MEET A DISTANCE STUDENT

Distance M.S. Student - Kerry John

I am currently an Extension Assistant for the University of Nebraska-Lincoln Extension. I spend the majority of my time working with 4-H and youth development.

I took my first entomology course as an undergraduate at UNL. From that point on, I have found insects to be fascinating. As I began thinking about pursuing a Master's Degree in Entomology and discovered that I could complete this degree through your distance education program, I knew that this was the program for me.

Being a part of the distance program has been challenging as well as rewarding. I have learned a lot about how self-motivated you need to be when you don't physically attend class. As I get close to the end of the program, I am happy to have been a part of the distance education program.

STUDENT NEWS

Tim Huntington gave an invited presentation on October 3 to the UNL Forensic Science Club entitled, "Of Maggots and Men." Tim also gave an invited presentation to the UNL Criminal Justice Student Association on October 10 entitled, "The Forensic Science of Forensic Entomology."

Dori Porter received a Capital City Kiwanis Club Undergraduate Teaching Assistant Scholarship in the amount of \$500.

The Insect Science Club will be holding their annual honey sale on November 13-15. They will be at the City Campus Union on November 13 and 15 from 10:00 a.m. to 2:00 p.m. and at the East Campus Union on November 14 and 15 from 10:00 a.m. to 2:00 p.m. Items available include honey, of course, in 8 and 12 oz. bears, and 3 and 5 lb. jugs. There will also be candles, peppermint lip balm, and lotion in apple, sunflower, gingerbread, and cucumber scents. Be sure to shop early to get the best selection!

TRAVEL

Dr. Bob Wright participated in the Stakeholder Panel meeting of the North Central IPM Center, October 24-25, at Kansas City MO, as a representative of NCERA 201, the regional committee on IPM.

Dr. John Foster attended the conference, "Convergence of Genomics and the Land Grant Mission: Emerging Trends in the Application of Genomics in Agricultural Research" held at Purdue University, West Lafayette, IN, September 10-12, 2007.
