Symbols in Literacy Development

Adapted by Janet S. Hanna, Kayla Hinrichs and Carla Mahar, Extension Educators
John DeFrain, Family Life Specialist

Seventh in a series of nine fact sheets developed through a national research project — StoryQUEST — through the California Institute of Human Services, Sonoma State University.

StoryQUEST’s Vision

High-quality early relationships and experiences throughout their daily routines provide each infant and toddler with the tools and skills to build a strong foundation for future school readiness. Families, caregivers and communities as a whole collaborate to enable all children to become highly competent in language and literacy.

Physical and Social Features of Quality Literacy Environments

Early environments matter and nurturing relationships are essential for literacy development of young children. Infants and toddlers who have secure relationships with their caregivers are more involved in literacy activities.

Infants and toddlers increase their language and literacy behaviors when they have access to a variety of literacy tools. When materials and activities are culturally meaningful and related to literacy routines, infants and toddlers engage in more complex interactions and are more eager to try new things.

Interaction With Symbols

When adults provide specific purposes and opportunities for using literacy tools, infants and toddlers interact more with print and symbols.

When infants and toddlers are in environments that support the development of intentional behavior, they learn to communicate and use symbols better. These environments allow children to explore objects and assign meaning to activities. They become aware that their behaviors have an effect on others. They learn that people and objects can be used as tools to solve problems.

Physical Features of Symbols

Toys and objects that make sounds, light up or move when a child plays with them (cause-and-effect)
- Rattles
- Squeaky toys
- Musical toys
- Toys that light when moved or pushed
- Jack-in-the-Box

Problem-solving tools
- Things to step on (benches, steps, big blocks)
- Containers to put things in (boxes, shelves, bowls)
- Things to carry toys and objects (cloth sacks or bags, baskets)

Toys that represent something else
- Dolls
- Stuffed or plastic animals
- Pictures
- Blocks
- Boxes
- Cars, trucks, planes

Tools adapted for use by children with special needs
- Adapted books with big page tabs
- Velcro on book covers or pages to prevent slipping
- Special crayon and marker holders

Signs and labels
- Photographs of children and families
- Pictures of daily routines
- Pictures of toys on shelves where they are usually stored
- Picture communication symbols

These environments allow children to explore objects and assign meaning to activities. They become aware that their behaviors have an effect on others. They learn that people and objects can be used as tools to solve problems.
Drawing tools
- Sand
- Finger paint
- Markers and crayons

Children’s books
- Portray children of diverse backgrounds, cultures and with disabilities
- Reflect languages and cultures of children in the environment/community
- Are appropriate for ages and developmental levels of children who will use them

Social Features of Symbols
Adults can use a variety of strategies to encourage the development and use of symbols for all children, including infants and toddlers with disabilities.
- Respond to infants’ and toddlers’ attempts to communicate with expressions, sounds, gestures (pointing, raising arms to be picked up) and words.
- Encourage children to explore objects and toys in the environment and see what they do, how they can be used.
- Make adaptations to assure all children, including infants and toddlers with disabilities, participate in literacy activities.

Model the Use of Words, Symbols and Print
Describe what you are doing.
- “I’m putting on my coat so we can get ready to go!”

Talk about people and routines represented in pictures.
- “That’s a picture of Grandma!”
- “Look, this is a picture of us playing outside!”

Talk about labels.
- Do you see the picture of the blocks? That’s where the blocks go.”
- “I see your name here, Gabriel. That means this must be your coat.”

Write lists or notes and describe it to the child.
- “I’m going to write a quick note to Donna to let her know I’m picking you up early today since we’re going to the doctor’s office.”

Call attention to the adult’s use of print.
- “What time is it? Oh, the clock says it’s 5:00.”
- “Is this store open on Saturday? The sign here says it is.”
- “Let’s look up the number in the phone book.”

Look at catalogs, books or magazines for fun.

StoryQUEST
The members for 2003-2004 StoryQUEST - CNCS team were:
- Sue Obermiller
- Trish Gorecki
- Tammy Classen
- Janet Hanna
- Kay Larson
- Meagan Thompson
- Learning Coach: Laura Kahl

- Paula Thompson
- Christy Hruza
- Deb Obermiller
- Kayla Hinrichs
- Regina Stupka
- Brenda Stupka
