International Consortium for Multilingual Excellence in Education

Specifically we are designing four modules that will take ~3 hours each to complete across a one-week timespan. The four topics of the four modules are: *assessment, teaching and learning, classroom communities and working with families*. Each of the four modules are being designed to help teachers think through what they have learned and experienced during the COVID-19 crisis and how they can best plan and prepare for future uncertainties while keeping health and wellness as well as great learning at the forefront of their practice. The four modules will each be offered three times. Teachers can take more than one module at a time, or they can spread their participation out across the three weeks they will be offered. The modules require asynchronous work online and end with a culminating webinar on the Friday of the week offered. Certificates of completion documenting 3 hours of professional learning will be available to all teachers who complete the module and request the certificate. We recommend groups of teachers taking the modules together as professional learning communities to foster strong reflection, learning and planning opportunities. Each of the four modules will be offered during the following weeks:

- June 15th
- July 13th
- August 3rd

Please visit our website for more information on registration (should be available soon) and to see the other free professional learning opportunities we offer for teachers.

We are eager to be a helpful, collaborative partner in all learning needs related to multilingual students and their teachers, so please, do not hesitate to reach out to us with questions, ideas, concerns, feedback, etc. We are available at icmee@unl.edu.

Dear Parent or Guardian:

During this global pandemic, we have created some learning materials that we hope will be helpful for your student to engage with. This Activity Packet was designed with your student in mind and is aligned with their grade level content. Each activity in this packet will help them continue with their schooling as well as continue to grow their multilingualism. We encourage you to talk to your student about what they are doing and let your student ask you about the topics they are engaging with. The packet is in English, but we encourage you and your student to speak and think together in any language you would like to. We strongly encourage you to use the language you feel most comfortable using with your student as supporting their learning in all the languages they know is helpful—even for their English! So, please encourage your student to do the work in the packet in any language they would like.

We know that families are dealing with a lot of stress and uncertainty right now, so we encourage you to play the role you would like to play with your student and their Activity Packet based on what works best for you. We recommend reading the information below about the packet and activities in it and then discussing with your student how the packet works and how they can make their way through it. We believe that with that introduction, your student can do a lot, if not all, of the work themselves. However, if you are available to work more closely with your student (or for a sibling or other family member to), we encourage that as well. Please know, this is not intended to be something that adds stress and work to your family during this stressful time. We are hoping that this is a helpful resource so your student can continue learning important things while at home.

We also tried to make the packets interesting and fun. We hope that your student will enjoy the packets and feel like they are doing productive play. We have integrated activities from all of the grade level content standards: English Language Arts, Mathematics, Social Studies, Science, Physical Education and Art. And we have written the packets and activities so a student at the early stages of English proficiency should be able to enjoy the packets and be successful without too much challenge.

In this packet, we have included the following activities:

- Create a Buddy. This is the first activity in the packet and is intended to help your student have someone to talk to about the work they are doing in the packet. We have included images of potential “buddies” that your student can choose from. We suggest they choose a buddy and add features and color to the buddy however they would like. They should also name their buddy. Throughout the packet activities, your student will be told to talk to their buddy or even to ask their buddy questions. This buddy is so your student can work independently without needing your time and attention to be successful with the packet. But we also encourage your student to talk with you or other family members as they are available. Further, your student could pick a stuffed animal or doll or something else as their buddy. They don’t have to use one of the buddies we offer. But they should plan for who their buddy will be each time they work on the packet (one of our buddies, someone in your family/home, a doll they already have, etc.). This might be something they will need your help understanding.

- Dictionary. Each day we hope that your student will engage with words they find interesting and want to keep track of. At the end of the packet are pages for your student to keep their own dictionary. We encourage students to use these pages to keep track of words they like or find interesting. We also encourage students to use any language they would like as well as pictures to help them remember what the words mean.
- Journal. Each day students have a short prompt that they can respond to. Students should be encouraged to write in any language (or combination of languages) that they feel most inclined to. They can also use pictures as appropriate. We hope these journal prompts will also be points of conversation for your student with their buddy.

Helpful words and phrases: This week your child will be learning and practicing many words. We encourage you to remind your child how to say them and write them in any and all languages you speak in your home. They are provided in English in this packet for your child to practice also.

Theme for the week: This week your child will be learning colors and other words that describe Spring and the plants and animals they might see, hear, or feel during Spring.

Activities that require supervision: This week your child will be asked to go outside to go on a walk. Please make sure they are accompanied by an adult or older child that can help to keep them safe. Instead of a neighborhood “walk,” you can also have your learner explore the yard around where you live or look out a window, or imagine that they are on a walk outside.

We hope that these activities will enhance your child’s learning while they are currently unable to attend school. We also hope that they will give your child opportunities for productive play. If you have any questions or ICMEE is housed within:

uno de los amigos que ofrecemos. Sin embargo, su estudiante debe pensar quién será su amigo cada vez que trabaje en el paquete (uno de nuestros amigos, alguien en su familia / hogar, una muñeca que ya tienen, etc.). La elección de su amigo podría ser algo en la que su estudiante pueda necesitar su ayuda.

-Diccionario- esperamos que cada día su estudiante encuentre palabras que le resulten interesantes y quiera recordar. Al final del paquete, hay varias páginas para que su estudiante cree su propio diccionario. Así que, le animamos a que las use para que su estudiante pueda llevar un seguimiento de todas las palabras que le gusten o le parezcan interesantes. Además, alentamos a su estudiante a que use el idioma que prefiera para escribir esas palabras y también, dibujos, así le será más fácil recordar el significado de estas.

-Diario. Cada día, su estudiante tendrá un tema sobre el que tendrá que escribir. Animamos a su estudiante a escribir en el idioma que desee (o una combinación de idiomas), incluso pudiendo usar dibujos. Esperamos que estos temas de escritura sean puntos de conversación entre su estudiante y su amigo.

-Expresiones y palabras útiles. Esta semana su hijo/a aprenderá y practicará muchas palabras. Recuérdele a su hijo/a que puede pronunciar y escribir las palabras en cualquiera de los idiomas que se hablen en su casa. En el paquete encontrará las palabras en inglés para que su hijo/a practique

Tema de la semana: esta semana su hijo/a aprenderá los colores y otras palabras que describen la primavera, las plantas y los animales que puedan ver, escuchar o sentir durante la primavera.

Actividades que requieren supervisión: esta semana su hijo/a le pedirá ir afuera a dar un paseo. Por favor, asegúrese de que está acompañado de un adulto u otra persona mayor que lo pueda mantener a salvo. En lugar de dar un paseo por el vecindario, también el estudiante puede explorar un jardín cerca de donde viva, mirar por la ventana o imaginarse que está paseando fuera.

The Colorful Garden

In the Spring, I plant a
colorful garden.

First, I plant small seeds in the soft, brown soil.

Page 2

Next, I water the small, black seeds. The soil feels wet.

Page 3

Then, the short, green seedlings
push out of the soft, brown soil.

Page 4

The yellow, warm sun helps them
grow taller.

Page 5

Soon, colorful buds grow on the tall stems above the smooth, green leaves.

Page 6

The green caterpillars eat the smooth leaves to grow bigger.

Page 7

Finally, the pink flowers bloom in
my garden. I like how they smell.

Page 8

The orange butterflies like my
garden, too.
They fly from flower to flower.
