The author regrets that in the above published paper the following error occurred:

In our recently published paper, “Distribution and environmental limitations of an amphibian pathogen in the Rocky Mountains, USA”, we erroneously included the paper by J. Bosch et al. (2006), “Climate change and outbreaks of amphibian chytridiomycosis in a montane area of Central Spain: is there a link?” in a list of studies from the tropics. Clearly Dr. Bosch and colleagues worked in the temperate zone at a latitude very similar to that in our study suggesting that further investigation of additional similarities between the two sites might be useful.
