

*Exhibit "D"*

## THIS TRACTOR MUST BE OILED BEFORE STARTING.

Put 1-1/2 gallons good tractor engine oil in crankcase through filler pipe at left side of governor case. Summer—Medium Tractor Oil, Winter—Medium Auto Oil.

Put 2 gallons medium transmission oil (not grease) in transmission case through filler hole in rear cover.

Put 2 quarts medium transmission oil (not grease) in each rear chain housing or to level of upper plug.

**Do Not Start Tractor Until This Is Done. Read Instruction Book.**
