This Learning Object is brought to you for free and open access by the International Coalition for Multilingual Education and Equity (ICMEE) at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in ICMEE Learning Packets: Level 3 of English Proficiency (K-12) by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

4th - 5th grade • English Level 3

Learning Packet #3

Theme: Ocean

International Consortium for Multilingual Excellence in Education

August 15th, 2020

Dear District/School Personnel:

We are a consortium of researchers, teacher educators, and teachers who believe in and strive to foster multilingual excellence. Therefore, during this time of crisis and difficulty, we are eager to put our expertise and passions to use to try to be of assistance. We initially designed 21 immediate-response packets for K-5, as soon as the pandemic forced schools to shut down. We then applied for and received a grant that has allowed us to create more than 100 full activity packets, ranging from Levels 1-3 of English proficiency, and grades K-12.

The breakdown of packets is as follows:

Level 1 – Entry into English

Emphasis on developmentally appropriate interesting/challenging tasks

- K-2
- 3-5
- 6-8 with a literacy background
- 9-12 with a literacy background
- 6-8 without literacy background
- 9-12 without literacy background

Level 2 – Building Background

- K-1
- 2-3
- 4-5
- 6-8
- 9-10
- 11-12

Level 3 – Interdisciplinary Inquiry

- K-1
- 2-3
- 4-5
- 6
- 7-8
- 9-10
- 11-12

With this letter, is an “Activity Packet” that can be used freely with any group of students or families as you see fit. Each packet includes interdisciplinary activities designed to be completed within a week. Teachers from around the country have designed, developed, and created these packets, each focusing on the topics of their choice. Because learning academic content can happen within any thematic context, these packets are designed to be diverse, dynamic, and engaging for students of all backgrounds. The topics covered in these units range from cultures, animals, natural disasters, inventions, and much more. You will see each teacher’s personality reflected strongly in these packets, and our hope is that this will capture students in a way similar to that of a rich and immersive classroom environment.

International Consortium for Multilingual Excellence in Education

Our hope is that these materials can provide some meaningful learning supports to students and families who may not have access to online learning opportunities. However, we can also imagine a variety of ways that these packets can provide learning opportunities outside of our original intent and purpose. Please use these activity packets in any way you see fit for your students and families. We will be so pleased to learn of how they might be useful, particularly for your multilingual students and their families. We think it might be particularly helpful for you to print packets and mail them to families, but we also see opportunities to work with local agencies, leave printed-out packets for pick-ups at schools, etc.

We designed these activities based around several big ideas:

- Productive play and inquiry
- Grade level and English Language Development standards/curriculum
- Fostering multilingual language development
- Providing opportunity for all four language domains (reading, writing, speaking and listening)

These packets are self-contained. Everything a child will need to be successful with the activities is provided in the packet. Students will only need a writing utensil. Additional tools like crayons or scissors are optional.

We have also included a letter to parents. We hope this will help parents understand what students will be doing with the packet and that we encourage the use of all language resources available to the student. The packets are in English for the students, but the students can write, talk and engage with family members regarding the packet activities in any language they would like. We have translated the parent letter into Spanish, and we encourage districts to translate the letter into any other language that would be helpful for your local families.

Designing Activity Packets is a new initiative for us, though we have been designing professional learning opportunities (eWorkshops) for teachers of multilingual learners since 2011. Like our Activity Packets, those learning opportunities for teachers are free. To learn more about them and us, please visit our website at: <https://cehs.unl.edu/icmee/>

We are eager to be a helpful, collaborative partner in all learning needs related to multilingual students and their teachers, so please, do not hesitate to reach out to us with questions, ideas, concerns, feedback, etc. We are available at icmee@unl.edu.

Sincerely,

Kara Mitchell Viesca, PhD

Associate Professor of Language Education

Teaching, Learning and Teacher Education

PI: International Consortium for Multilingual Excellence in Education

This packet was designed and created by **Nicole Ponti**
in collaboration with Claudia Yunes, Tricia Gray, and Alexa Yunes.

The Standards that Informed the Development of this Packet are:

Math

- Operations and Algebraic Thinking- Use the four operations with whole numbers to solve problems; Represent and solve problems involving multiplication and division.

English Language Arts

- RL.4.4- Determine the meaning of words and phrases as they are used in a text
- RL.4.7- Make connections between the text of a story or drama and a visual or oral presentation of the text

Art

- Create- 1. Generate and conceptualize artistic ideas and work.
- Performing, Presenting, Producing- 6. Convey meaning through the presentation of artistic work.

Physical Education

- Flexibility- 3.6 Hold for an increasing period of time basic stretches for hips, shoulders, hamstrings, quadriceps, triceps, biceps, back, and neck.
- Aerobic Capacity- 3.3 Participate three to four days each week, for increasing periods of time, in continuous moderate to vigorous physical activities that require sustained movement of the large muscle groups to increase breathing and heart rate.

English Language Development (WIDA)

- Writing- Supply words for sentences about revising from models
- Listening- Match processes or events with their effects on earth materials based on oral descriptions using photos, illustrations, or videos with a partner in L1 or L2
- Single statements or questions- An idea within words, phrases, or chunks of language; Simple grammatical constructions (e.g., commands, wh- questions, declaratives); Common social and instructional forms and patterns; General content-related words; Everyday social, instructional and some content-related words and phrases

Learning Packet #3

International Consortium for Multilingual Excellence in Education

August 15th, 2020

Dear Families:

During the COVID-19 pandemic, the academic classroom expanded into the home in new ways. Many students have limited access to technology, others struggle with online learning, and some simply want more to do while they are at home. With these things in mind, we have created an extensive resource of learning materials that we hope will be helpful for your children to engage with. These Activity Packets were designed with your students in mind and are aligned with each of their grade level content. Each activity in the packets will help students continue with their schooling as well as continue to grow their multilingualism. We encourage you to talk to your student about what they are doing and let your child ask you about the topics they are learning about. The packet is in English, but we encourage you and your children to speak and think together in any language you would like to. We strongly encourage you to use the language you feel most comfortable using with your student. Supporting their learning in all the languages they know is helpful—even for developing their English! So, please encourage your child to do the work in the packet in any language they would like.

We know that families are dealing with a lot of stress and uncertainty right now, so we encourage you to play the role you would like to play with your student and their Activity Packet based on what works best for you. We recommend reading the information about the packet and activities and then discussing with your student how the packet works and how they can work through it. We believe that with that introduction, your student can do a lot, if not all, of the work themselves. However, if you are available to work more closely with your child (or for a sibling or other family member to do so), we encourage that as well. Please know, this is not intended to be something that adds stress and work to your family during this demanding time. We hope that this is a helpful resource so your student can continue growing academically while in unusual situations.

We also hope you will find these packets interesting and fun. We have integrated activities from all of the grade level content standards: English Language Arts, Mathematics, Social Studies, Science, Physical Education and Art. We have also developed different packets for the different levels of English proficiency, so your child should feel challenged but also capable of largely understanding the content in front of them.

Kinder-5th grade students will create a Buddy for their packets. This is the first activity in the packets and is intended to give children have someone to talk to about the work they are doing in the packet. We have included images of “buddies” to choose from. Choose a buddy, personalize it, and even name the buddy. Throughout the packet activities, students will be told to talk to their buddy or even to ask their buddy questions. With this buddy, students can work independently without needing your time and attention to be successful with the packet. However, we also encourage your student to talk with you or other family members as they are available. Further, your student could pick a stuffed animal or doll or something else as their buddy. They don’t have to use one of the buddies we offer, but they should plan for who their buddy will be each time they work on the packet. This might be something they will need your help understanding.

International Consortium for Multilingual Excellence in Education

In these packets, we have included the following activities:

- Dictionary. Each day we hope that your student will engage with words they find interesting and want to keep track of. We encourage students to use the dictionary activities to keep track of words they learn and find interesting. We also encourage students to use any language they would like as well as pictures to help them remember what the words mean.
- Journal. Students should be encouraged to write in any language (or combination of languages) that they feel most inclined to. They can also use pictures as appropriate. We hope these journal spaces will also be points of conversation for your student with their buddy or with someone in their home.

Key Words for Ocean Themed activities:

latitude	is a measurement on a globe or map of location north or south of the Equator.
longitude	is a measurement of location east or west of the prime meridian
equator	latitude line at 0° separates into North and South
prime meridian	Longitude line at 0° separates the Earth into East and West
conch	cone or dome shaped seashell
continent	a large mass or area of land, there are seven total in the world

Students will learn about the seven continents, the major oceans, and geography skills, and graphing.

We hope that these activities will enhance your child's learning while we work through these very unusual circumstances. We also hope that they will give your child opportunities for productive play. If you have any questions or concerns about these packets, feel free to reach out to our project at icmee@unl.edu or by calling the Teaching, Learning and Teacher Education department at 402-472-2231.

Sincerely,

Kara Mitchell Viesca, PhD

International Consortium for Multilingual Excellence in Education

15 de agosto del 2020

Estimadas familias:

Durante la pandemia del COVID-19, ha sido necesario que los estudiantes aprendan en casa. Muchos de los estudiantes tienen acceso limitado a la tecnología, otros tienen dificultad para aprender en línea y algunos simplemente quieren tener algo más que hacer mientras están en casa. Pensando en estas razones, hemos creado un recurso con una gran extensión de materiales de aprendizaje que esperamos serán útiles para que sus hijos participen activamente. Estos paquetes de aprendizaje fueron diseñados teniendo en mente a sus niños y están alineados a los contenidos de cada nivel de grado. Cada actividad en estos paquetes los ayudará a continuar con su escolarización, así como a seguir aumentando su multilingüismo. Lo alentamos a que hable con su estudiante sobre lo que está haciendo y deje que le pregunte sobre los temas que le interesan. El paquete está en inglés, pero le recomendamos a usted y a su estudiante que hablen y piensen juntos en el idioma que deseen. Le recomendamos encarecidamente que use el idioma con el que se sienta más cómodo al comunicarse con su estudiante, ya que respaldar su aprendizaje en todos los idiomas que sabe es útil, ¡incluso para su inglés! Por lo tanto, anime a su estudiante a hacer el trabajo en el paquete en cualquier idioma que desee.

Sabemos que las familias están lidiando con mucho estrés e incertidumbre en este momento, por lo que lo alentamos a que desempeñe el papel que le gustaría desempeñar con su estudiante y su paquete de actividades según lo que funcione mejor para usted. Le recomendamos leer la información sobre el paquete y las actividades que contiene y luego discutir con su estudiante cómo funciona el paquete y cómo pueden trabajar en él. Creemos que, con esa introducción, su estudiante puede hacer mucho, si no todo, el trabajo por sí mismo. Sin embargo, si usted está disponible para trabajar más estrechamente con su estudiante (o un hermano u otro miembro de la familia), también lo recomendamos. Por favor, tenga en cuenta que esto no pretende ser algo que agregue estrés y trabajo a su familia durante este momento tan desgastante. Por el contrario, esperamos que este sea un recurso útil para que su estudiante pueda continuar desarrollándose académicamente durante esta situación tan inusual.

También esperamos que ustedes encontrarán estos paquetes interesantes y divertidos. Hemos integrado actividades de todos los estándares de contenido de nivel de grado: Artes del Lenguaje en inglés, Matemáticas, Estudios Sociales, Ciencias, Educación Física y Arte. También hemos desarrollado diferentes paquetes para los diferentes niveles de dominio del inglés, de esta manera su hijo podrá sentir el desafío y también será capaz de comprender en gran medida el contenido que se les presenta.

Los estudiantes de Kínder a 5to grado crearán un Amigo para su paquete. Esta es la primera actividad en el paquete y está destinada a ayudar a su estudiante a tener a alguien con quien hablar sobre el trabajo que está haciendo en el paquete. Hemos incluido imágenes de posibles "amigos" para que su estudiante puede elegir. Sugerimos que elijan un amigo, lo personalicen e inclusive le pongan un nombre. A lo largo de las actividades del paquete, se le pedirá a su estudiante que hable con su amigo o incluso que le haga preguntas. Con este compañero, su estudiante podrá trabajar de forma independiente sin necesidad de su tiempo y atención para tener éxito al trabajar en el paquete.

ICMEE is housed within:

International Consortium for Multilingual Excellence in Education

Sin embargo, también alentamos a su estudiante a hablar con usted u otros miembros de la familia cuando estén disponibles. Además, su estudiante puede elegir un animal de peluche o muñeca o alguien más como su amigo. No tienen que usar uno de los amigos que ofrecemos, pero deben planificar quién será su amigo cada vez que trabajen en el paquete (uno de nuestros amigos, alguien en su familia / hogar, una muñeca que ya tienen, etc.). Esto podría ser algo en lo que necesitarán su ayuda para poder comprender.

En este paquete hemos incluido las siguientes actividades:

- Diccionario: Esperamos que cada día su estudiante capte palabras que encontrará interesantes y querrá tener un seguimiento y registro de estas. Al final de los paquetes encontrarán páginas en las que su estudiante podrá mantener su propio diccionario. Recomendamos ampliamente que los estudiantes usen estas páginas para registrar palabras que les gusten o les parezcan interesantes. También alentamos a los estudiantes a usar cualquier lenguaje que deseen, así como imágenes para recordar el significado de las palabras.
- Diario: Cada día, los estudiantes tienen un tema corto de escritura al que pueden responder. Los estudiantes deben ser alentados a escribir en cualquier idioma (o combinación de idiomas) que les parezca más conveniente. También pueden utilizar imágenes si lo consideran necesario. Esperamos que estos temas cortos de escritura puedan utilizarse de puntos de conversación entre su estudiante y su amigo.
- Este paquete contiene actividades con temas de océanos. Los estudiantes aprenderán sobre los siete continentes, los océanos principales, habilidades de geografía y gráficas.
- Vocabulario del paquete:
 - Latitud- es una medida en un globo terráqueo o mapa de ubicación al norte o al sur del Ecuador
 - Longitud- es una medida de ubicación al este o al oeste del primer meridiano
 - Ecuador- la línea de latitud a 0 ° que separa la Tierra en Norte y Sur
 - Meridiano principal- la línea de longitud a 0 ° separa la Tierra en Este y Oeste
 - Concha -concha marina en forma de cono o cúpula
 - Continente- una gran masa o área de tierra, hay siete en total en el mundo

Esperamos que estas actividades mejoren el aprendizaje de su hijo mientras trabajamos juntos para atravesar estas circunstancias tan inusuales. También esperamos que le darán a su hijo oportunidades de juego productivo. Si tiene alguna pregunta o inquietud acerca de estos paquetes, siéntase en libertad de comunicarse con nuestro proyecto a icmee@unl.edu o llamando al departamento de Enseñanza, Aprendizaje y Educación para maestras (Teaching, Learning, and Teacher Education) al 402-472-2231.

My Buddy

1. Choose a Buddy

2.

Cut out and color your Buddy and give it a name!

3.

Cut out and color the accessories

4.

Have fun with your Buddy!
Dress them up, play with them, and even talk with them!

Scuba Buddy

Ocean Vocabulary

Read each word and definition, then draw a picture.

Word	Definition	Picture
latitude	is a measurement on a globe or map of location north or south of the Equator.	
longitude	is a measurement of location east or west of the prime meridian	
equator	latitude line at 0° separates into North and South	
prime meridian	Longitude line at 0° separates the Earth into East and West	
conch	cone or dome shaped seashell	
continent	a large mass or area of land, there are seven total in the world	

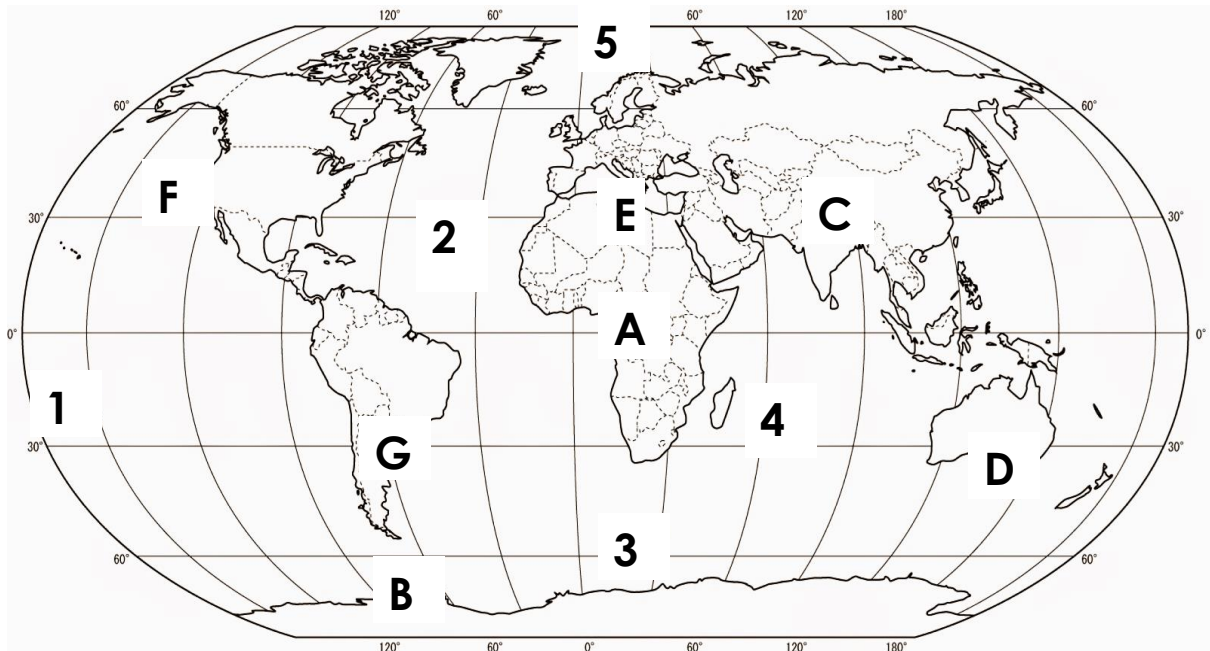

World's Oceans

Identify the World's Oceans and label the map

Oceans

1. Pacific Ocean
2. Atlantic Ocean
3. Southern Ocean
4. Indian Ocean
5. Arctic Ocean

Continents

- A. Africa
- B. Antarctica
- C. Asia
- D. Australia
- E. Europe
- F. North America
- G. South America

Write a paragraph about the
continent where you come from

Extension
Read your paragraph
to your Buddy.

Creating an Ocean Test

Read the clue words, then write a question about those words.

	Clue Words	Question
1	Number of continents	<i>How many continents are there in the world?</i>
2	Number of oceans	
3	Oceans that surround North America	
4	Continents that surround Indian Ocean	
5	Ocean near Asia and Australia	
6	Continents near Africa	

Now, answer your own test!

1	
2	
3	
4	
5	
6	

Ocean Fun Facts

- 🌐 Asia is the largest continent!
- 🌐 Australia and Antarctica are continents and islands!
- 🌐 **Add a fun fact you or someone you know can share:**

Reading a Compass Rose

Read the following about the Compass Rose:

There are four main directions or winds,

N – North	E – East
S – South	W – West

We always use capitals when giving directions and start with either North or South then East or West.

4-point compass roses use only the four "basic winds" or "cardinal directions" (North, East, South, West), with angles of difference at 90°.

8-point compass roses use the eight principal winds—that is, the **four cardinal directions** (N, E, S, W) **plus the four "intercardinal" or "ordinal directions"** (NE, SE, SW, NW), at angles of difference of 45°.

16-point compass roses are constructed by bisecting the angles of the principal winds to come up with intermediate compass points, known as half-winds, at angles of difference of 22½°. The names of the half-winds are simply combinations of the principal winds to either side, principal then ordinal. E.g. North-northeast (NNE), East-northeast (ENE), etc.

Using a Compass Rose-1

Answer the questions to collect all your sea treasures in your sailboat. Be sure to use Reading a Compass Rose to help you!

Treasure Map

Imagine that you are in the center of the ocean in your sailboat.

You need to write instructions to help your friends find hidden sea treasures.

Using a Compass Rose-2

Write instructions on the cards to find each treasure on these maps.

Don't forget to write complete sentences!

What is the ordinal direction of the magnifying glass?		<i>To find the magnifying glass you need to walk Northwest.</i>
What is the ordinal direction of the starfish?		
What is the ordinal direction of the conch?		
What is the ordinal direction of the seahorse?		
What is the cardinal direction of the treasure chest?		
What is the cardinal direction of the anchor?		
What is the cardinal direction of the crab?		
What is the cardinal direction of the seashell?		

Welcome to My Home!

Use this treasure map and draw your own **home treasures**.

Write a paragraph **describing** your treasures and **where** to find them

Lines of Longitude and Latitude

Lines of latitude and longitude are part of a geographic coordinate system. Pilots, sailors, cartographers, and many more professions use coordinates to locate any place on Earth.

Here is a helpful way to remember which lines are which:

Latitude runs North - South and Longitude runs East - West

The Prime Meridian is a longitudinal line that starts at 0° degrees and runs 180° degrees around the globe. The latitude line that begins at 0° degrees is the Equator and runs 90° degrees to each pole. See the diagram below:

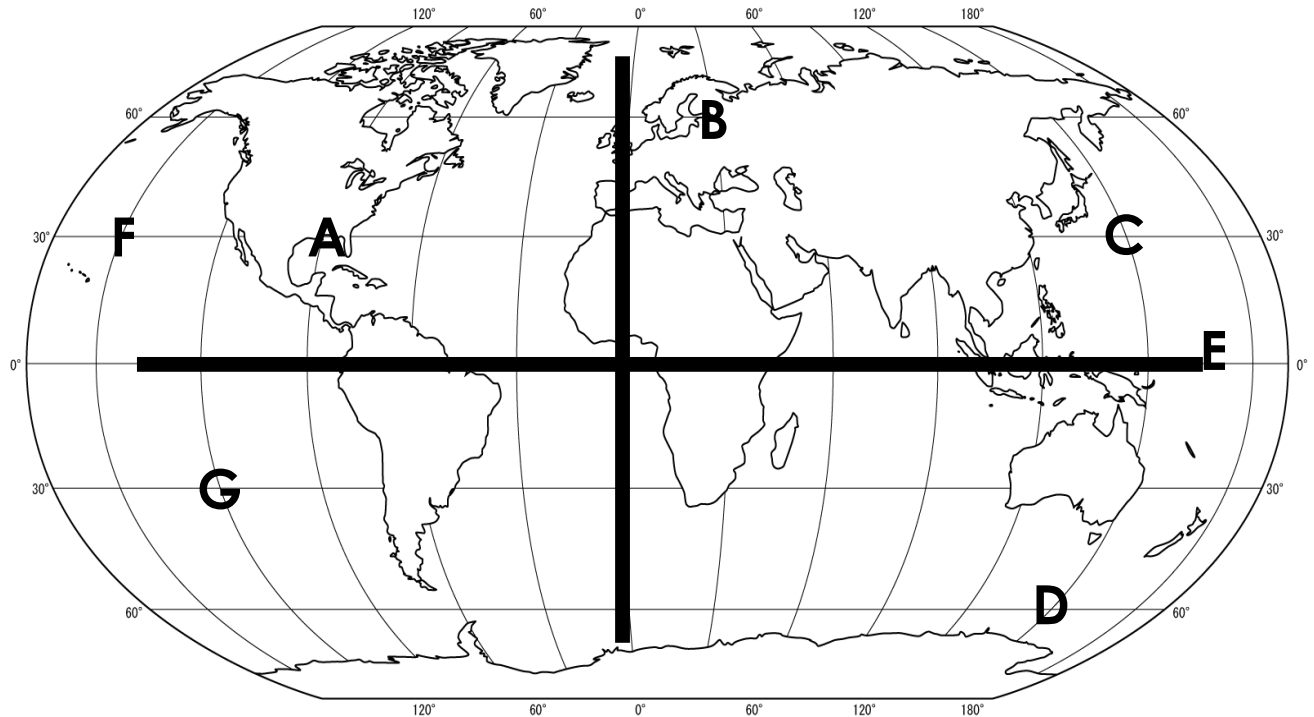

Example of writing coordinate:

★ Latitude, Longitude N 30°, W 60°

Writing Lines of Longitude and Latitude

Practice writing Latitude and Longitude Coordinates.

Write the coordinates here:

A. _____ B. _____ C. _____ D. _____

E. _____ F. _____ G. _____

Find U.S.A. and the country where you come from and write their coordinates. Write a paragraph about what you like in U.S.A.

Coordinate Plane Review

Practice writing the coordinates for the following objects:

 _____

 _____

 _____

 _____

 _____

 _____

 _____

 _____

 _____

 _____

Color Your Treasure

Find the hidden treasure, shade in the block with either crayons, colored pencils, or pencil.
