19th Annual Conference Program
VISION QUEST:
Dialogues on Dreams, Barriers
and Best Practice
in
Professional and Organizational Development

19th Annual Conference
October 19 - 23, 1994

Red Lion Inn, Columbia River
Portland, Oregon
Exploring the Conference Theme:

Experienced professional developers return to the POD Conference each year with a thirst for dialogue around tough issues, a need to share processes and techniques that work, and a drive to return to their respective campuses, charged with new dreams and incentives to continue to create. Every year, new conference participants are welcomed and encouraged to join in the quest for excellence in professional and organizational development programming in higher education.

Conference sessions this year will focus on Dreams, Barriers, and Exemplary Processes and Techniques. Participants will be encouraged to Dream; to take pause to reflect collectively and individually as it relates to our unique roles and responsibilities on our home campuses, on professional and organizational development as it could be. Concurrently, we will be sharing real experiences; that is, identifying the Barriers that exist to effective programming, as well as, sharing effective Processes and Techniques that have potential for being transferable.

When meeting in wawsuk-la sessions, participants will contribute in the quest for identification of dreams, barriers, and exemplary processes and techniques. During summary activities, wawsuk-la are given the option of sharing their thoughts and lists. All contributions will be collated and shared with conference participants in a mailing after the conference.
Dear Colleague:

Welcome to the 19th annual conference of the Professional and Organizational Development Network in Higher Education (POD). This year, the conference site and the program are designed to inspire interaction around the theme of Vision Quest: Dialogues on Dreams, Barriers and Best Practice in Professional and Organizational Development. Your fellow participants include administrators, teaching faculty, full-time professional developers and consultants, and others who share the common interest and responsibility of promoting professional and organizational development on their respective campuses. In the 1993 POD conference evaluation, participants indicated that they attended the conference with the expectation of being socially warmed, professionally stimulated, and personally rejuvenated. To this end, the Portland conference was designed with pre-conference workshops, large group plenary sessions, roundtable sessions, poster and concurrent interactive sessions, small working groups (wawsuk-la), and opportunities for one-on-one networking. In addition, a resource fair will provide opportunity to share program materials, educational options will provide for exploring the Portland region, recreational options will maintain the physical balance, and theatre and music will stimulate the soul and the senses. The schedule is designed to include something for everyone, respecting the unique backgrounds and diverse needs of the participants.

Two significant changes have been made in the conference schedule and program this year. We welcome your feedback on these changes. We are experimenting with a West Coast format. Since East Coast (EST) and Central states (CST) participants must often forfeit Sunday morning sessions due to flight schedules and the time differential, we decided to use the sun to an advantage by moving the conference back one-half day and omitting Sunday morning concurrent sessions. Sunday morning summary session conclusions will be collated and distributed to all conference participants after the conference.

You will note on the schedule the addition of wawsuk-la sessions. The processing groups are based on experiential learning theory and are called wawsuk-la from the spiritual leader Smohalla's spirit bird (a Bullock's oriole) that came to him during a vision quest. All conference participants have been randomly assigned to a wawsuk-la. Several times throughout the conference, twenty-five small groups will meet to process conference experiences and to consider the three conference themes. Each group has co-facilitators and a specific meeting location that are identified in your conference packet. The back of your name badge indicates your wawsuk-la affiliation.

On behalf of all those who have contributed to this conference, I welcome you to Portland and to another POD experience.

Larry K. Quinsland
Conference Coordinator

Conference Information and Resources

### Registration Hours
- **Wednesday, October 19**: 11:00am - 2:30pm, 5:00pm - 6:30pm, 8:30pm - 9:30pm
- **Thursday, October 20**: 8:00am - 6:00pm, 8:00pm - 9:00pm
- **Friday, October 21**: 8:00am - 9:00am, 1:30pm - 2:30pm
- **Saturday, October 22**: 8:00am - 9:00am

### Conference Meals
On-site meals together are an important part of the POD conference tradition. One reason for selecting this hotel as our conference site was its excellent cuisine. Your daily hotel rate includes all conference meals beginning with dinner on your day of arrival and ending with the summary session breakfast on Sunday. Daily breaks, special events and all tips and gratuities are also included in the daily hotel rate.

Significant others and single day "commuter" attendees may purchase meal tickets at the POD registration desk. Anyone NOT staying at the Red Lion Inn must purchase meal tickets.

**Please assist the conference planners and the hotel staff in verifying meal counts by wearing your name badge at all meal functions.**

### Evaluation
Your assessment of this conference is important to us. This data is taken very seriously in the planning of future POD conferences. Please take the time to share your opinions by completing all evaluation forms.

### Poster Sessions and Materials & Resource Fair
This year Poster Sessions and the Materials & Resource Fair will be held concurrently in the Willamette, Deschutes, and Umatilla Rooms on the lower level. Presenters and exhibitors should verify their pre-assigned table locations with registration personnel prior to the Saturday evening event.

### Message and SIG Boards
Conference participants may contact each other by using the message board near the registration table in the lobby.

A second board will provide an opportunity for participants to designate a special interest and to "network" with others through use of the SIG board.

### Special Meeting Space
Space is available for small group ad hoc meetings. Arrangements can be made at the POD Registration Desk.
Accessibility
A new elevator should be ready for use in the lobby by the time the conference begins. Other elevators are available to participants. Inquiries should be made at the hotel desk or the POD Registration Desk. TDDs, emergency strobes and other flashing devices may be checked out at the hotel desk. Conference participants may obtain a TDD from the hotel desk for use in contacting other participants via the house phone.

Smoking
Smoking is not permitted in any of the conference meeting spaces.

Refreshment Breaks
Refreshment breaks are designated on the program and will be located in the Columbia hallway (on the lower level) and on the West Landing (top of west staircase upper level). Restrooms are nearby on all levels.

Copy/Fax Services
Participants may acquire copy and fax services at the hotel lobby desk.

Recreational Resources
In addition to the hikes planned for Saturday afternoon (see Educational Expeditions), several opportunities exist for R&R on a daily basis during the conference:
• Morning Stretch & Walk (see Program)
• Walking/Jogging route (description in registration packet)
• Riverside Athletic Club (nominal fee - see Hotel desk)
• Tennis (see Hotel desk)
• Golf (see hotel desk)

Special Events & Speakers

Len Barron will be joining us, weaving several roles throughout the conference. In "Walking Lightly... A Portrait of Einstein," Barron creates a portrait of the genius by recounting stories about him and demonstrating that Einstein’s thoughts and writings on education are as elegant as his work in physics. His workshop “Thoughtfulness and Fun” will borrow ideas from the theatre piece and share other ideas of Einstein on education. In the second theatre piece “On the Pleasure of Growing Older”, Barron celebrates the concept through song, dance and stories. The Boulder, Colorado resident of many years finds inspiration in walks along the Boulder Creek.

William Plater is the Executive Vice Chancellor and Dean of the Faculties at Indiana University Purdue University at Indianapolis. Prior to assuming this role, he was Dean of the Faculties and also served as Dean of the School of Liberal Arts at IUPUI. A member of the Modern Language Association, Dr. Plater has authored The Grim Phoenix: Reconstructing Thomas Pynchon and numerous scholarly articles and monographs. He will be sharing with us his view of faculty work and faculty development in the 21st Century.

Joan DeGuire North, founding Executive Director of POD in 1976, has plowed the fields of academic administration for the past 13 years. As Dean of the College of Professional Studies at the University of Wisconsin-Stevens Point, she has been self-examining College commitments to teaching and rethinking concepts of faculty roles. She has presented and written on faculty vitality and stress, women in administration, technology in K-12 schools, and systemic change. In past career lives, she served as Director of the Teaching-Learning Center and Venture Fund at the University of Alabama and Trainer for the Washington-based Small College Consortium in faculty development and organizational change.

In addition to working in faculty development for many years, Marty Nemko has been a consultant to higher education administrators, including fifteen presidents. Currently, he is assisting the Western Association of Schools and Colleges in its efforts to reinvent accreditation and in helping the Bush Collaborative in developing its long range plan. He has authored two books and 200 articles which have appeared in such publications as Change Magazine, The Chronicle of Higher Education, and The New York Times. He is also producer and host of “School Talk” heard weekly on a National Public Radio affiliate in San Francisco.

Involved in faculty development since 1974, Peter Seldin has been a consultant to more than two hundred colleges and universities throughout the USA and twenty countries around the world. He is the author of nine well-received books including Successful Use of Teaching Portfolios (1993), How Administrators Can Improve Teaching (1990), and Changing Practices in Faculty Evaluation (1990), and Changing Practices in Faculty Evaluation (1984). Peter has also contributed numerous articles on the teaching profession, student ratings, and academic culture to such publications as The New York Times, The Chronicle of Higher Education, and Change Magazine. He has won awards both as an educator and as a grower of cherry tomatoes.

Getting Started In Faculty Development
(extra fee)
This workshop is for persons who are new to instructional, professional or faculty development – faculty on committees, consultants, administrators. The first half-day will provide participants an opportunity to learn about major approaches to faculty development and to hear from experienced practitioners in the field. In the second half-day, participants will choose from two of three sessions: conducting workshops, publishing newsletters, and offering individual teaching consultations. All participants will receive two publications: "A Handbook for New Practitioners" and Face to Face (about individual consulting). (Continued Thursday morning).

L. Dee Fink, University of Oklahoma

Yakima

Better Teaching, More Learning:
A Workshop on Teaching Strategies
(extra fee)
This workshop is for professionals in faculty development and faculty, new or experienced, who want to reflect more deeply on what really takes place in classrooms where students are learning. The workshop is divided into sub-sessions to explore four teaching strategies, each based on a different paradigm of how people learn. The strategies are "Training & Coaching," "Lecturing and Explaining," "Inquiry & Discovery," and "Groups & Teams." Each strategy is modeled as well as explained as participants are actively engaged in experiencing the strategy. Better Teaching, More Learning, authored by the facilitator and recently published by the American Council on Education and The Oryx Press, will be provided to workshop participants for follow-up reading. (Continued Thursday morning).

James Davis, University of Denver
### Santiam

**Identifying and Removing Barriers to Quality:**
*Using TQM in Higher Education (extra fee)*

Total Quality Management philosophy is being widely discussed and will be increasingly used in higher education as a systemic means of addressing serious issues of educational quality. Participants will apply to their own institutions the vision of quality TQM fosters and use specific TQM methods to develop skill in identifying and removing barriers to quality.

*Lion F. Gardiner, Rutgers University*

### Clackamas

**Inner Vision: Tapping the Power of the Imagination (extra fee)**

Is the imagination a mystery or an accessible tool? This highly experiential and interactive workshop will help faculty and faculty developers alike to access the imagination and use it in their personal and professional work. We will discover surprisingly simple ways to discard fears, tap into creative abilities, manifest positive outcomes and solve difficult problems. Faculty will be introduced to many practical classroom applications and faculty developers will find the imagination to be an invaluable resource in our visionary search for excellence.

*Elisa Carbone, University of Maryland University College*

### Nehalem

**Mentoring Instructional Colleagues: A Training Seminar (extra fee)**

A training seminar used to develop and enhance the mentoring skills of faculty will be presented. The session will benefit faculty developers seeking a mentor training model and individuals seeking to enhance their own mentoring skills. Participants will take part in learning experiences utilized in the seminar.

*Richard Nichols, Professor of Education (Retired) & Beverley Amick, Kean College of New Jersey*

Better Teaching, More Learning:
A Workshop on Teaching Strategies
(continued)

Umatilla
The Teaching Portfolio:
Important New Lessons Learned (extra fee)
The teaching portfolio is an especially promising way for professors to document and improve what they do in the classroom. Yet some institutions use the approach effectively while others do not. This interactive workshop will discuss important new lessons learned about what works and what doesn't, key strategies, tough decisions, latest research results, the critical role of faculty developers.

Peter Seldin, Pace University & Linda Annis, Ball State University
Advanced Cooperative Learning: 
An Eclectic Approach (extra fee)

Because cooperative learning is becoming better known and more widely used in higher education classrooms, practitioners seek ways to hone their implementation skills, deepen their understandings of group processes, and expand their repertoire of classroom activities. Besides these topics, the workshop focuses on lesser known, but highly effective advanced structures such as "Pass-a-Problem," "Reciprocal Peer Questioning," "Responsive Written Exchanges," and "Cooperative Case Studies." Participants will receive a book on cooperative learning co-authored by the presenters and other relevant handouts.

Barbara Millis, University of Maryland University College & Phillip J. Cottell, Miami University

Cracking the System: Strengthening Your Talents and Skills as a Faculty Development Director (extra fee)

This practical and interactive workshop is provided for faculty development directors who often receive minimal training in how to effectively administer a campus program. The focus will range from the skills, abilities and expertise required of a director who is the sole faculty developer to those needed by directors who administer programs employing several staff members. Additionally, participants will have an opportunity to initiate networks to help them continue the dialogue beyond the POD conference.

Marilyn Leach, University of Nebraska at Omaha

Lunch & Readers' Theatre

Teachers, students, and administrators are all fair game when the Famous Readers' Theatre gives its irreverent portrayal of the foibles and fables of higher education. This could be a truly didactic experience for you – that is, instructional as well as entertaining. Or at least entertaining. Heaven forbid that it be merely instructional!

Opening Session

Culturally Responsive Teaching: 
A Transformative Motivational Framework

This session acquaints participants with a transformative motivational framework which offers a comprehensive perspective and rationale for the equitable and creative evolution of learning in post-secondary settings. This model bridges principles of intrinsic motivation, equity, and cultural pluralism, providing norms, procedures, and structures to create the community and experiences which respect all students and engender relevant learning for those students.

Raymond Wlodkowski, Boulder, CO; Margery Ginsberg, Denver, CO
CYBERSPACE

Using our certified passport, we will take a journey to see how the electronic network can enhance teaching. We will make the first leg of our trip from the classroom to make connections with our students. Then we will embark on a journey to various national and international ports where we will join with authorities throughout CYBERSPACE as we conduct research and see the sights on our quest for knowledge.

Connie Batten, Ft. Hays State University

Strategic Teaching: A Process of Accomplishing the Possible Dream

By identifying our strengths and talents and applying them to institutional and societal needs, we can become the very best teachers and developers we can be. Workshop participants will learn this process by actively engaging in the reflecting, planning, acting, and growing that moves us toward fulfilling both our personal dreams and the promise of living.

Lin. Fisch, Lexington, KY

In Search of a New Paradigm For Faculty Development

The goal of this workshop will be to encourage participants to think about a new faculty development paradigm. The story of one college in one university as faculty and administration searched for and experienced a paradigm shift will be shared and examined. Target audience: Faculty; faculty development personnel, and administrators.

Janet Malone & Joan North, University of Wisconsin-Stevens Point

Pipeline Issues: Are We Reproducing Ourselves or Inviting Others to the Faculty Development Profession

In hiring new faculty/instructional developers, do we tend to choose people like ourselves? If so, we jeopardize our capacity as a profession to expand our vision, limit our ways of operating, and constrain our relationships with a changing faculty population. This session will talk about the advantages and challenges of recruiting and working with colleagues from different cultural backgrounds.

Nancy Chism, Ohio State University; Diane vom Saal, University of Missouri-Columbia; Debrah Jefferson, University of Illinois

From Portfolios to Performance: A Panel Discussion of Dreams and Barriers of Doing Faculty Development

Developing a portfolio for faculty developers can be a time consuming and limitless process, from building a list of accomplishments and references to developing a personal philosophy of faculty development. This session will feature a panel of faculty developers from four major institutions, with varying positions, who will reflect on their relatively new positions. The panel will interact with participants in sharing their dreams, barriers encountered, and lessons learned from building a portfolio to doing faculty development.

Christine A. Stanley, Ohio State University; Erin Porter, University of Texas; Carol Weiss, Philadelphia College of Pharmacy; Eric Kristensen, Berklee College of Music
Deschutes

Mentoring in Scholarly Publishing
Through activities designed especially for faculty who have “done the writing” but now need to “get the publication” this session provides participants with:
1) a concrete, informed understanding of the demands of scholarly publishing; 2) essential tools to enhance successful and time-efficient placement of work; and, 3) an effective model for both personal practice and mentoring within the profession.
Terri Fronqia, University of California-Riverside; Alida Allison, San Diego University

Tualatin

Disciplined-Based Patterns of Faculty Participation in Development Activities, or “Going Where No One Has Gone Before”.
Faculty developers often note that certain disciplines are underrepresented in their clientele. In this session, we will determine if discipline-based patterns of participation exist across institutions, generate hypotheses about the patterns and the context in which they occur, and share strategies for making “inroads” into a broader range of departments.
Rea Freeland, Carnegie Mellon University; Susan A. Ambrose, Carnegie Mellon University

Nehalem

Are We Leaving Them Out? Issues Related to the Professional Development of the “Unfaculty”
An employee group important to our institutional missions is that of administrative/professional/technical employees (or a similar term). They are not tenure-track, academic faculty. (Indeed, you might be one!) What do we know about their status, their roles, rights, and responsibilities? What professional development needs might they have? What are we offering them... if anything? Are there barriers here that do not serve us well? These and other issues will be considered through presentation of data and facts, plenary and small group discussion.
Kay U. Herr Gillespie, Colorado State University

Rogue

Course & Curriculum Design
The practical, interactive workshop will introduce a successful model for course, curriculum, and program design. It will describe the role of the developer in design, implementation, and evaluation. The politics of implementation, successful change, the skills needed to be an effective developer, and how to increase impact with limited resources also will be discussed.
Bob Diamond, Syracuse University

Willamette

Faculty Consultations Forum I
Participants in a 1993 POD Conference session on faculty consultations expressed an interest in sharing cases and exploring alternative consultation approaches. During the three Faculty Consultations Fora (Thursday, Friday & Saturday) presenters will describe a diverse set of consultation interactions. Participants will have an opportunity to react to cases and compare alternative approaches to those actually taken by the presenters. These sessions should be of interest to both the experienced practitioner and the participant who is new to consulting with faculty.
Gabriele Bauer, University of Washington; Keith Mousley & Larry K. Quinsland, Rochester Institute of Technology

4:00pm - 4:30pm
Columbia Hallway & West Landing

Break
Thursday Concurrent Sessions
Block B (4:30-5:30pm)

Are Support Teams in Your Future
Wouldn’t it be great if a personnel evaluation system could be designed to support, motivate, and develop faculty and staff? Based on a pilot project, the presenter will share elements of a program and personnel support system that has changed faculty attitudes about evaluation. He will challenge those involved in personnel appraisal to develop further the key components so they can be applied at the participant’s institution.

Louis S. Fourman, Ohio State University

In the Spirit of the Americans with Disabilities Act
The Americans with Disabilities Act (ADA) was designed to ensure access without undue financial hardship. However, the minimums outlined in ADA are not a guarantee nor do they provide completely for the reasonable access intended. This session features discussion of a variety of barriers encountered in constructing an educational system consistent with the spirit of the ADA.

F. Greg Emerton, Laurie Brewer & Eileen Biser, Rochester Institute of Technology

Quality in Large Classes. Is It Possible?
Quality and continuous quality improvement represent major trends in higher education. This session will explore the application of quality improvement techniques and tools to large class teaching situations. Participants will have the opportunity to employ quality improvement techniques in their exploration. A summary of activities and recommendations of a group using quality techniques to investigate large classes will be provided.

Frank Gillespie, University of Georgia

Can We Have Our Cake and Eat It Too?
(Teaching portfolios for Improvement and Evaluation)
Teaching portfolios are accepted as effective tools for promoting reflection and dialogue about teaching. As demands for “accountability” in higher education grow louder, some administrators are considering teaching portfolios as a means of gathering evidence of effective (or ineffective) teaching. Session participants will identify barriers to successfully using teaching portfolios for both improvement and evaluation of teaching.

Nancy J. Simpson, Texas A&M University

Encouraging Faculty to Transform Teaching
Insights and Experiences in Scholarly Publications
Lessons from the classroom and reflections upon the teaching/learning process provide faculty fertile though often overlooked ground for scholarly writing. This interactive session will explore ways to help faculty connect their teaching activities with their scholarly writing by examining strategies for designing and conducting writing workshops by identifying writing strategies that lead to the successful preparation and publication of pedagogic articles. In addition, insights from the facilitators efforts to implement one such program will be shared.

Jim Eison & Ellen Stevens, University of South Florida
Klamath
Implementing Successful Teaching Improvement Practices
This session will explore the barriers to a wide range of effective teaching improvement practices as identified in our recent international study. Instructional developers, faculty, and administrators will find an opportunity to set priorities for action and to devise strategies for overcoming barriers to effective institutional teaching enhancement policies and programs.
Carol O’Neil & W. Alan Wright, Dalhousie University

Yakima
Making Dreams Come True About Teaching in the 21st Century
The coming of a new century provides an opportunity to inspire faculty to consider new and different approaches to teaching. As faculty, administrators and faculty developers, we will explore emerging teaching trends and ways to involve our colleagues in these new approaches to teaching.
Milton D. Cox, Miami University

Santiam
The Cognitive Revolution Comes to Campus: Situated Cognition, Cognitive Apprenticeship and Faculty Development
This session will explore how new models of teaching and learning reflected in terms like “situated cognition” and “cognitive apprenticeship” can lead to new visions of faculty development. How do these models affect how we advise faculty on teaching students? How do they affect how we work with faculty learners?
Mary Pat Mann, Ohio State University College of Osteopathic Medicine

Willamette
But What If It’s a Disaster? Allaying Apprehensions About New Teaching Strategies
How will I cover the material? How do I control what’s being learned? What will my students think of me? We must help our faculty colleagues deal with the apprehensions underlying such questions; otherwise, new learner-centered teaching methods may be abandoned for the security of past practice. This session, for new and experienced developers, will identify common faculty concerns. Participants will then explore strategies for providing instructors with both individual and institutional support.
Carol A. Weiss & Raymond Orzechowski, Philadelphia College of Pharmacy & Science

McKenzie
Culture Shock or Culture Shift? Adapting a Successful Teaching Improvement Program from the Community College System to The Research University
A college and a university faculty development coordinator describe how they collaborated to adapt a teaching improvement program already heavily used by the community college system to meet the needs of faculty and T.A.s in a large traditional research university. Key elements for success and strategies for adapting to different sites and target audiences will be discussed.
Diane Morrison & Gail Riddell, University of British Columbia
Using E-Mail as an Instructional Strategy: Benefits, Barriers, and the Role of the Faculty Developer

The use of electronic mail is extending into the traditional classroom creating new opportunities and challenges for faculty, students, academic computing professionals and faculty developers. While there is tremendous potential in the use of electronic mail as an instructional strategy, there exist several barriers to quick and easy incorporation. Through presentation and participation we will explore the use of electronic mail in teaching and examine the role of the faculty developer as active participant in this process.

Consulting with Faculty on the Development of Interdisciplinary, Team-Taught Courses
This session is for professionals in faculty development who want to explore how they can become more effective as consultants to teams of faculty in developing interdisciplinary, team-taught courses. After some brief introductions provided by the leader to establish working definitions and a conceptual structure, participants will focus on a case that traces the course development process through its ups and downs. At critical points throughout the case, participants will be asked: What role could you play now to facilitate the development of this course?
James R. Davis, University of Denver

Riverview
A Vision of Student Learning Outcomes Assessment: Barriers to Successful Implementation
“Student Learning Outcomes Assessment” is a phrase that can put fear and anxiety into any educator’s heart. This session will address the vision(s) of student learning outcomes assessment and ways to recognize some of the barriers that exist to successful implementation. Most importantly, we will discuss ways to overcome these barriers. Target audience: Faculty and administrative members involved with assessment.
Catherine W. Hickman, Stephens College

Riverview
An Exercise in Defining Development
A crucial step in implementing successful faculty development is establishing a local definition of development, a definition of excellence, and a definition of standards for evaluation. Boyer and others have suggested some basic criteria for defining development. We suggest that the definitions must emerge locally if the campus community is going to buy into the program. The goals of this session are to demonstrate both variety and consensus in defining development; i.e., to reveal the complexity of the defining process, to show methods for obtaining consensus and to gain and appreciate the value of the definition process.
Sean C. Madden, Harry Langley & Marc Sylvester, California University of Pennsylvania

Riverview
Value Systems in the Liberal Education Curriculum
Consideration of the questions of whether it is ethical to omit from, or to what degree to consider in, the official program a serious consideration of a system of values for students. Intended for those interested in redefining the liberal education program, the session will evaluate the needs of society and the obligation of the institution to adequately prepare the student for life.
Robert Jerome, James Madison University

Riverview
Preparing Faculty for the Multicultural Classroom: A Cooperative Approach
Preparing faculty to meet the challenges of multicultural classrooms calls for cooperation, creativity, and a spirit of community. This interactive session identifies ways in which the offices of cultural diversity and faculty development can work together to promote faculty awareness and understanding through a broad spectrum of programs ranging from new faculty orientation to annual faculty development conferences.
Kenneth J. Zahorski, St. Norbert College
Brown Bags, Tea Bags, Pizza and Side Dishes
Is this a grocery shopping list? Not exactly, but it is a creative advertising menu of programs offered by our teaching center and it is working! Forming small groups, participants will discuss possible campaign strategies and techniques for creative program advertising. Using planning tools groups will design a year long campaign.
Jeanne Ballantine, Laurie Palmetier & Shanda Nugent, Wright State University

A Journey Towards Pluralism: From AA to Cultural Diversity and Beyond
This session is designed as a case study of an Affirmative Action/Multicultural Education program at a unique college, The National Technical Institute for the Deaf, a part of a career-oriented university, The Rochester Institute of Technology. This session will describe how these institutions responded to major challenges and barriers over six years in beginning to create more pluralistic environment and organization for more than 1000 faculty and staff. Intended goals and outcomes focus on three phases: Understanding and using lawful employment practices, developing a multicultural education program and the need for individual changes for a “learning organization”.
Morton Nace & Marilyn Enders, Rochester Institute of Technology

The “Super Information Highway” and the Changing Role of Faculty in Higher Education
As we enter the age of the “Super Information Highway” (a.k.a., “The Global Village” and “interactive computer technology”), institutions of higher education are being challenged to rethink traditional ways of doing business. This interactive session is designed to engage participants in thought and discussion related to the rapidly changing role of faculty in higher education. A simulation will be followed by a discussion of issues (e.g. faculty role identity, methods of evaluating learning) and implications (e.g. primary skills needed for faculty effectiveness).
Dominique M. Lepoutre, Rochester Institute of Technology

Practitioner to Professor: A Collaborative, Reflective Vision
Health Services are one of the fastest growing areas in our economy. Unlike many disciplines, health professionals train to practice not to teach. How can we help our best practitioners become our best faculty? This presentation traces the rational and collaborative process that led to a pilot program for helping practicing Physical Therapists become the Physical Therapy Assistant faculty at Endicott College. Discussion and feedback from this session will be used to refine and reshape the vision of practitioner to professor.
Donna M. Qualters, Joyce Peters & Kathleen Barnes, Endicott College

Keynote Address:
Faculty Work in the 21st Century: Time, Tools & Talent
William Plater, Executive Vice Chancellor and Dean of the Faculties, Indiana University Purdue University of Indianapolis

Break
**Friday Concurrent Sessions**

**Block C (10:00am - 11:30am)**

**Umatilla**

**ADA In The Classroom: A Future Chaos?**

This session is designed for general audience members interested in information on the ADA (Americans with Disabilities Act) and working with students who are deaf and hard of hearing through the use of a classroom interpreter. Present cases and possible future litigation will be discussed. A vision of “barrier free” communication will be brainstormed by participants. This topic is perfect for faculty involved in a “multi-interest” classroom.

*Keith Mousley, Kathleen Darrach Nyerges & Mary Victoria, Rochester Institute of Technology*

**Deschutes**

**Resisting the Resistance: How to Inspire the Uninspired**

The interactive session targets barriers to program planning. During the session we will analyze and discuss case studies focusing on faculty development in small groups. The group problem solving will generate positive solutions to sensitive issues and enable the exchange of information to produce an informal network and support system.

*Uma Y. Shama, Barbara J. Bautz & Terry Ann Vigil, Bridgewater State College*

**Nehalem**

**Out of the Closet and Into the Classroom: Lesbian and Gay Faculty and Faculty Development**

Designed to raise the consciousness of faculty developers and campus administrators alike, this session will be a forum for issues related to lesbian and gay faculty members. Presenters will invite participants to ask questions about the experiences of lesbian and gay faculty members, to share experiences and practices from their own lives and campuses, and to engage in discussion of current issues.

*William C. Rando, Hollywood, FL; Eric Kristensen, Berklee College of Music*

**Rogue**

**Working on Diversity through Case Studies**

By uncovering embedded issues and viewpoints, effective use of cases can encourage better discussion about teaching and enhance awareness of diverse perspectives. While demonstrating how to work a case, we will discuss a lively one which addresses cultural and interpersonal conflict. The session will be useful for all interested in diversity.

*Dwight Oberholtzer, Pacific Lutheran University; Rochelle dela Cruz, Seattle Central Community College*

**Klamath**

**Team Learning: A Potential Solution to the Problem of Large Classes**

This session will feature a simulation of a small-group based instructional process, Team Learning, that has consistently resulted in high performance, attendance, and student satisfaction in large classes (120+ students) in a wide variety of disciplines. Issues covered will include 1) establishing peer groups as a source of motivation for high performance and attendance; 2) adapting group assignments and activities for use in large classes; and 3) coping with the mechanics (e.g. materials, exams, classroom procedures, etc.).

*Larry Michaelsen & L. Dee Fink, University of Oklahoma*
The Impossible Dream? A Comprehensive, Fully-Integrated Teaching and Learning Center

Is it possible to have a fully-integrated teaching and learning center in the “best of all possible worlds”? What should be the goals and functions of such a center? What obstacles must be resolved? What can be done to overcome the barriers? On many campuses, educational enhancement programs are scattered and uncoordinated. In this session we will dream together to design the “ultimate” teaching and learning center.

*Joseph Burke, Ken Grosse, Jeff Johnston & Rolf Enger, USAF Academy*

Enhancing Thinking, Writing, and Publishing About Teaching

This is a hands-on workshop for faculty development professionals who are interested in turning their (and their colleagues’) teaching/learning experiences into publishable writing. The workshop will focus on sorting out what one has to say about teaching. It will consider questions of venue and audience: “Where should I publish what I have to say?” “What are these readers looking for?” “What will speak to them?” The presenters will share their insights as journal and newsletter editors and writers on the criteria and process of writing and publishing about teaching, as well as strategies for working with colleagues. Attendees are encouraged to bring any notes, proposals, drafts, or good ideas they have to work with during the session.

*Laurie Richlin, University of Pittsburgh; James Rhem, National Teaching & Learning Forum*

Learning Communities: Powerful Vehicles for Faculty & Organizational Development

Learning Communities (where courses are clustered around a common theme and often team-taught) are powerful vehicles for both faculty development and student involvement. In this introductory workshop on learning communities, participants will brainstorm interdisciplinary themes, compare several curricular models, and discuss opportunities and barriers to learning community implementation.

*Jean MacGregor & Kathe Taylor, Evergreen State College*

Brave New U

Conceived of as a school without walls, credits, grades, levels sections or any particular organizational structure, Brave New U is posed to lead the charge in radically rethinking higher education. You are part of Subcommittee F, charged with defining the role of faculty, qualities to be sought in candidates for faculty roles, and how faculty development should be approached. What will you decide?

*Daniel Wheeler & Joyce Povlacs-Lunde, University of Nebraska-Lincoln; Nancy Chism, Ohio State University*
Field-Testing of a Storage, Filing, & Retrieval System for a Library of Faculty Development, Instructional Development, and Organizational Development Materials

Centers often have small libraries with idiosyncratic filing systems, and it's difficult to locate articles and materials people want. Recognizing this problem, POD has funded a grant to develop a storage, filing, and retrieval system. In this session we will describe the project. The audience, primarily faculty developers, will work in small groups to field test the proposed content identifier system using a variety of articles and materials. The full group will then reconvene to analyze the field test and make recommendations for refining the system.

Ruth Federman Stein, Syracuse University; Glenn Erickson, University of Rhode Island; Robert Diamond, Syracuse University; Mary Deane Sorcinelli, University of Massachusetts-Amherst; Charles Spuches, SUNY College of Environmental Science and Forestry.

Faculty Consultations Forum II

Participants in a 1993 POD Conference session on faculty consultations expressed an interest in sharing cases and exploring alternative consultation approaches. During the three Faculty Consultations Fora (Thursday, Friday & Saturday) presenters will describe a diverse set of consultation interactions. Participants will have an opportunity to react to cases and compare alternative approaches to those actually taken by the presenters. These sessions should be of interest to both the experienced practitioner and the participant who is new to consulting with faculty.

Joan Middendorf, Indiana University; David Way, Cornell University; Gabriele Bauer, University of Washington; Keith Mousley & Larry K. Quinsland, Rochester Institute of Technology

11:45am - 12:25pm

Lunch & Business Meeting

Friday Concurrent Sessions

Block D (1:45pm - 3:15pm)

Challenges to the Vision: Changing Environments of Urban Institutions

Many urban-based campuses have experienced unique changes because of the evolution of their cities, the societal challenges facing higher education and public concern about the nature and quality of instruction. The goal for participants is to learn about the changes institutions make as they mature, and how these changes, when they occur within an urban environment, affect faculty development. Activities include lecturettes, brainstorming, small group idea exchange, plus a case study to design a faculty development program integrating an institution’s urban environment and its life cycle characteristics.

Debrah Jefferson & Susan L. Peverly, University of Illinois at Chicago
"When Pigs Fly: Metaphors That Can Liberate"
Participants will create a “Development Utopia” through the exploration of a series of metaphors, dreams, images, signs, and archetypes. By using drawing, scripting, gaming, and music, participants will generate a list of potential development ideas, including plans for their own continuing professional enhancement.
*De Gallow & Lori Ann Miller, University of California-Irvine*

Most Effective and Efficient Ways to Provide Written Client Feedback
Preparing a written report on classroom observations, summarizing students’ evaluations, or preparing a file letter for faculty clients can be a stressful, time consuming process for faculty developers. Does the time and effort to write the report involved provide faculty clients with necessary and useful information? How do we know that faculty clients take time to review and use these materials? What alternative approaches achieve effective developer to client responses? How can the use of written faculty reports be made more effective and efficient? Session participants will review and evaluate anonymous client written reports that demonstrate information typically included. Break-out groups will discuss responses, questions, and suggestions about written reports to help formulate written report guidelines for faculty developers.
*Erin Porter & Karen Lewis, University of Texas at Austin; Nancy Diamond, University of Illinois, Eric Kristensen, Berklee College of Music; Dina Wills, Lehigh College; Connie Tzenis, University of Minnesota; Gabriele Bauer, University of Washington*

Giving Feedback Effectively: From Principles to Practice
Giving feedback to teachers is an integral component of the instructional consultation process. Research on feedback suggests a number of principles that improve the efficacy of feedback in producing desired change in instructor skill and behavior. The purpose of this session is to assist new and experienced faculty developers learn and apply these principles.
*Kathleen T. Brinko, Appalachian State University*

You Don’t Have to Be Sick to Get Better: Improving and Celebrating Teaching at a Faculty Retreat
This workshop will involve faculty and staff developers in the proven techniques of a Teaching Celebration Retreat. Experienced (200+ seminar) facilitators will use a varied format to demonstrate and lead participants in faculty activities which provide new teaching techniques and solutions to instructional “challenges” through the ultimate faculty development activity — well facilitated “shop talk”. We will use handouts to guide the session and outline the retreat formats. Overheads and a video will be used to supplement our lecturettes. Participants will be involved in several retreat activities in both large and small groups. Those activities include sharing effective teaching techniques and challenges as well as discussing important books and other instructional resources.
*Helen Burnstad, Jonhson County Community College; Mike McHargue, Foothill College*
Peer Assessments: Using Classroom Observations to Enhance a Teaching Portfolio

Peer assessment in academia is becoming more widely accepted and more professionally conducted. Participants in this interactive workshop will explore, through cooperative learning strategies, the mutually related topics of teaching portfolios and peer classroom observations. Portfolio topics will include its use, contents, value and implementation. Workshop participants will then look at the power of peer classroom observations to engender collegial dialogues and to document and positively affect teaching effectiveness. Both faculty and administrators will enlarge their knowledge of “best practice” in both of these critically important areas. They will receive an extensive packet of materials.

Barbara J. Millis, University of Maryland, University College.

Conflict Management: The POD Staffer as Third Party Facilitator

If not managed well, conflict can interfere with effective functioning of a department. Participants will learn a process that enables them to manage conflict as a third-party facilitator. This skill can be used to resolve conflict in the POD office or when you serve as consultant to academic departments struggling with conflict between two faculty members. The process can also be taught to other individuals in a workshop format as a method for managing their conflict.

Anne F. Lucas, Fairleigh Dickinson University

Lecturing as Public Speaking

This session will offer techniques to administrative personnel who want to help faculty improve their lecturing skills. The session goals are to identify the problems caused by poor organization and fear of public speaking, offer specific techniques to deal with these problems, and finally, inspire participants to make use of these techniques.

Stephanie Waxman, Hebrew Union College

Self Motivation for Chronically Challenging Staff Development Situations (Invited session)

Faculty consultants describe feelings of doubt, frustration, anger, and sometimes apathy which result from constant challenges and infrequent validation of success. Using concepts from flow theory (Csikzentmihalyi) self regulation theory (McCombs), psychology of the mind (Mills), systems theory (Molnar and Lindquist), and the expertise of the assembled group, we will explore this dilemma to find pragmatic ways to deal with it and maintain our personal motivation and enthusiasm.

Raymond J. Wlodkowski, Boulder, CO

Creating Editing: A Workshop for Newsletter Editors

The editors of POD’s MUSE conduct this annual sharing workshop for new and experienced newsletter editors. Attend and learn (among other things) how to apply imaginative approaches to persistent problems, how to regain control when your operation runs amok, and how to survive as an editor without actually becoming sane.

Linc. Fisch, Lexington, KY; Laura L. B. Border, University of Colorado; Le Anne Rutherford, University of Minnesota; Ken Zahorski, St. Norbert College

Break
Deschutes

The Teaching Portfolio: From Impossible Dream to C-R-E-D-I-B-L-E S-C-R-I-P-T

This session for instructional developers and teaching faculty builds on the facilitators’ extensive experience introducing the teaching portfolio to both Canadian and American University and College teachers. Participants will engage in an exercise designed to collectively construct practical guidelines to help transform the promise of the portfolio to reality. The session leaders will present their sessions for successful teaching portfolio development.

*Alan Wright* - Dalhousie University; *Jim Eison*, University of South Florida

Clackamas

The Controversy of Student Participation: The Responsibility of Students Is to Learn; the Obligation of Faculty Is to Know their Subjects

Session participants will participate in a structured controversy (Johnson, Johnson, and Smith) that surfaces faculty and administrative perspectives on the debate about professional responsibility to “teach” students as opposed to “telling” students the knowledge they come to the university to acquire.

*Stewart Bellman*, Black Hills State University

Klamath

Safe but Sorry: Reexamining the Classroom “Safe for Learning”

Feminist research applied to teaching has reordered priorities, rescripted the players and refashioned the learning environment. As traditional teachers have become facilitators and “nurturers” working to be inclusive, supportive and egalitarian, boundaries have become blurred or dislocated, academic conflicts suppressed, and standards difficult to define. The new-found strengths of the safe classroom threaten to become its undermining weaknesses. In this session, together we will consider two cases highlighting this complex problem. Then, in small groups, we will share our own examples and alternatives for making the “safe” classrooms more open and honest.

*Jacqueline A. Mintz*, University of California at Berkeley

Nehalem

Teaching the Whole Student: Affective and Psychomotor Domains

Exemplary teaching involves not only cognitive elements but also affective and psychomotor elements. This workshop will discuss ways faculty can include affective and psychomotor strategies into their teaching practices while promoting critical thinking, creativity, divergent thinking and problem solving skills. These strategies encourage students to examine the rationality, logic and reasoning behind their currently held attitudes and behaviors. Strategies will include concepts which can be incorporated into lectures, classroom activities, papers, projects, field experiences and cooperative learning assignments.

*Rita C. Rodabaugh*, Ocean County College
Faculty Mid-Career Development and Retirement Pattern: What is the Message?
In this session, some findings of the original research conducted by the presenter on faculty retirement patterns at a large, doctoral-granting, public university will be shared. Studies by others on related issues, such as the changing academe, senior faculty development and scholarly vitality, will also be discussed. It is hoped that through interactive discussions among faculty members, faculty developers, and administrators, various suggestions can be obtained about the appropriate programs to be offered to the faculty concerned.

Li Tang, Ohio State University

The Sounds of Technological Change
This session provides an opportunity for conference participants to interact with the musicians who will be providing entertainment later this evening. Technological innovations in the past two decades currently make it possible for three musicians to produce the sound of a much larger band. Presenters will demonstrate and discuss the instruments and techniques that will be experienced later in the evening.

Gene Houck & Jean Pierre, Portland, OR

Systems Approach: Training Faculty to Teach via Two-way Interactive Television
Participants (faculty or development directors) will have a systematic guide to training faculty to use an interactive television system. The systemic model will address communications, interpersonal communication, instructional design, and psychology concepts incorporated in ITV usage. A ready-to-use set of procedures and content is included, with emphasis on interdisciplinary applications and disciplines.

Karen Jarrett Thoms, St. Cloud State University

The Crux of Leadership in Faculty Development
Credibility, which encompasses how leaders earn the trust and confidence of their constituents, underlies effective leadership. Drawing upon the work of Kouzes and Posner (1993), this session examines ways in which faculty developers can exhibit credibility. Participants will engage in several interactive activities to explore the meaning and implications of this critical variable.

Joan Pritchard & Patty Phelps, University of Central Arkansas

Preparing the Faculty of the Future: Dream or Reality?
Faculty and TA development programs at doctoral-granting institutions are uniquely positioned to join a national movement to prepare the future professoriate for effective teaching and success in carrying out the faculty role. Participants will explore dreams of such programs and compare their dreams to future professoriate programs already in existence.

Jan Smith, University of Minnesota

Critical Incidents: A Video Resource for Teaching Improvement
This session will be of interest to professional developers and consultants. Participants will view and discuss several videotaped teaching incidents and will become familiar with ways to use these ten vignettes and a discussion guide to promote teaching improvement.

Andy Farquharson, University of Victoria
McKenzie

Academic Administrators: The Missing Link in the Focus on Teaching
Session goal is to share and generate ideas about how to help academic administrators focus more on teaching. The session will utilize a) a case study of one Academic Dean's realization that unconsciously she had abandoned her commitment to teaching, and b) an inventory for academic administrators to use to gauge their own commitments to teaching. General audience.

Walking Lightly...A Portrait of Einstein
A theatre piece that gives attention to Einstein the ordinary man: The dutiful son, the sailor who loved to be out in rough weather, and the good-humored fellow who enjoyed the company of children and a good cigar. And the tireless worker for non-violence, peace and education.
Len Barron, Boulder, CO

9:45pm - 1:00am
Williamet/Deschutes/Umatilla
Music/Entertainment: Gene Houck & Jean-Pierre
Music has been an integral part of the POD Conference experience. In years past our tastes have ranged from our own ...to Zydeco. This year we have planned some diversity by incorporating some of the new technology (synthesizer/MIDI) with some of the familiar (acoustic - tomorrow)

Gene Houck and Jean-Pierre, both now living in Portland, will share some of the current technology of music-making with us both in a "pre-gig" concurrent session on Friday afternoon (see Block E) and tonight's session.

Gene's unique voice has led him into a career as a successful session singer. He has many commercials to his credit including Quantas, NIKE, Budweiser, Milk and Dole Fruit 'n Juice bars. In addition, he has appeared on "Star Search" and won the Yamaha Soundcheck "Outstanding Vocalist" ward. Jean-Pierre is active as a studio session player and arranger. He will demonstrate the technology of MIDI (musical instrument digital interface) sequencing. Using their extensive song list and versatility of sound they (and their colleague on the sax) will demonstrate how only three musicians can make the music of many.

Teaching and Learning in the Diverse Classroom:
A Professional Development Model for Faculty
and Teaching Assistants

Faculty and teaching assistants face new instructional challenges in undergraduate
classrooms that contain an increasingly more vocal and visibly more diverse
student population. How can faculty developers help equip the current and
emerging professorate to make classrooms inclusive and effective learning
environments for all students? In this session, designers of a multi-phased
diversity program for faculty and teaching assistants will share strategies used and
lessons learned from the implementation of their program.

Tapping the Career Development Needs of
Faculty Through Focus Group Interviews

Organizational structure in higher education institutions frequently insulates
faculty developers and other administrators from accurately reading faculty career
needs. Written survey may provide baseline data, but accurate assessment of
development needs may more effectively be gained through face-to-face contacts
with faculty. This session is devoted to sharing the successes and disappointments
of a faculty development staff in conducting focus group interviews.

Ed Simpson & Carole W. Minor, Northern Illinois University

Professional Development: Realigning the
Power and Defining the Barriers

The goal of the session is to explore the multitude of models used to structure
professional development and to define the power realignment when funding and
leadership for such activities are moved to the grass-roots level from a central
office. The development of an exemplary program of shared leadership between
our respective centers and our college-wide program will be described. Highlights
for discussion include how to resolve ownership, how to reduce competition and
promote collaboration, how to budget headcount resources for programming, how
to elect the center coordinators for professional development and their respective
advisory committees, and how to compensate and appraise the grass-roots leader-
Building the Staff Development Program at Mino College - "Money is No Object"

Well, they said "Dream!" Recently, some of us brainstormed the “Ultimate Staff Development Program” — what we’d do if we had no budgetary constraints. Come see what we came up with and prepare to work on one for your institution. It’s a useful exercise and you’ll be pleased to learn that some of the best ideas aren’t expensive!

Mike McHargue, Foothill College

What Keeps White Faculty from Teaching Multiculturally? Faculty Becoming Self-Directed and Lifelong Learners

Multiple environmental factors are urging faculty to teach from a multicultural perspective. Euro-American faculty often find it difficult to translate concept into action. Results of a research project undertaken with faculty participating in a multicultural teaching workshop will initiate a discussion of faculty experiences as teachers and learners in a multicultural context. Strategies to assist white faculty in directing their own learning will be discussed.

Jeanine L. Elliott & Michelle Gilliard, Great Lakes Colleges Association

A Reformed Education Program Shifts Focus from Contempt to Processes: Visions for Future Nursing Graduates

Preparing nursing graduates to function in tomorrow’s health care system requires a changed relationship to information on the part of faculty, student, and health care consumer. A reformed nursing education shifts from one of content to processes such as critical thinking. Presenters will use critical incidents experienced by students while caring for acutely ill hospitalized patients to enhance critical thinking techniques. Participants will examine shifts from content to processes focused education in general and implications for other disciplines in particular.

Kay Thornhill & Melissa Wafer, Southeastern Louisiana University-Baton Rouge

Small Instructional Development Grants: Are they Effective?

In this session we will share with participants the process, including the survey instrument, used to evaluate the effectiveness of a small faculty/instructional development grant program. Participants will have an opportunity to generate benefits to such a program as well as to create adaptations for use on their own campuses. The authors perceive that faculty and administrators who are considering a similar evaluation for a small grants program may be interested in attending.

Carl E. Nordahl, Marilyn M. Leach, Susan Pedersen & Henry D’Souza, University of Nebraska-Omaha

An Exploration of the Teacher-Student Relationship: Toward the Development of Programs for Relationship Enhancement

This workshop is open to anyone who likes to think deeply about the dynamics of relationship in teaching. Why is the teacher/student relationship so important? What are the influencing factors? How do you measure qualities such as caring? Most importantly, as faculty developers how can we help enhance this powerful
Generating Faculty Buy In: Generic Principles for Successful Faculty Development

Successful faculty development efforts are contingent on many factors. Support from faculty is a critical prerequisite for any faculty development initiative. Common barriers that detract from faculty supporting professional development will be identified. General guidelines (i.e., principles) will then be suggested that overcome the common barriers identified.

Richard G. Tiberius & H. David Sackin, University of Toronto

Dreams, Barriers & Best Practice in Professional & Organizational Development

Using the format of a McNeil/Lehrer NewsHour, Joan North will moderate an unrehearsed dialogue between Marty Nemko and Peter Seldin on the conference theme. The dialogue will be followed by an open discussion.

Joan DeGuire North, University of Wisconsin-Stevens Point, Marty Nemko, Oakland, CA, & Peter Seldin, Pace University

Improving Teaching Effectiveness and The Tenure & Promotion System

Major changes are underway in the Tenure & Promotion Process as attempts are made to relate the faculty reward system to the priorities of the institution. This session will describe some of these changes and focus on ways faculty developer, chairs, and faculty mentors, 1. can assist faculty in preparing for review; and, 2. can help improve the fairness of the process at their institutions. A process for documenting faculty work will be introduced and utilized. For faculty instructional developers and administration and faculty who are involved in the tenure and promotion process on their campuses.

Robert M. Diamond & Bronwyn Adam, Syracuse University

Getting Medical School Faculty to Participate in Teaching Improvement Activities: An Experiential Learning Approach Using Qualitative Methods

In this session we will model an experiential learning approach that demonstrates how qualitative research methods (open ended interviews, focus groups, observation) can be used to encourage medical school faculty to participate in teaching improvement activities, to reflect on current teaching practices, and to support each other in effecting specific changes with the context of their teaching.

Arlene Edmonds & Isabella Knox, University of Connecticut School of Medicine
Holistic Envisioning of Faculty Development
In this Vision Quest, we’ll use Kolb’s learning styles to visualize faculty development programs. We’ll engage in group ritual to dream the faculty development dream from each of the four learning styles, then celebrate each vision with the great circle known as the Experiential Learning Cycle. Participants will leave with a holistic vision of faculty development.

Leslie Hickcox, Marylhurst College; Shirley Ronkowski, University of California-Santa Barbara

Faculty Development Program Assessment by Visiting Committee: An Experiment
How do we evaluate our faculty development programs? What is our responsibility as a profession for assessing them? The presenters will describe using a visiting team approach to assess the effectiveness of a faculty development program and comment on issues raised by this model. Participants will have ample opportunity to discuss these issues and consider the applicability of this model to their home campuses. We will also consider the role POD might take in encouraging assessment of programs.

Eric Kristensen, Berklee College of Music; Bob Menges, Northwestern University
Marilla Svinicki, University of Texas at Austin

Addressing Active Learning Concerns Through Active Learning Techniques: Practicing What We Preach
This session engages participants (faculty developers who conduct workshops) in teaching strategies in an active learning exercise involving case study, role playing, and cooperative learning (a modified jigsaw method). The goal is to experience a model which can assist faculty in identifying potential barriers to using active learning (or other strategies) in their classrooms and problem solving ways to mitigate these concerns.

Bill Burke, University of Hawaii at Manoa

A Systems Approach to Implementing Teaching Initiatives Portfolios at Lakeview College
This session will engage participants in a lively, hands-on simulation exercise designed 1) to stimulate recognition of structural and political barriers that can impede implementation of new campus teaching improvement initiatives such as the teaching portfolio, 2) to suggest strategies for successful implementation, and 3) to promote reflective practice through a case discussion and role playing. All participants interested in processes of success for implementation and improving their own effectiveness should gain insights of value.

Lesley K. Cafarelli, St. Paul, Minnesota; Marie McNeff, Augsburg College

The Reflective Practicum: A Model for On-going Professional Development
“Learning from Experience” is often the only route professors and professional developers have to develop our skills. But exactly what and how do we learn, and how do we learn to act more effectively? Through analyzing a difficult instructional development case study using Argyris and Schon’s concepts of theories-of-action and reflection-in-action, this session will model using reflection and improve practice as a development strategy.

Ronald Smith, Concordia University

Alliances for Change: A procedure for Improving Teaching through Conversations with Learners and Partnerships with Colleagues.
This workshop is for anyone interested in learning how to conduct the Alliance for Change procedure. This procedure is aimed at improving teaching and learning by promoting constructive dialogue between teachers and their students and between teachers. It is carried out, not by professional consultants, but by pairs of colleagues voluntarily helping out one another.

Richard G. Tiberius, University of Toronto; Mary Preece, Centennial College

McKenzie

Thoughtfulness and Fun
The workshop will draw from the thought and manner of Einstein and give attention to those qualities that are elemental in the education process: Being fair, doing things beautifully, and playfulness.

Len Barron, Boulder, Colorado

Willamette

Faculty Consultations Forum III
Participants in a 1993 POD Conference session on faculty consultations expressed an interest in sharing cases and exploring alternative consultation approaches. During the three Faculty Consultations Fora (Thursday, Friday & Saturday) presenters will describe a diverse set of consultation interactions. Participants will have an opportunity to react to cases and compare alternative approaches to those actually taken by the presenters. These sessions should be of interest to both the experienced practitioner and the participant who is new to consulting with faculty.

Barbara Hofer, University of Michigan; Lynn Sorenson, Brigham Young University; Gabriele Bauer, University of Washington; Keith Mousley & Larry K. Quinsland, Rochester Institute of Technology

12:00pm - 1:00pm

The bus will leave at 1:30pm sharp!

Educational Expedition: Walking Tour of Down town Portland & Powell's City of Books
The bus will leave at 1:30pm sharp!
Creating A "Diversity Friendly" Classroom

Imagine a classroom in which all gender and cultural learning differences are respected and accommodated. This workshop is for faculty and faculty developers who would like to explore teaching and feedback methods that work well to help each student reach his or her highest potential in learning. Practical models will be presented as part of a program in which the discovery of new methods, ideas and models will be explored.

Elisa Carbone, University of Maryland, University College

Discipline-specific Pedagogical Inquiry: An Exemplary Technique for Investigating and Developing Faculty’s Practical Knowledge of Teaching

Based on Shulman’s conceptions of pedagogical content knowledge, this session, intended for faculty developers, introduces an exemplary method of inquiry that focuses on faculty’s understandings about teaching their academic disciplines. We will outline this method of inquiry, examine materials from faculty interviews in which this method was used, and discuss the implications for faculty development activities.

Lisa Firing Lenze, Northwestern University

Teaching and Technology: Charting the Connection

Many faculty development offices have organized programs on training on teaching and technology. Because of the rapid and constant change in technologies, however, many of us have had to play a continual game of catch-up in order to stay current. This session is an opportunity to step back and assess the role of faculty development in shaping the future of teaching and technology.

Michele Marincovich, Jack Prostko, Heather Gordon & David Halliburton, Stanford University

But What Do I Do with This Stuff? How Qualitative Researchers Work with Data

In this workshop, we will explore different approaches to analyzing qualitative data using actual works in progress. This session is designed for people who already are committed to qualitative research. We are not going to discuss why to do it, but how. We also hope to link people willing to share work-in-progress after the conference.

Mary Pat Mann, Ohio University College of Osteopathic Medicine; Bill Rando, Communication Counseling Associates

Realities of Distance Teleteaching: Preparing for Tomorrow

This seminar will introduce generic skills for teaching at a distance through voice, video, and data. Emphasis will be placed on television teaching, both live and videotaped. Topics to be covered include: * Modifying (reconfiguring) courses for distance delivery; * Constructing a tele-lesson plan; * Thinking visually for a visual medium with work pictures; * Maximizing student interaction at field sites; and * Improving student note-taking skills with interactive study guides.

Thomas E. Cyrs & Frank A. Smith, New Mexico State University
New Faculty: Support Strategies to Help Them Thrive

Many teaching institutions throughout the country are hiring new faculty for the first time in decades. Faculty developers are faced, therefore, with a new problem: How do we involve new faculty in the culture of our institutions? We need to give them support strategies in all areas, ranging from essential information on how to get their syllabi duplicated to how to plan for tenure. In this workshop presenters will share ideas from programs they have administered. We will begin with how to get administrative support and get new (and experienced) faculty to attend? And conclude with what content should be included and how should it be delivered?

Myna Smith, Raritan Valley Community College; Enid Friedman, Essex County College

Evaluating Teaching Portfolios: “It’s Not Just for Formative Anymore”

This session will be a forum for structured exploration of possible ways to use teaching portfolios for summative evaluation. Participants will work in small groups to complete a summative evaluation exercise, using a summative evaluation instrument prototype. Session goals: 1) to identify participants’ “levels of comfort” with using teaching portfolios for summative evaluation on their campuses, and 2) to practice summative evaluation of portfolio materials. Intended outcomes: 1) participants will recall current issues, beliefs and practices regarding using teaching portfolios for summative evaluation, and 2) participants will be able to identify key issues which could impact summative use of teaching portfolios on their campuses.

Brenda Manning & Laurie Richlin, University of Pittsburgh

Educational Expedition: Powell’s City of Books

The bus will depart at 3:15pm sharp!

Ad hoc meetings

Saturday Poster Sessions, Resource Fair & Social (6:15pm - 7:45pm)

Appraisal of Instructional Strategies Using Student Focus Groups

This workshop for experienced faculty developers will demonstrate the use of a focused interview with students to informally appraise a course. After viewing a videotape of a student focus group, the participants will discuss giving feedback to the instructor and will analyze the interviewers’ questions.

Beverley T. Amick, Madelyn Healy & Richard J. Nichols, Kean College of New Jersey
Design an Interdisciplinary Diversity Course for an Undiverse College Population

For a university with a homogeneous student population, a faculty team designed an interdisciplinary course to study race, class, gender, sexism, ethnicity, disabilities, and sexual orientation, in a framework of interpersonal communication, in a format that encouraged critical thinking. This session includes exercises and video used, syllabus, readings list. If a course like this one is a tough sell at your institution, come hear how we did it!

*Dina Wills, Lehigh University*

Practice What You Preach: The evolution of the Gannon University Freshman Focus Program

If you have experienced an institutional barrier and are not sure how to overcome it, this session is for you. You will experience creative problem solving techniques and apply them to your own barrier. Sharing the results with others will help anticipate pitfalls, improve ideas through piggybacking and solidify a plan or process for use on your own campus.

*Bill Doan, Marie Bargielski, Sr. Ann Stephanie Stano & Marianne Bock, Gannon University*

The Interconnectedness of Knowledge: Promoting Leadership in Female Undergraduates Through Internship Opportunities

Much research has been done indicating the importance of providing strong mentoring programs for women striving to become successful in the professional world. Until recently, academic mentoring has been primarily associated with graduate programs. This information-sharing presentation will introduce administrators, faculty, professional faculty developers, and consultants to an undergraduate model internship program. Included will be a brief description of two qualitative research projects developed from the experience, relating to possible gender-bias in newspaper articles about faculty as well as a literature search focusing on possible gender-bias in teacher evaluations. Attendees will become aware of exemplary and innovative techniques in mentoring which provide rewards for all persons involved.

*Marilyn M. Leach & Catherine Farnsworth, University of Nebraska-Omaha*

Faculty can Finally Say, “Assessment” without Gagging

How can faculty developers help faculty overcome mistrust of and resistance to assessment of student learning? This workshop offers one solution and then helps participants work on their own, based on their campuses unique needs and problems. Key elements emphasized will be interdisciplinary approaches, humor and irreverence.

*Cathy Cowan, Jean Replinger & Kenneth Connell, Southwest State University*

Dreams Into Nightmares: Video Samples of Social Interaction or Sexual Harassment

Fears of sexual harassment and fears of accusation of harassment now permeate academe. Education through discussion can help overcome these barriers to academic interaction. New videos done on a college campus for a faculty workshop will be used to stimulate our discussion about these issues.

*Ronald Palosaari, Marie McNeill & Julie Bolton, Augsburg College*

**Visual Quality Objectives: Needs Assessment for Organizational Development**

Starting a Vision Quest? Begin with a needs assessment! Participants who are designing a dream, knocking down barriers, or living a dream will complete hands-on exercises for designing and implementing, a needs assessment for their organization.

*Del Bachert, Appalachian State University*

**Willamette**

**Three Balls on a Staircase: Teaming Undergraduate Tutoring, Graduate TA Training and Instructional Development**

The vision of an integrated model of faculty development composed of undergraduate tutoring, graduate TA training and instructional development will be sketched. Many campuses have these three programs, but the interconnectedness of mission and activities is obscured by multiple barriers. Breaking through these barriers impacts quality teaching on a campus. Presenters will paint a clear picture of their vision and assist faculty in exploring ways to eliminate obstacles on their campuses. Windows to our vision will be opened as participants experience strategies used in our programs. Additional ways of teaming faculty, TAs, and undergraduates will be generated.

*Linda Hilsen & Le Ane Rutherford, University of Minnesota-Duluth*

**Willamette**

**Evaluating Visuals for Instruction**

Text readability has developed from a crude means to classify subjective judgment on text characteristics to a more theoretical position which compares these attributes with learner characteristics. Visual readability may be following a similar evolutionary path as text readability if we consider the linguistic quality of visual elements. With the aid of such a visual readability instrument instructional developers would be able to measure the success of an illustration as defined by the viewer's perception of the illustration's objective or caption.

*Chris Lantz, Western Illinois University*

On the Pleasure of Growing Older

A theatre piece about the great inevitability in life. Growing older is not all "peaches and cream." It is, however, rich. This work is an expression of that richness presented through stories, songs and dance.

Len Barron, Boulder, CO

Music/Entertainment: Moe Dixon

In a summer issue of SKI magazine, speaking about a recent concert, Moe Dixon stated, "I can't believe 500 people still go wild about a folksinger." A former racer and coach who grew up skiing at Mount Snow, VT, Dixon has made a living playing rock, "high energy" folk and R&B with people like Pete Seeger and putting out albums like his most recent one, Hurricane on the Swift River label.

After hearing him play last winter in Colorado at Copper Mountain, I introduced myself (LKQ) and told him I knew a group of people collectively named POD he just had to meet and would he consider sharing his talents with us at our conference in Portland? Without hesitation he said, "Fine." I said, "That's Portland...as in Oregon." He said, "No problem...it's just down the river." Ironically, he lives across from Hood River and spends some of his summer, between concerts, sailboarding on the Columbia Gorge. Moe will help us celebrate our dreams and good conferencing on this, our last night together in a way that is guaranteed to be memorable.
