Model file name: ssRNA.stl

Authors: Michelle E Howell, Karin van Dijk, Rebecca L Roston

This is a teaching model of a single stranded piece of RNA in stick representation (PDB: [1ehz](#)). This model is designed to go with a teaching module comparing DNA and RNA basic structures and functions. The printable model is already uploaded to [Shapeways.com](#) in the [MacroMolecules](#) shop under the name "[ssRNA](#)". This model has been printed successfully using these parameters on Shapeways' laser sintering printer in the Elasto Plastic and Strong & Flexible Plastic materials.
