Part of the [Biochemistry, Biophysics, and Structural Biology Commons](#), [Biomaterials Commons](#), [Bioresource and Agricultural Engineering Commons](#), and the [Biotechnology Commons](#)

This Article is brought to you for free and open access by the Nebraska Innovation Campus at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Biotech Connector by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

The Biotech Connector represents an important opportunity to serve the economic needs of the people of Nebraska through further diversification of Nebraska's economy, and by helping forge and illuminate a pathway to jobs in the biotechnology space for Nebraska students.

The Biotech Connector is a result of significant public/private partnership of six major organizations

Wet Lab Space

The Nebraska Innovation Campus Advantage

Flexible Space & Shared Equipment

The Biotech Connector is 7,700 sq. ft. of well-equipped wet-lab space located on Nebraska Innovation Campus. We provide incubation space and services to bioscience startups and high-growth biotech and research-based businesses.

Wet lab space provides aspiring startups and technology businesses with access to very expensive laboratory equipment that would be outside of the budget of most startups. Lack of access to technology such as this may prevent startups from really taking off in a capital-intensive industry. The Biotech Connector offers businesses room to grow and expand their footprint while keeping consistency in their operations.

Access to Talent

NIC is located adjacent to, and within biking distance of, the University of Nebraska–Lincoln and within 50 miles of the University of Nebraska Medical Center, providing opportunities to connect with research partnerships, qualified employees and motivated students.

Access to Culture

Our intentionally designed environment with strategically placed open spaces beautifully lends itself to the sharing of ideas and their synergistic development.

Access to Culture

NIC provides the opportunity to become affiliate employees of the University of Nebraska–Lincoln, complimentary access to University of Nebraska–Lincoln libraries, access to students, faculty and facilities, convenient bus transportation and complimentary Wi-Fi in common spaces at NIC and the University of Nebraska–Lincoln.

Flexible and affordable access to quality bench space and equipment from 6 feet of bench to over 2,000 square feet of lab space.
