This Article is brought to you for free and open access by the Papers in the Biological Sciences at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in *Cranes of the World*, by Paul Johnsgard by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

And as wee see strainge Crane are wont to doe
First stalke a while ere they their wings can finde,
Then soare from ground not past a yard or two,
Till in their wings they gathered have the winde;
At last they mount the very cloudes vnto,
Trianglewise according to their kind.

(Topsell, 1972).
