Undergraduate Preparation - William B. Jackson	121
Approaches to Research - Mel Dyer	124
Some General Remarks Regarding Bird Control - Walter Howard	126
Additional Comments - Mel Dyer	137

Note to the reader:

These proceedings were taken "verbatim" on stenotype machine by the Hammock, Pace, and LaMotte Company of Columbus, Ohio. Several of the speakers did not use prepared texts, and one session made extensive use of slides. Therefore, many parts of the proceedings make somewhat unusual or seemingly disjointed reading. This is caused by the fact that we are unable to incorporate inflections of voice, mood, tone, visual aids, or pauses in the printed page. For the same reasons sentences in some parts may seem long and poorly punctuated. Speaking and writing for public consumption are both arts; but obviously we frequently use two separate and distinct styles of communication. Some of the best speeches do not appear orderly on paper, because most of the color is lost.

We have used editorial privileges of altering actual presentations in order to import intended meanings. Our apologies to the excellent speakers. In some cases long rambling sentences have been broken or punctuation has been inserted. No attempt was made to correct grammatical errors, and the reader often will find that pronouns do not refer to the antecedent noun. Several speakers asked and were granted the opportunity to revise or edit the original transcript. If the reader wants to get the jokes and aside comments, he should make reservation for the 1966 Seminar.

Mrs. Marilyn Hall
Secretary to the Seminar

John ft. Beck and
William B. Jackson, editors

BIRD CONTROL CONFERENCE
BOWLING GREEN STATE UNIVERSITY
BOWLING GREEN, OHIO

9-10 September 1964
