LESSON PLANS

Lesson Activity Name: Introductory Into France Through The Stomach, Crêpes(French)

Length of Activity: One Hour

Supplies: Individual Crêpes for each students:

- 2 cups milk
- 4 eggs
- 3 Tablespoons butter melted
- 1 Tablespoon sugar
- 1 teaspoon vanilla
- 1/2 teaspoon salt
- 1 1/2 cups flour sifted
- Fillings- Bananas, Whipped Cream, Chocolate, Strawberries

Directions:

At the beginning of the class start with saying hello, *Bonjour*. Play an introduction game, *Je m'appelle...*, sometimes students are nervous, therefore have each student say their name and repeat back to them, *Il s'appelle... or Elle s'appelle....*, this allows for each student to have a feel for the class setting. Once introductions are over, give each student a glimpse into the culture. For me I explained the importance of food for the French. How important meal time is in the dynamic of family and friends. This is why the crepes are important for the lesson. The French feel food is an important time to learn and communicate more about each other. Sit down and enjoy talking to the students once everyone has a meal.

Conclusion of the activity:

This activity is important in starting the bond with students. Ending this activity means that you feel you know a bit about each student and they themselves know about you and how the class will be set up.

Parts of activity that worked:

The food was a success in earning the respect of the students, while also introducing French culture.

Parts of activity that did not work:

One student in my class had an allergy to gluten that we were not aware of. This created a bit of an inequality in the classroom, but there was other fruit for her to eat. This was also quite messy and took a lot of time to set up because the crepes are needed to be made ahead of time.
