This Article is brought to you for free and open access by the Buros-Nebraska Series on Measurement and Testing at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Family Assessment by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

Subject Index

A

abandonment: 219-220
ABCX model of family stress: 274
academic
 ability: 206
 achievement: 207, 210, 221, 225, 227
acculturation: 107, 114, 123
adjusted mean difference: 228
adolescents: 215-216, 220-221
affect: 20, 31, 40, 69, 71, 75, 77, 82-84
affective responsiveness: 77, 86, 92
African Americans: 105-107, 109, 113-114
age: 47, 82
aggregation: 9, 51, 54
Americans with Disabilities Act (ADA): 262
analysis of covariance: 227
anger toward parents: 219-220
antisocial behavior: 235-255
Asian Americans: 105-109, 111, 113, 120
assessment
 formative: 246-248, 253
 global: 247
 standardized: 262, 264-277
asymptomatic
 family functioning: 70

attitude: 244-245, 247
autonomy: 215
average
 family functioning: 70

B

Beavers Systems Model: 38, 42
behavior
 covert: 223
 low base rate: 223
behavioral
 checklist: 246
 components: 158, 160, 164-166, 170
 geneticists: 32
 genetics: 131
 properties: 159
 ratings: 223, 264
 traits: 159
behaviorists: 4, 7
belief systems: 112-113
between-group design: 209

C

card sort: 6
causal model: 208
 effects of divorce: 226-229
causal panel analysis: 181
change agent: 242

change of schools: 209
child

behavior
management of: 236
development: 205-206
health: 236

child management training: 236, 242
Circumplex Model: 6, 38, 42, 271, 273
clinical: 20-24, 26, 27, 29, 33, 36-42, 44,
46-48, 51, 55-56, 69, 87, 236-237,
242-243, 245, 248-250, 252

close relationships: 30-31

coding schemes: 22, 27, 33, 36-37, 39-
40

coercive family process: 240-242

cohort effect: 158, 172-173, 177

communication: 27-28, 38, 47-48, 55,
68-69, 71, 74-77, 79, 81, 86, 271,
273-274

comparison group: 209, 226

competency: 275

conceptual definition: 155, 158

conceptual issues: 157-158, 162, 195

conduct: 206-207, 210-211, 221, 225

confirmatory factor analysis: 13, 72

conflict: 40, 43, 46, 52, 54, 71, 74-76, 79,
81, 87

confusion: 218-219

congenital disabilities: 262-263
