Surveying Digital Collections Stewardship in Nebraska

Welcome to the *Digital Collections Stewardship in Nebraska* survey page. Please see below for more information about this survey.

**Title of Research Project:** Digital Collections Stewardship in Nebraska.

**Length of Survey:** 20 questions | approximately 10-15 minutes.

**Purpose:** This survey is intended to gather information on curation and preservation activities for digital collections in libraries, archives, and museums (LAMs) in Nebraska in order to gain a better understanding of digital preservation readiness across the state.

In addition, the principal investigators intend to augment the survey results by conducting an on-site interview in the summertime. The interview will follow similar questions asked in this survey in order to gather further information about the managing and preserving digital collections. There is an opportunity at the end of the survey to participate in the on-site interview.

**Principal Investigators:** Jenny Thoegersen (jthoegersen2@unl.edu) and Blake Graham (blake.graham@unl.edu), University of Nebraska-Lincoln Libraries.

**Use of the Survey Data:** All information gathered in this research project will remain confidential. The principal investigators will review, interpret, and analyze the results once finalized, and publish the findings in a scholarly journal with identifying information omitted.

**Other Information:** This research project has been reviewed and exempt from the Institutional Review Board at the University of Nebraska-Lincoln.

Please contact the investigators if you have any questions when filling out the survey. We hope to have a high response rate. Thank you for participating!
