Howdy POD Registrants,

Well, the POD Conference is just around the corner and I want to make sure I have all of your registration and travel information correct. I don't want to leave anyone stranded at the airport in San Antonio!

Please check the attached computer print-out of your registration and travel data and let me know immediately if any corrections need to be made. Remember, if you want to ride one of the buses between San Antonio and Kerrville, I need to know when you will be arriving/departing and which bus(es) you wish to ride. (And, if you have not paid your transportation fee please send me $7.00.)

I have enclosed a layout of the San Antonio Airport for your information. Those of you who plan to ride the bus to Kerrville, please meet **us in terminal 2** by the baggage claim area (the place marked on your map with a large star).

*You must pre-pay and let me know which bus(es) you plan to ride!*  
(If I don't get this information, you are on your own!!)  
(on or before Oct 7)

It looks like we are going to have a great group attending the conference, some exciting sessions, and some equally exciting recreation opportunities.

Looking forward to seeing ya'll in October!

Sincerely,

Karron G. Lewis, Ph.D.

PRE-CONFERENCE WORKSHOPS

Thursday, October 14, 1987 (9:00 a.m. - 4:00 p.m.)

"The Inn of the Hills", Kerrville, Texas

This year, we are pleased to sponsor three pre-conference workshops: "Innovations in Team-Building", "Personalizing the Learning Climate" and "Federal Funding for Faculty Development". All three workshops look great and promise to provide a lot of practical ideas, sharing, skill development, and fun to boot! These pre-conference sessions will run simultaneously beginning at 9:00 a.m. and concluding by 4:00 p.m. on Thursday. (That will give you some time to mingle and do a little networking prior to the opening conference events.) The registration fee is $20.00 for one workshop.

**Innovations in Team-Building**, a carefully structured session, will include discussion, role-play, and information sharing in addition to presentations by both of the facilitators. A key part of the workshop will be a slide presentation which highlights innovations from the eighties on team building strategies that really work in settings from the single campus setting to the multi-campus urban setting.

*Workshop Leaders: Pamela Buckley and Jackie Stone, Houston, TX*

**Personalizing the Learning Climate** will present a personalized approach to the creating and management of a positive climate for learning on any educational campus. Participants will be introduced to four "sub-systems": Environment for Learning; Nonpunitive Philosophy of Learning; Calendars for Learning; and Provision for Recognition of Self-Concept. The clinical techniques and instruments employed will be designed for you to carry back and use on your own campus. Emphasis will be placed on the importance of certain psychological traits to teaching and learning and to management and leadership styles. --- The objectives of the workshop are three-fold: 1) To improve participants' abilities to personalize the learning climate; 2) To enhance participants' skills and techniques in managing the teaching-learning process; 3) To increase participants' self-understanding in their roles as educators. Participants will complete a short version of the Myers-Briggs Type Indicator Instrument. Then, an in-depth analysis of your Jungian psychological traits (i.e., personality) will be provided.

*Workshop Leader: Dayton Y. Roberts, Texas Tech University*

**Federal Funding for Faculty Development** has a two-fold purpose: to provide POD members with information that will (1) help them write more competitive grant proposals and (2) make them more effective resource people for the faculty and administrators with whom they interact. Workshop participants will be given (1) an overview of federal funding opportunities for faculty development (What are the programs? What kinds of projects do they tend to fund? What are the award ratios?), (2) the steps to competitive grant proposal writing (from preliminary contacts with program officers to resubmission of unsuccessful proposals), (3) ways to recognize the incentives and disincentives in place at one's institution relative to sponsored programs, and (4) an overview of the services one's sponsored research office can (should) provide (computerized searches, a faculty profile data base, newsletters, a grant writing manual, budget preparation, duplicating and mailing of proposals, etc.). Then participants will have an opportunity to critique some unsuccessful proposals and, time permitting, the workshop leader will be available for individual consultation.

*Workshop Leader: Virginia Thorndike Hules, Office of Government Resources, Tufts University*
