This Article is brought to you for free and open access by the Nebraska Academy of Sciences at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Transactions of the Nebraska Academy of Sciences and Affiliated Societies by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.
Establishment of the \textit{Transactions of the Nebraska Academy of Sciences}

In 1969, during its eightieth session, the State Legislature of Nebraska passed Legislative Bill 776, which appropriated funds to aid the Nebraska Academy of Sciences in the publication of scientific works submitted by Nebraska scientists. Volumes I and II of the \textit{Transactions} were published under this arrangement, but Volume III was privately financed. Volume IV and succeeding volumes are being published under the auspices of the Nebraska Department of Education with funds authorized by the State Legislature, supported by the last five governors, J. James Exon, Charles Thome, Robert Kerrey, Kay A. Orr, and E. Benjamin Nelson. Volume XI was supported by the Nebraska Department of Education, but the publishing of Volume XI—Special Issue, Symposium \textit{(Man and the Changing Environments in the Great Plains)}, August 1983, was made possible by a grant from the Peter Kiewit Charitable Trust, Omaha, Nebraska. The Symposium on 16–18 April 1980 was sponsored by the Center for Great Plains Studies, College of Arts and Sciences, University of Nebraska–Lincoln and the Institute for Tertiary and Quaternary Studies (TER-QUA), a Division of the Nebraska Academy of Sciences.

EDITOR'S CORNER

The Transactions of the Nebraska Academy of Sciences publishes results of original research by members of the Academy in good standing. It is indexed in Biological Abstracts and Cambridge Scientific Abstracts and is received by more than 600 libraries worldwide. Presentation of a paper at the annual meeting of the Academy is not a prerequisite or a guarantee of publication in the Transactions. Persons wishing to submit a paper for consideration should consult the inside back cover of this volume for information about preparation and style of manuscripts. Manuscripts are reviewed by at least two referees, including at least one from outside the author’s institution. Following review by the referees and the editorial board, the author is notified whether or not the paper is accepted for publication and, if accepted, of necessary revisions.

The valued assistance of the many reviewers of manuscripts is gratefully acknowledged.

NEBRASKA ACADEMY OF SCIENCES, INC.

The membership of the Academy consists of those individuals and institutions interested in science and those persons actively working and contributing to science in the State of Nebraska. It includes nonprofessional persons, as well as representatives from education, the professions, industry, and governmental agencies.

The Academy was organized in 1880 in Omaha with seventy-five charter members, and reorganized in 1891 in Lincoln. The Academy was incorporated in 1950 as a nonprofit educational institution, and it is neither a state agency nor is it sponsored by any particular university, college, or other Nebraska educational organization. In 1963, the Internal Revenue Service established the Academy's rating as "Section 501(c)(3)" of the Internal Revenue Code. The Policy Committee of the Academy is made up of one representative from each of the colleges and universities of the State.

OBJECTIVES: The objectives of the organization are to further the work of scientists and science teachers in the high schools and colleges of the state, to facilitate cooperation among them, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of science in human progress.

RESOLUTION: The following resolution concerning our environment was recently approved by the Academy membership: "Be it resolved that the Nebraska Academy of Sciences, as the principal organization representing the scientists of the State, is greatly concerned with the deterioration of the environment. The scientific talent of Nebraska is considerable, and it is hoped that individually-collectively it may be better utilized by both State and federal agencies in addressing problems of destruction of trees, native prairie, groundwater resources and habitats."

"FRIENDS OF SCIENCE" AWARDS: These awards are given to persons who are not actively engaged in scientific teaching or research, but who have shown unusual interest in promoting science and in sponsoring scientific programs in Nebraska. The following Nebraskans have received a Friend of Science Award: Mrs. Mabel L. Criss, Omaha (1970); Dr. Walter D. Behlen, Columbus (1976); Vance D. Rogers, Lincoln (1977); George and Olivia Lincoln, Lincoln (1980); Mr. and Mrs. Thomas C. Woods, Jr., Lincoln (1981); Dr. Lewis E. Harris, Lincoln (1984); Dr. Robert W. Allington, Lincoln (1989); Florence Boring Lueninghoener, Fremont (1992); Robert B. Crosby, Lincoln (1993); Virginia Dodd Smith, Chappell (1993); Dr. Donald Othmer, Brooklyn, New York (1994); John Frey, Lincoln (1995); Elizabeth Rubendall, Lincoln (1996); and Professor T. Mylan and Eunice Stout, Lincoln (1996).

FRIENDS OF THE ACADEMY: The Academy owns three properties and accompanying endowments: the Maiben Scientific Research Center in Otoe County, from the estate of Benjamin and Rachel Corr Maiben (1959); the C. Bertrand and Marian Othmer Schultz Environmental Prairie in Webster County, deeded to the Academy by Dr. and Mrs. Schultz; and the C. Bertrand and Marian Othmer Schultz Grandview Heights Center for Environmental Study in Lancaster County (former home of the Schultz family), deeded to the Academy by Dr. Schultz (1992).

The following individuals and organizations have contributed $100 or more during the past ten years to help the Academy in promoting research and teaching of science and technology in high schools, community colleges, and universities throughout Nebraska:

**INDIVIDUALS**

Robert B Allington, Lincoln
Laddie J. Bicak, Kearney
Marvin A. Bichel, Wakefield
James and Carolyn Brandle, Lincoln
George H. Coleman, Lincoln
Frank Crabill, Riverside, Connecticut
Tranda Schultz Fischelis, Philadelphia, Pennsylvania
John H. Frey, Lincoln
Norman Griswold, Lincoln
Lewis E. Harris, Lincoln
Robert H. Harris Lincoln
Francis A. and Dorothy Haskins, Lincoln
Daniel B. Howell, Lincoln
Robert B. Johnston, Lincoln
Sara Mica Kubicek, Paris, Tennessee
Larry Martin, Lawrence, Kansas
Z. B. and Lois Mayo, Lincoln
Walter E. Mientka, Lincoln
Donald O. Miles, Jackson, Missouri
Rosalind Morris, Lincoln
Donald F. and Mildred Topp Othmer, Brooklyn, New York
Elizabeth Rubendall, Lincoln
Marian and C. Bertrand Schultz, Lincoln
Donald E. Shult, Omaha
Eunice and T. Mylan Stout, Lincoln
Darryl Tharalson, Chadron

**INDIVIDUALS, CONTINUED**

Ronald Weedon, Chadron
William M. Wehrbein, Lincoln
John L. Weihing, Gering
Mark Werth, Lincoln
Donna Schultz Wilcox, Papillion
Mr. and Mrs. Thomas C. Woods, Jr., Lincoln
Mr. Charles Yount, Gering

**ORGANIZATIONS**

Berkshire Hathaway, Inc., Omaha

SmithKline Beecham, Lincoln
State Farm Insurance, Lincoln
NATS — NEBRASKA ASSOCIATION OF TEACHERS OF SCIENCE

The purpose of the Nebraska Association of Teachers of Science is advancement, stimulation, extension, improvement, and coordination of science education in all fields of science at all levels. The Association is dedicated to the improvement of science education in Nebraska.

Membership is available to those engaged in the teaching of science and to those interested in science education. Activities include: 1) The Annual Fall Conference, providing science educators with updates in content and strategies designed to enhance science education in Nebraska. Workshops, speakers, and concurrent sessions are available in each content area and at all levels from elementary to post secondary. 2) The NATS Newsletter, a quarterly publication designed to provide a communication link among all NATS members. Each edition provides information on current research in science education, resources, opportunities for workshops and conferences, teaching tips, activities of affiliated groups, and recognition for outstanding educators in Nebraska. 3) The Presidential Award for Excellence in Science Teaching, coordinated and administered by NATS. 4) The Outstanding Contributions to Science Education Award, given annually to a Nebraskan who has made outstanding contributions to science education. 5) A Spring Drive-in Conference, held annually to provide updates and activities on selected science-education topics. 6) The Nebraska Science Olympiad annual competition for students, sponsored by NATS to stimulate interest and provide recognition for achievement in science.

TER-QUA — INSTITUTE FOR TERTIARY AND QUATERNARY STUDIES

The Institute for Tertiary and Quaternary Studies (TER-QUA) was organized in 1968 in Lincoln at the recommendation of the National Academy of Sciences-National Research Council’s U.S. International Committee of INQUA (International Union for Quaternary Research), and it became a Division of the Academy in 1974. This Division was joined by an organization of Gulf Coast geologists in 1982. TER-QUA is composed of multi-state, interdisciplinary working groups, whose research is directed to the changing environments—past, present, and future—of the Great Plains and Gulf Coast, with particular emphasis on water resources and climate. Instrumental in fulfilling the objectives of INQUA was Professor C. Bertrand Schultz, Co-director of TER-QUA and Executive Director of the Academy for many years.

TER-QUA SYMPOSIA are held periodically at Great Plains or Gulf Coast locations, including Nebraska, Colorado, Texas, Kansas, and Oklahoma. The TER-QUA Advisory Board, which includes persons from several states, announces the 10th Annual TER-QUA Meeting to be held February 29–March 2, 1996, in Lawrence, Kansas.
