home campuses to do the same. The baseline case serving as the model from which this workshop will proceed is covered in the session scheduled earlier in the day (Friday, 10:45-11:45 a.m.).

The Professor as Active Learner: Evidence from the New Jersey Master Faculty Program

Since 1987, the New Jersey Master Faculty Program has engaged over 300 New Jersey faculty members on all types of campuses in reflection and innovation in their teaching as part of a low-cost, classroom-based program that revitalizes teaching in higher education. Evidence from the program suggests that both traditional evaluation methods and qualitative data collected as part of the program process can help to document and increase program effectiveness. Participants will learn about and discuss a successful faculty development program that engages faculty in peer classroom observation and student interviewing, and innovative strategies that combine quantitative and qualitative forms of evaluation.

Applying Research on Student Development to Teaching Students in College

Research on the development of students in college has great potential as a practical aid to their teachers. This session will draw on research about the ways in which students conceive of knowledge and values that significantly affect their world view and approach to learning in college. Through a presentation and series of exercises, participants will be helped to understand student cognitive and ethical development theory and how to apply this theory effectively in their own teaching and student learning.

Knowing through Reflection: Chairs as Development Practitioners

Department chairs are often the first, and sometimes the only, people to work with faculty on issues related to improving their professional effectiveness. The theoretical perspectives of reflective practice and theories of action will be used to analyze the problems that chairs identify in working with faculty. Using a case study, this session will demonstrate a program designed to increase chairs' effectiveness in dealing with difficult interpersonal situations through reflecting on their practice.

Keynote Address—Improving Higher Education: Issues and Perspectives on Teaching and Learning
  From a global perspective, American higher education has been successful in extending opportunities to an increasingly diverse population, and in supporting a pluralism of institutions and programs. Yet, the pressures on higher education have grown more intense and competitive. For example, we are being asked simultaneously to address and improve student access, retention, and performance and to deliver quality instruction with stringent resources; and to maintain a vital faculty with high performance standards and reward systems that are consistent with institutional missions. What have we learned about the process of improving education that will help us respond to these challenges? The keynote speaker will use her ten years of instructional improvement experience to identify the lessons learned relevant to the current knowledge needed. Discussants will respond from the perspectives of "the British view" (George Gordon) and "the institutional view" (Mary Deane Sorcinelli). A feedback session, incorporating Small-Group Instructional Diagnosis (SGID) and involving the keynote presenter and discussants, will be held on Saturday, October 26, from 9:15-10:15 a.m. in Seminar 1-2.

9:15-10:15 a.m.
GOVERNORS I
Mary Deane Sorcinelli
University of Massachusetts-Amherst
Elizabeth F. Fideler
Massachusetts Bay Community College
Neil Wylie
New England Land-Grant Universities
Concurrent Sessions
  Hard Times Signal Challenges for Faculty Developers
    Recent reports conclude that budget cuts are imposing the hardest times campuses have seen since the depression. But, despite shrinking resources, faculty development centers are increasingly called on to cure long-term problems in undergraduate education—through the training of teaching assistants, multicultural and diversity education, teaching evaluation for both improvement and personnel decisions, efforts to elevate the status of teaching, the development of new faculty and chairs, and the revitalizing of midcareer and senior faculty. This session will provide a forum for developers to articulate common problems and share inspirational, pragmatic, and politically aware strategies.
**Breaking Barriers, Supporting Successes: Mentoring Junior Women Faculty**

This session focuses on a pilot program for mentoring junior women faculty. The program takes a multileveled approach, including colleague-pairing, mentor training, seminars and workshops on developmental topics, social interaction, mentoring contracts, and a longitudinal study of the program's impact on the individuals and the institution. Participants at this session will discuss the challenges, frustrations, and satisfactions of a program for junior women conducted entirely by senior women faculty and administrators. Critical incidents and case studies are included in the session's activities.

**Consultant Directiveness: Is More Better?**

This session focuses on exploring the appropriate level of consulting directiveness when staff interventions are designed to foster learning in a diverse education environment. In groups, participants will explore the limits, drawbacks, and benefits of high and low consultant directiveness. Implications for the group, the consultant, and the organization will be shared and discussed.

**Developing a Comprehensive Plan for Instructional Change**

Approaches to professional, instructional, and organizational development are becoming more comprehensive. For this session, strategic planning for instructional development is the topic. Participants, working from a case, will develop an individual and then group planning map that takes into consideration goals, resources, environmental scanning, events, timing, and other considerations that lead to effective interventions. They will evaluate the plan and their personal planning skills.

**A Method for Using Student Feedback to Improve Teaching**

The Small-Group Instructional Diagnosis (SGID) method for providing midsemester student feedback to instructors will be modeled and discussed. The presentation in the Friday morning plenary session preceding the workshop will be used as the "instruction" that participants (the "students") will discuss in order to provide feedback to the presenter (the "instructor"). The feedback session will be conducted using a nondirective method that helps an instructor interpret student data and devise strategies for responding to student suggestions. The group will reflect on the process, discuss advantages and disadvantages for using the SGID method, and hear more about how the process is used.

**Assessing the Effectiveness of Teaching Consultation Programs**

Although teaching consultation has been shown to improve teaching effectiveness, more research is needed. By working in groups, at the end of this session, participants will be able to (a) describe a model for assessing a teaching consultation program, (b) describe limitations and common errors in this type of research, and (c) outline the major steps in preparing and conducting assessment projects on their campuses.

**Who's Minding the Store? The Doing of Faculty Development**

Although faculty development programs exist on many campuses today, there is a lack of information about the goals, organizational home, structure, and functioning of these programs. Results of a recent study on faculty development committees will serve as the basis of this session. Participants will identify faculty development goals on their campuses and gain ideas for establishing a faculty development committee or reviewing an existing one.
A Comparison of Female and Male Professors: “Good” Teaching Perceptions and Practice

The results of a University of Colorado at Denver study in which the presenters investigated similarities and differences between female and male professors in their attitudes toward teaching will be presented. Through a self-assessment and discussion, participants will be helped to identify their own perceptions of “good” teaching, compare their perceptions with the data obtained in the study, and generate additional research questions that need to be investigated.

10:15-10:30 a.m.
FOYER, EACH LEVEL

10:30-11:45 a.m.

• Concurrent Sessions

Developing a Self-Correcting Faculty Development Program: A Challenge to Faculty Development Professionals

Faculty development programs can be designed to help us learn from both our successes and our failures. This session will focus on building self-correction into program designs. Participants will apply to their own campuses a framework for building “smart” programs that has been used at Teachers College and the New Jersey Institute for Collegiate Teaching and Learning.

The Second Stage: Designing a Diversity Workshop and Follow-up Activities for Faculty

The national media have documented the growing problem of a negative climate for minorities and other groups on the nation’s college campuses. Administrators and faculty are requesting help from faculty developers to design workshops and other activities to foster a more positive climate. In this session participants will get hands-on experience using actual data on faculty needs and attitudes to design a workshop and follow-up activities that go beyond the initial awareness stage of multicultural sensitivity. Materials will be provided that include essential workshop components and an annotated list of optional workshop and follow-up activities.

Multicultural Curriculum through Faculty Development

The curriculum at Bloomfield College is being transformed to include content and pedagogy sensitive to issues of race, gender, ethnicity, and class. This curriculum change process has been aided by an interdisciplinary seminar and individual preceptors. During this session, participants will learn of this successful model and be helped to explore adaptation of the program and its assessment tools to individual campuses.

Transforming the Academy: Do We Really Make Any Difference?

The purpose of this session is to share a variety of research strategies, including both quantitative and qualitative methods, that have been used at Appalachian to provide an ongoing assessment of faculty needs and the effectiveness of our faculty development efforts to address these needs. Methods discussed in this session include surveys, individual and group interviews, departmental profiles, consultation, and participation in planning and governance. Activities include panel and group discussions and development of individual goal and assessment plans.
Learning from Students about Teaching in the Multicultural Classroom: A Home-Grown Videotape Project with African-American Students

It is difficult to bring about a free exchange of ideas between white faculty and African-American students about the conditions that would lead to improved learning for these students. Faculty developers can effectively engage both students and faculty in issues of the multicultural classroom by organizing a videotape project where their own campus's students (in this case African Americans) discuss their concerns. After viewing a videotape of African-American students talking about their classroom experiences, participants will respond to the tape and will be asked to predict faculty responses and suggest ways to deal with them.

Promoting the Use of Active Learning in University Classes: Encouraging Reflective Practice among Faculty

In response to the most commonly heard recommendation for improving classroom instruction in higher education, an intensive two-week summer workshop, entitled “Involving Students: Using Active Learning in University Classes,” was created at the University of South Florida. Participants in this session will reflect upon and share lessons learned about (a) active learning, (b) ways to encourage faculty to try alternative instructional approaches, and (c) strategies to evaluate workshop outcomes.

Strategic Teaching: The Possible Dream, the Enduring Process

By discovering our personal talents, strengths, and resources and employing them toward attainable goals that reflect institutional and societal needs, we can become the best teachers that we really can be. In this session, the presenter will introduce the Strategic Teaching process. Participants individually and in groups will then reflect on experience; identify personal strengths, talents, and resources; identify changing institutional and societal needs; match strengths and societal needs as possible; and develop an action plan for new teaching behaviors.

The Challenge of Student Age Diversity in the Classroom: Strategies for Learning and Teaching

Adult students are returning to college and learning alongside their traditional-age classmates. In light of the intellectual, developmental, and occupational differences these students bring to the same classroom, how do we take advantage of age-related diversity to improve the quality of teaching? Questionnaires and cases will be used to address this issue.

Reflections and Off Broadway
Lunch

1:30-6:00 p.m.
Excursions and Recreational Activities

Cooper's Rock State Forest, deep in the West Virginia mountains, is less than a mile from the Mason-Dixon Line. Located on the Cheat River, with 13,000 acres Cooper's Rock is the largest unit in West Virginia's system of state forests. Cooper's Rock offers spectacular mountain scenery, dense forest with abundant naive animals, and interesting geological formations. There will be plenty of opportunity for hiking along the forest's many trails, and we will be accompanied by an experienced local naturalist who will help us interpret the forest's natural features. A variety of other recreational activities are available to
conference participants during this afternoon period. (Organized by Lion F. Gardiner, Rutgers University; Kit Price, Depauw University; and Richard Tiberius, University of Toronto.

Swimming Events (organized by Robert M. Diamond, Syracuse University)
To be held at Fitness and Sports Center Complex.

Golf Outing (organized by Glenn Ross Johnson, Texas A&M University)
To be held at Lakeview Golf Club.

Round Robin Tennis Tournament (organized by Delivee Wright, University of Nebraska at Lincoln; and Marilla Svinicki, University of Texas-Austin)
To be held at Fitness and Sports Center Complex.

Improving Higher Education: A Panel Review
In keeping with the general theme of inquiry, at this last general session POD panelists will reflect on each of the conference themes, commenting on the sessions that have been presented and discussing implications for the future of our work. The general strands that will be treated include: Developing and managing instructional development centers and assessing their impact (Dan Wheeler, University of Nebraska); documenting instructional effectiveness and improving instruction (Robert Menges, Northwestern University); promoting the scholarship of teaching and classroom research (Nancy Chism, The Ohio State University); responding to diversity (Virgie Chattergy, University of Hawaii); and refining or creating new approaches to faculty development work (Mary Lou Zanich, Indiana University of Pennsylvania).

Reflections on Teaching and Evaluating a Graduate Course in Faculty Development
In recent years the field of faculty development has emerged not only as a practice in many colleges and universities but also as a professional specialty area that is linked directly to theories of adult development and encompasses a wide array of issues in higher education. Through discussion and the sharing of materials, participants will learn how to plan, present, and evaluate a course in faculty development.

City Polytechnic of Hong Kong

Improving Teaching Following Student-Based Formative Evaluation: Case Evidence of Success
The Teaching Evaluation and Improvement Package (TEIP), a teaching evaluation process and improvement program, has been developed at City Polytechnic of Hong Kong. The design features of the package, based on student evaluation of teaching data, will be presented. Participants will examine case evidence of actual changes in teaching that have resulted directly from use of the package and will exchange ideas on the related issues of formative student evaluation of teaching and bringing about actual changes in teaching.
