This Article is brought to you for free and open access by the Animal Science Department at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Nebraska Beef Cattle Reports by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.
Table of Contents

Cow/Calf
Comparison of Two Development Systems for March-born Replacement Beef Heifers ..................................................3
Effects of Supplemental Protein During Gestation and Grazing Sub-irrigated Meadow During the Postpartum Interval on Pregnancy Rates of Spring Calving Cows and Calf Growth ........7
The Effects of Temperature and Temperature-Humidity Index on Pregnancy Rate in Beef Cows .........................................10
Effects of Dried Distillers Grains Supplementation Frequency on Heifer Growth .............................................................13
Reproductive Response in Heifers Fed Soybeans During Post Weaning Development .............................................................15

Grazing
The Effects of Dried Distillers Grains on Heifers Consuming Low or High Quality Forage .....................................................18
Tree Growth and Cattle Weight Gain in a Ponderosa Pine System ...21
Determination of Undegradable Intake Protein Digestibility in Forages ........................................................................25

Finishing
Effects of Corn Moisture and Degradable Intake Protein Concentration on Finishing Cattle Performance ............................28
Effects of Corn Moisture and Length of Ensiling on Dry Matter Digestibility and Rumen Degradable Protein .........................31
Influence of Corn Kernel Traits on Digestibility and Ruminal Fermentation ........................................................................34
Effect of Different Corn Processing Methods and Roughage Levels in Feedlot Diets Containing Wet Corn Gluten Feed ....37
Effect of Corn Bran and Corn Steep Inclusion in Finishing Diets on Diet Digestibility and Fiber Disappearance ....................39
Degradable Intake Protein in Finishing Diets Containing Dried Distillers Grains .................................................................42
Effect of Feeding a By-product Combination Consisting of Wet Distillers Grains and Wet Corn Gluten Feed to Feedlot Cattle ...45

Ethanol Distiller By-product Phosphorus Concentration as Influenced by Corn Hybrid ....................................................47
Effects of Field Peas in Beef Finishing Diets ........................................49
Effects of Dietary Phosphorus Level in Beef Finishing Diets on Phosphorus Excretion Characteristics ............................51
Effects of Corn Bran and Corn Steep Inclusion in Finishing Diets on Cattle Performance and Nitrogen Mass Balance ..............54
Composting of Feedlot Manure: Compost Characteristics, Crop Yields and Application Rates ............................................57
Vaccination for Escherichia coli O157:H7 in Market Ready Feedlot Cattle .............................................................................61
Direct-fed Microbial Products for Escherichia coli O157:H7 in Market Ready Feedlot Cattle .........................................................64
Performance and Economics of Sorting Yearling Steers by Feedlot Initial Body Weight .........................................................66
Performance and Economics of Yearlings Developed with Intensive Winter Management, and Partial Season Grazing .........68
Effect of High Roughage and High Energy Diets on Body Temperature .............................................................................73
Effect of Clinoptilolite Zeolite on Cattle Performance and Nitrogen Volatilization Loss ..........................................................76
Evaluation of Initial Implants for Finishing Steers ..............................................................................................................78

Beef Products
Effect of Injecting Modified Connective Tissue Solutions on Quality of Beef Roasts ..............................................................82
Packaging Effects on Shelf-Life and Sensory Traits of Enhanced Beef .................................................................................85
Benchmarking the Differences Between Cow and Beef Muscles .........................................................................................88
Pre-rigor Water Injection and Post-rigor Sodium Citrate Treatment on Beef Tenderness .........................................................91
Evaluation and Composition of Beef Semitendinosus Utilizing a Novel Cooking System .........................................................93
The Effects of Phosphate Type and Potassium Lactate Level on Quality Characteristics of Enhanced Beef Steaks ...............96
ACKNOWLEDGMENTS

Appreciation is expressed to the following firms, associations, or agencies who provided grant support for research in the beef cattle program.

Abengoa Bioenergy Corp., York, Nebraska  
Bioniche Life Sciences, Belleville, Ontario  
Cargill Corn Milling, Blair, Nebraska  
Elanco Animal Health, Indianapolis, Indiana  
Fort Dodge Animal Health, Overland Park, Kansas  
Intervet, Millsboro, Delaware  
Nebraska Corn Board, Lincoln, Nebraska  
Beef Council, Kearney, Nebraska  
Nutrition Physiology Corp., Amarillo, Texas  
J.C. Robinson Seed Co., Waterloo, Nebraska  
Soypro Royalty Funds, University of Nebraska, Lincoln, Nebraska

Appreciation is also expressed to the following firms who provided products or services.

Abengoa Bioenergy Corp., York, Nebraska  
American Simmental Association, Bozeman, Montana  
BK Giulini, Simi Valley, California  
Cargill Corn Milling, Blair, Nebraska  
Chief Ethanol Fuels, Hastings, Nebraska  
Dakota Commodities, Scotland, South Dakota  
Elanco Animal Health, Indianapolis, Indiana  
Enzyme Valley Research, South Bend, Indiana  
Fort Dodge Animal Health, Overland Park, Kansas  
Hi Gain Inc., Cozad, Nebraska  
Intervet, Millsboro, Delaware  
Iowa Limestone, Des Moines, Iowa  
Lignotech, Rothschild, Wisconsin  
Liquid Feed Commodities, Fremont, Nebraska  
Mead Cattle Co., Mead, Nebraska  
Phoenix Scientific, St. Joseph, Missouri  
Rex Ranch, Whitman, Nebraska  
Schering Plough Animal Health, Kenilworth, New Jersey  
Sigma Fine Chemicals, St. Louis, Missouri  
Smithfield Beef Enterprise, Packerland Packing Co., Green Bay, Wisconsin  
Trumark Inc., Linden, New Jersey  
Tyson IBP Inc., Dakota City, Nebraska/Council Bluffs, Iowa  
USDA Meat Grading and Certification Branch, Omaha, Nebraska

Appreciation is also expressed to the following Research Technicians, Unit Managers, and Crew involved in the Research Programs at our various locations.

Agricultural Research and Development Center, Ithaca  
Justin Beam  Allison Miller  
Jeff Bergman  Karl Moline  
Andrew Cizek  Tom Dreiling  
Logan Dana  Ken Rezac  
Scott Gotschall  Matt Sillivan  
Matt Greenquist  Doug Watson  

Animal Science Department, Lincoln  
Jeff Folmer  Clyde Naber  
Jeryl Hauptman  Robert Peterson  
Janet Hyde  Calvin Schrock  
Tommi Jones  Candice Toombs  
Matt Luebbe  Kyle Vander Pol  
Jim MacDonald  Casey Wilson

Gudmundsen Sandhills Laboratory, Whitman  
Andy Applegarth  Ryan Sexson  
Jackie Musgrave  Troy Smith  
John Nollette

Panhandle Research and Extension Center, Scottsbluff  
Nabor Guzman  Paul McMillen

West Central Research and Extension Center, North Platte  
Rex Davis  Jim Teichert  
T. L. Meyer

Dalbey-Halleck Farm  
Mark Dragastin

Northeast Research and Extension Center, Norfolk  
Sheryl Colgan  Kevin Heithold  
Bob Frerichs  Lee Johnson
