Twelfth Great Plains Wildlife Damage Control Workshop Proceedings

April 10-13, 1995
Tulsa, Oklahoma

Great Plains Agricultural Council
Publication 153

Masters, Ronald E., and J. Grant Huggins, Editors, 1996. Twelfth Great Plains Wildlife Damage Control Workshop Proceedings. Tulsa, OK. 135 pp.

Abstract

These proceedings consist of 38 presented papers on a variety of subjects relative to the prevention and control of wildlife damage. Subject sessions included: Wildlife Damage Management and the Public, Predators, Rodents, Birds, Programs and Projects, USDA-APHIS-ADC Activities, Professionalism, and General.

Copies of these proceedings are available for ~~15~~ \$15 each, postage included. Send check, money order, or purchase order to GPWDCW Proceedings, Wildlife Specialist, 008C Ag Hall, Oklahoma State University, Stillwater, OK 74078.

Great Plains Wildlife Damage Control Workshops

1st	1973	Manhattan, KS	F. Robert Henderson
2nd	1975	Manhattan, KS	F. Robert Henderson
3rd	1977	Rapid City, SD	F. Robert Henderson
4th	1979	Manhattan, KS	F. Robert Henderson
5th	1981	Lincoln, NE	Robert M. Timm and Ron J. Johnson
6th	1983	Wichita, KS	William F. Andelt
7th	1985	San Antonio, TX	Daniel B. Fagre
8th	1987	Rapid City, SD	Daniel W. Uresk and Greg L. Schenbeck
9th	1989	Fort Collins, CO	William F. Andelt and Robert S. Cook
10th	1991	Lincoln, NE	Scott E. Hygnstrom, Ronald M. Case, and Ron J. Johnson
11th	1993	Kansas	F. Robert Henderson
12th	1995	Tulsa, OK	Ron E. Masters and J. Grant Huggins
13th	1997	Texas	Dale Rollins

PREFACE

Incidences of urban and rural wildlife and human conflicts have rapidly moved to the forefront in the wildlife field in recent years. Workshops such as the Great Plains provide a regional forum for training and interaction between federal, state, county, and private sector professionals in this field. State-of-the-art techniques and skills are needed to address the increasingly complex array of problems we deal with.

We recognize F. Robert Henderson, retired Extension Animal Damage Control Specialist, Kansas State University, for his efforts initiating and supporting this valuable workshop. We would like to thank all those who assisted with this workshop. Special thanks to the Noble Foundation for the printing of these Proceedings. Sharon Burriss handled the layout and design of the Proceedings. George Graves and the Oklahoma ADC field personnel did a tremendous job with the field trip and managing the logistics of everything. Although mentioned elsewhere, the number and level of support from contributors was gratifying and deeply appreciated.

We also thank the secretarial staff from the Department of Forestry and the Noble Foundation for handling phone calls and the myriad of details. Nancy Rains deserves a special note of thanks for her coordination role and making sure everything was accomplished in a timely fashion and that nothing was left out. We also thank the students from Oklahoma State University and University of Nebraska at Lincoln for assistance with projectors, lighting, and the many other tasks they were called upon to handle. Special recognition is due Jeff Sparks for coordinating student efforts. Finally, this workshop could not have taken place without the calm, collected presence of Jandra Pricer, who knew what to do, when to do it, and how.

Traditionally, the Great Plains Wildlife Damage Control Workshop has been held under the auspices of the Great Plains Agricultural Council, Wildlife Committee. The original member states of Montana, Wyoming, North Dakota, South Dakota, Colorado, Nebraska, Kansas, New Mexico, Oklahoma, and Texas formed the regional boundaries. It is evident from this year's participant list that this workshop serves a much larger constituency than the original member states. Although the Great Plains Agricultural Council was disbanded in 1995, we plan to continue this workshop biennially. Extension Wildlife Specialists in the original member states and peripheral states will continue to be the organizing force for workshops to come. The Thirteenth Great Plains Wildlife Damage Control Workshop will be hosted by Dale Rollins, Texas A&M University, in 1997. We look forward to seeing you there.
