Master's Project Proposal

Insectography: Insects in the World of Fiction

By Erin Bauer

My proposed Master's Project is to develop a comprehensive list of fictional works (films/TV episodes, video games, children's books, and novels) originally published or produced in the United States between 1950 and 2012 about or including insects, spiders, related arthropods (many times anthropomorphized or mutated) and/or entomologists as main characters and playing a major role in the plot. Although the list will encompass both entertaining and educational works, it will not include textbooks or other non-fictional works. It will also not include "fictionalized" accounts of real processes. For example, a book such as *Hope for the Flowers*, where the story is told from the perspective of the main character, a caterpillar discovering its true nature through metamorphosis, or a book where an insect character learns the importance of friendship, would be included in this list. On the other hand, a book about a child character learning from her parents or teacher in a straightforward manner how a caterpillar turns into a butterfly, would not.

Each main topic area will include bibliographic information about the work, including but not limited to title, author/director, publisher/distributor, and copyright date. Following this will be a detailed description/synopsis of the work with an emphasis on how insects are involved.

Sections of the Insectography project will include:

Bibliography: Children's Books

This list will include selected books about fictional insects/spiders/related arthropods written for older children (in general between the ages of 5-12). Because of the extensive number of insect books written for children, this list will be restricted to fictional books that include an insect or insects as the main character/s (i.e. Kelly Katydid learns a life lesson), rather than realistic representations used in teaching human characters or the reader (i.e. learning to count using ladybugs or learning about the life cycle of an aquatic insect in class). The list will not include books below the kindergarten level or books that are non-fictional instructional guides to insects.

Bibliography: Novels (Adult and Young Adult)

This list will include novels (young adult and adult) that involve insects or entomologists. This might include science fiction depictions that have an insect base.

Filmography

This list will include movies and television shows/episodes featuring insect/spider or entomologist related characters or insects as a main part of the plot. Genres might include

science fiction, sitcoms, animation, etc. but will not include nature programs or other non-fictional depictions.

Video Games

This section will list video games that are about or include insects...both those used strictly for entertainment purposes and those for education. Games in this list will be those that are full length, commercially available and available either free or sold as downloads or physical CDs. They may be developed by universities or other educational institutions, individuals, or companies.

Strategy

The Insectography will be listed alphabetically by type (Bibliography, Filmography, Video Games), subdivided by "Entertainment" or "Educational" where applicable, and finally by author/title, depending on the resource.

To compile the lists, I will search through various online and print resources, including movie and book databases, Amazon.com, Barnes and Noble, Netflix, library lists (such as bibliographies and filmographies), etc. I will also be able to include books, films, TV shows, and games I have personally seen and reviewed, and possibly interview or consult with librarians, teachers, or bibliographers.

A proposed timeline for this project is to begin summer 2012 and complete by summer 2013.

Background

As someone who has a library background (received my MLIS in 1996), I have always enjoyed bibliographical information. Also having an interest in entomology, I thought it would be fun to pull together a list of pop culture references about insects found in fiction. Being insects are the most diverse animals on this planet, it's also fun to see how they are portrayed (realistically, as monster mutants, or anthropomorphically!) in various media.

Additionally, after creating the Pest Private Eye video game to teach youth about pests and integrated pest management, I began to wonder what all materials about insects were available for children and thought this might be worth exploring.

Although there are numerous small bibliographies of films or books about insects, there does not appear to be a full pop culture list that incorporates all of these media comprehensively within the timeframe of 1950-2012. It is my hope to fill that gap in the literature by offering such a list as a reference to others in the field (or anyone who is interested!)

Outcomes and Future Directions

My hope with this project is to offer a list of insect/entomologist fictional works in one document that will be beneficial to others in the field or the general public. The bibliographic data will provide readers with the references they need to access books, films/TV shows, and video games quickly. It will also increase awareness and publicize some works that may be more obscure or less well known and present them to the public so they can be enjoyed. For parents or teachers, this list will give a good starting point for resources to introduce insects in a fun way.

The portfolio will include the comprehensive Insectography list and perhaps a few “hard copy” examples of materials (i.e. Pest Private Eye Video game). In order to make it readily available to the public, I propose posting it on the UNL Entomology Departmental or similar website after completion. This format would allow direct links to where items can be viewed or purchased (i.e. Amazon, Barnes and Noble, Netflix, etc.), and photographs of the resources could possibly accompany each entry. These additions would greatly enhance the usability of the list.

This project has the potential for further expansion in the future. Additions might include pre 1950 and post 2012 titles, titles geared toward pre-kindergarten age groups, and foreign titles. A comprehensive list of non-fictional works about entomology would also be beneficial to both scientists and the public.

Master’s Project: Insectography: Insects in the World of Fiction

By Erin Bauer

The following bibliography/filmography lists works of fiction (movies, books, video games, TV shows, and other related media) from 1950-2012 that feature insects or entomologists as major characters or plot points. References at the end include locations where these titles may be found for purchase or rental (Amazon.com, Netflix, etc.), and resources I consulted during my research for this project.

Table of Contents

Filmography

- Movies.....5
- TV Episodes, Series, and Movies.....10

Bibliography

- Adult Novels.....14
- Young Adult Novels.....19
- Children’s Fictional Books (ages 5-12)23
- Children/Young Adult Book Series.....51

Miscellaneous other Works

- Video Games.....58
- Cartoons/Comic Strips.....59

Final Comments.....62

Movies

The following movies range from B sci-fi insect mutant films from the 1950's to more recent animated or post-apocalyptic features. The majority of these are meant for a teenage-adult audience, but a few animated movies are appropriate for children (if the latter, this is noted in the citation). Some involve anthropomorphized insect characters, others pit man against beast when entomologists or scientists deal with experiments gone wrong or natural disasters where insects have the upper hand. The list is organized alphabetically by director/s, and each entry includes a synopsis of the plot.

Allen, I. (Director). (1978). [*The Swarm*](#) [Motion picture]. United States: Warner Brothers.

Synopsis: Invading killer bees wreak havoc on the citizens of North America.

Armstrong, R.K. (Director). (1997). [*Bugged*](#) [Motion picture]. United States: Troma Team Video.

Synopsis: Exterminators Dave and Steve fight gigantic insects that have a taste for humans!

Arnold, J. (Director). (1955). [*Tarantula*](#) [Motion picture]. United States: Universal Pictures.

Synopsis: Disaster strikes when scientist Leo Carroll accidentally creates a monster spider that wreaks havoc on the human population.

Baker, R.W. (Director). (1950). [*Highly Dangerous*](#) [Motion picture]. United States: Lippert Pictures.

Synopsis: British Secret Service agent Frances and American Bill must investigate an East European country where allegedly insects are being used to develop germ-warfare.

Bass, S. (Director). (1974). [*Phase IV*](#) [Motion picture]. United States: Paramount Pictures.

Synopsis: After a cosmic event in the desert town of Paradise city, super intelligent, well organized ants begin building vast structures and communicating in a way never seen before. Scientists Ernest Hubbs and James Lesko are called to investigate this strange new behavior.

Brandon, C. (Director). (1994). [*Skeeter*](#) [Motion Picture]. United States: Image Entertainment.

Synopsis: A young couple, in the small town of Mesquite, discovers that toxic waste has created a new species of mosquito intent on destroying mankind.

Cardos, J. (Director). (1977). [*Kingdom of the Spiders*](#) [Motion picture]. United States: Dimension Pictures.

Synopsis: A veterinarian and entomologist try to save a town infested by spiders.

Corman, R. & Hill, J. (Director). (1960). [*Wasp Woman*](#) [Motion picture]. United States: The Filmgroup.

Synopsis: Janice Starlin, an aging cosmetics company owner, transforms into a giant wasp after taking a youth rejuvenating potion.

Crane, K.G. (Director). (1958). [*Monster from Green Hell*](#) [Motion picture]. United States: Distributors Corporation of America.

Synopsis: When a rocket containing a wasp's nest crashes, the wasps are exposed to radiation from space, and they are transformed into hungry mutant monsters with a taste for human flesh.

Cronenberg, D. (Director). (1986). [The Fly](#) [Motion picture]. United States: Twentieth Century Fox Film Corporation.

Synopsis: Remake of the 1958 film. Scientist Seth Brundle has discovered how to transport living matter. Thinking he has perfected the experiment, he tries it himself, unaware that a fly has entered the chamber with him. Now he must deal with the consequences of a fly/human mutation.

Darnell, E. & Johnson, T. (Directors). (1999). [Antz](#) [Motion picture]. United States: Dreamworks.

Synopsis: A lowly worker ant, Z, switches places with his soldier friend in order to be closer to his new love, the princess of the colony. Z must also squash the plans of a scheming general who wishes to annihilate the worker ants.

Note: Animated; Children

Davis, J. (Director, Producer, Writer). (2006). [The Ant Bully](#) [Motion picture]. United States: Warner Home Video.

Synopsis: Bullied Lucas takes out his frustration on an ant hill, but the ants fight back and shrink Lucas down to ant-size. Now Lucas must learn to live like an insect and appreciate the value of the microscopic world and its inhabitants.

Note: Animated; Children

Del Toro, G. (Director). (1997). [Mimic](#) [Motion picture]. United States: Dimension.

Synopsis: After creating "short-lived" and sterile genetically altered insects to control the disease ridden cockroaches beneath the city, entomologist Susan Tyler and her husband discover that their "Judas" breed has not only continued to thrive, but evolved.

Douglas, G. (Director). (1954). [Them](#) [Motion picture]. United States: Warner Brothers Pictures.

Synopsis: After being exposed to radiation during a bomb tests, ants are transformed into giant monsters intent on wreaking havoc on a town and its inhabitants.

Elkayem, E. (Director). (2002). [Eight Legged Freaks](#) [Motion picture]. United States: Warner Brothers Pictures.

Synopsis: A chemical spill in a small Arizona town turns spiders into giant mutants.

Elkayem, E. (Director). (2000) [Creepy Crawlers](#) [Motion picture]. United States: 20th Century Fox.

Synopsis: Dr. Cahill's island vacation doesn't go quiet as expected when the island is overrun by biting, parasitic cockroaches. With the help of the local sheriff, Cahill must find out what's causing the infestation and how to stop it.

Francis, F. (Director). (1967). [The Deadly Bees](#) [Motion picture]. United States: Paramount Pictures.

Synopsis: A British pop singer meets a mad scientist breeding deadly bees.

Friedkin, W. (Director). (2006). [*Bug*](#) [Motion picture]. United States: Lionsgate.

Synopsis: Agnes has recently escaped her abusive husband and moves to a sleazy motel to hide out. Her friend introduces her to Peter, and a short romance ensues. When they are faced with a horrifying insect infestation, Agnes questions what is real and what is imaginary.

Gordon, B.I. (Director). (1957). [*Beginning of the End*](#) [Motion picture]. United States: Republic Pictures.

Synopsis: A reporter and scientist investigate the devastation of a small Illinois town being overrun by giant grasshoppers. And now they are on their way to Chicago!

Gordon, B.I. (Director). (1977). [*Empire of the Ants*](#) [Motion picture]. United States: American International Pictures.

Synopsis: Phony realtor Marilyn tries to sell property on a Florida island, but she is unaware it is overrun with giant ants.

Gordon, B.I. (Director). (1976). [*Food of the Gods*](#) [Motion picture]. United States: American International Pictures.

Synopsis: When farmers feed toxic goo to their chickens to increase their size, inevitably the fowl aren't the only animals to become mutated. The farmers and scientist soon discover it's not a good idea to mess with nature.

Haas, P. (Director). (1995). [*Angels and Insects*](#) [Motion picture]. United States: Samuel Goldwyn Company.

Synopsis: This Victorian costume drama follows explorer William Adamson as he studies, then writes about an ant colony he is observing while trying to make it through his own life challenges.

Haskon, B. (Director). (1954). [*The Naked Jungle*](#) [Motion picture]. United States: Paramount Pictures.

Synopsis: "Mail order" newlyweds Christopher and Joanna must put aside their differences when Christopher's South American jungle plantation is threatened by a horde of ferocious ants that will destroy anything in their path.

Jones, G. (Director). (1995). [*Mosquito*](#) [Motion picture]. United States: Acme Films, Ltd.

Synopsis: After a UFO crashes into swampland and introduces alien blood to the mosquito population, mutated monsters emerge with a great lust for human blood.

Juran, N. (Director). (1957). [*Deadly Mantis*](#) [Motion picture]. United States: Universal Pictures.

Synopsis: A giant mantis recently thawed from a glacier is ready for some prey!

Lasseter, J. & Stanton, A. (Directors). (1998). [*A Bug's Life*](#) [Motion picture]. United States: Buena Vista Pictures.

Synopsis: Flik, an ant whose home is being threatened by cruel grasshoppers, uses determination and friendship to help him save the day.

Note: Animated; Children

Lehmann, M. (Director). (1990). [*Meet the Applegates*](#) [Motion picture]. United States: Triton Pictures.
Synopsis: A family of giant praying mantis-like insects disguise themselves as humans and moves from the jungle to suburbia.

Ludwig, E. (Director). (1957). [*The Black Scorpion*](#) [Motion picture]. United States: Warner Brothers Pictures.

Synopsis: Giant scorpions emerge after a volcanic eruption.

Manus, P. (Director). (2008). [*The Hive*](#) [Motion picture]. United States: RHI Entertainment.

Synopsis: Entomologists investigate a nest of 200 million ferocious army ants in the Brazilian forest that eat everything in their path, and appear to have nefarious plans.

Marshall, F. (Director). (1990). [*Arachnophobia*](#) [Motion picture]. United States: Buena Vista Pictures.

Synopsis: After a rare Venezuelan spider is accidentally shipped to a small U.S. town, a new doctor suspects his patients are dying from spider bites. But his arachnophobia makes his case a hard sell.

McDonagh, K. & Fallows, M. (Directors). (2004). [*Miss Spider's Sunny Patch Kids*](#) [Motion picture]. United States: MGM.

Synopsis: Miss Spider and her husband Holley have just been blessed with 5 spiderlings, and they inevitably end up going on some adventures after one child wants to reunite a chicken egg with its mother.

Note: Animated; Children

Neumann, K. (Director). (1958). [*The Fly*](#) [Motion picture]. United States: 20th Century Fox.

Synopsis: A scientist experimenting with teleportation accidentally transports a fly in the chamber with him and emerges as a mutant fly/man hybrid.

Payson, J. (Director). (1996). [*Joe's Apartment*](#) [Motion picture]. United States: Warner Brothers Pictures.

Synopsis: Iowan Joe needs a cheap apartment when he moves to New York, but gets more than he bargained for when he finds out he shares his new home with thousands of friendly talking cockroaches.

Pool, L. (Director). (2004). [*The Blue Butterfly*](#) [Motion picture]. United States: Porchlight Entertainment.

Synopsis: Entomologist Alan Osborn agrees to fulfill a dying boy's last wish...to capture a Blue Morpho butterfly. They travel to South America in search of the insect, learning about each other and the ways of nature during their unusual but unforgettable journey.

Randel, T. (Director). (1993) [*Infested*](#) [Motion picture]. United States: Republican Pictures Home Video.

Synopsis: Killer insects eat their hosts from the inside out.

Rankin, K. (Director). (2009). [*Infestation*](#) [Motion picture]. United States: Heavy Duty Entertainment.

Synopsis: Cooper wakes up to find himself entangled in a cocoon made by man-eating insects. Saving himself and others around him, he gathers a small force to fight the invasion.

Sholder, J. (Director). (2001). [Arachnid](#) [Motion picture]. United States: Lions Gate Films.

Synopsis: Scientists investigate the cause of mysterious bites a local man received on a South Pacific island near Guam. When their plane crashes, they discover large, mutated spiders that kill humans with their bite are residents of the island.

Smith, S.J. & Hickner, S. (Directors). (2007). [Bee Movie](#) [Motion picture]. United States: Dreamworks.

Synopsis: Barry B. Benson is a new college graduate, but finds making honey is his only career option. Flying into New York to find pollen, he is befriended by florist Vanessa. Through her he discovers that mankind uses bees to produce honey for itself, and decides to sue.

Note: Animated; Children

Stasson, B. (Director). (2008). [Fly Me to the Moon](#) [Motion picture]. United States: K2 Communications.

Synopsis: In the 1960's, three young flies want reach the moon, and hitch a ride aboard Apollo 11 to get there.

Note: Animated; Children

Verhoeven, P. (Director). (1997). [Starship Troopers](#) [Motion picture]. United States: TriStar Pictures.

Synopsis: In the future, young people are urged to help save mankind by joining the military and fighting in a war with alien insects.

Winning, D. (Director). (2007). [Black Swarm](#) [Motion picture]. United States: Hallmark Entertainment.

Synopsis: A deputy, her daughter, and several scientists fight to destroy a swarm of genetically engineered wasps that were developed as a military weapon.

Wynorski, J. (Director). (1995). [Wasp Woman](#) [Motion picture]. United States: New Horizons Home Video.

Synopsis: Remake of the 1960 film about a woman who turns into a giant wasp after using a scientist's secret formula.

TV Episodes, Series, and Movies

The following lists television series, TV show episodes, or made-for-TV movies that are about or feature insects or entomologists. They include genres such as cartoons, sitcoms, and science fiction. All are for entertainment, rather than educational.

TV Episodes:

Carter, C. (Writer) & Napolitano, J. (Director). (1994). [Darkness Falls](#). [Television series episode]. In C. Carter (Producer), *The X-files*. Los Angeles: Fox Broadcasting Company.

Synopsis: FBI agents Dana Scully and Fox Mulder visit a forest where loggers have been disappearing. They find a body wrapped in what looks like an insect cocoon and while staying in a cabin in the area, discover a swarm of green bugs that come out every night to attack any living thing.

Chapelle, J. (Director). (2011). [Immortality](#) [Television series episode]. In J.J. Abrams, *Fringe*. Los Angeles: Fox Broadcasting Company.

Synopsis: In an alternate universe, the Fringe team investigates and tries to stop an entomologist whose research with a new insect now requires him to feed it human flesh.

Craig, C. G. (Producer). (2008). [Show Me the Mummy](#) [Television series episode]. In A. Cosby & J Paglia (Creators), *Eureka*. New York: SyFy Channel.

Synopsis: A mummy full of insects infests the small town of Eureka, OR.

Kane, A. (Director). (2008). [Bzzzzzz!](#) [Television series episode]. In B. Fuller (Creator), *Pushing Daisies*. New York: American Broadcasting Company.

Synopsis: After a spokesperson of a honey-using cosmetics company is stung to death, Chuck disguises herself as the new “Bee Girl” to get to the bottom of things.

Morgan, G., Wong, J. (Writers), & Nutter, D. (Director). (1993). [Ice](#) [Television series episode]. In C. Carter (Producer), *The X-files*. Los Angeles: Fox Broadcasting Company.

Synopsis: FBI agents Dana Scully and Fox Mulder visit the arctic with three other scientists and encounter an alien worm that uses humans and animals as its host.

Morgan, D. (Writer) and Manners, K. (Director). (1996). [War of the Coprophages](#). [Television series episode]. In C. Carter (Producer), *The X-files*. Los Angeles: Fox Broadcasting Company.

Synopsis: FBI agents Fox Mulder and Dana Scully investigate deaths in a small town, which are seemingly caused by killer cockroaches.

Nave, R. (Writer), Coakley, B. (Writer), & Manners, K. (Director). (2005). [Bugs](#) [Television series episode]. In E. Kripke (Producer), *Supernatural*. Burbank: CW.

Synopsis: Brothers Sam and Dean Winchester, supernatural hunters, travel to Oklahoma to investigate insect related deaths.

Reynolds, J. (Writer), & Cendrowski, M. (Director). (2009). [The Jiminy Conjecture](#) [Television series episode]. In C. Lorre & B. Prady (Producers), *The Big Bang Theory*. Los Angeles: CBS Broadcasting, Inc.
Synopsis: Nerds Sheldon Cooper and Howard Wolowitz hear a cricket chirping in their apartment and argue over what species it is (a snowy tree cricket or a field cricket). After making a bet over a prized comic book, they capture the cricket and bring it to an eccentric Cal Tech entomologist for identification.

Vlaming, J. (Writer), & Rohl, M. (Director). (2007). [All Mine](#) [Television series episode]. In M. Fazekas & T. Butters (Creators), *Reaper*. Burbank: CW.
Synopsis: Cockroaches and bees abound in this episode where Sam and his friends must send a soul back to hell using a toaster.

Woeste, P.F. (2003). Sight Unseen [Television series episode]. In B. Wright & J. Glassner (Creators), *Stargate SG-1*. New York: SyFy Channel.
Synopsis: The SG-1 team comes back to Earth and begin to see giant bugs that phase in and out of sight.

TV Series

Krofft, M. & Krofft, S. (Producers). (1970). [Bugaloos](#) [Television series]. Los Angeles: Rhino Theatrical.
Synopsis: This children's series followed the adventures of four teenage insect musicians in Tranquility Forest and their nemesis, Benita Bizarre.

Polsky, D. (Executive Producer). (2005). [Disney's The Buzz on Maggie](#) [Television series]. Glendale: Walt Disney Television Animation.
Synopsis: This cartoon follows the adventures of a young fly and her family.

Zuiker, A. E. & Bruckheimer J. (Executive Producers). (2000). [CSI: Crime Scene Investigation](#) [Television series]. Los Angeles: CBS Broadcasting, Inc.
Synopsis: Entomologist Gil Grissom and his Crime Scene Investigation team solve Las Vegas murders. Using forensic techniques such as the timing of insect colonization to predict time of death, the investigators gather clues that lead to killers.

Made-For-TV Movies

Hagmann, S. (Director). (1977). [Tarantulas: The Deadly Cargo](#) [Motion picture]. United States: Direct Source Label.
Synopsis: A plane flying from South America crashes and releases hitchhiking venomous tarantulas onto an unsuspecting California town. After several deaths occur from the spiders, law enforcement and citizens must work to fight the infestation, including an invasion of the town's important orange-production factory.

Gilmour, I. (Director). (2005). [*Locusts: The 8th Plague*](#) (Sci Fi Essentials) [Motion picture]. United States: Image Entertainment.

Synopsis: Don't walk, run! A secret government lab has produced genetically altered locust that are ready to ravage the Earth.

Jackson, D. (Director). (2005). [*Locusts*](#) [Motion picture]. United States: VZS Productions.

Synopsis: A USDA scientist investigates a swarm of genetically engineered grasshoppers that are destroying everything in their path.

Perez, J. (Director). (2005). [*Monster Island*](#) [Motion picture]. United States: First Look Pictures.

Synopsis: Six friends find themselves trapped on an island with nightmarish creatures and only an MTV crew is there to protect them. Plus, they must find Carmen Electra!

Sheerer, R. (Director). (1977). [*Ants*](#) [Motion picture]. United States: Direct Source Label.

Synopsis: The world is in danger when insects lash out against us!

Winsor, T. (Director). (2007). [*In the Spider's Web*](#) [Motion picture]. United States: Rhi Entertainment.

Synopsis: A group of American hikers are visiting Bolivia when one of their friends is bitten by a venomous spider. Seeking out an American doctor who is living with one of the tribes, the girl is treated, but the doctor is hiding something and the group's encounters with spiders are far from over.

Books

This bibliography includes books subdivided into novels (adult and young adult), children's books, and children's/young adult series. Novels listed may feature insects or entomologists (professionals or amateurs!), as a main part of the plot.

Because of the extensive number of children's books about insects, this bibliography is limited to works that involve an insect as a main character, learning life lessons or something about their world (i.e. Katy Katydid learns about friendship). It does not include fictionalized accounts of real-world skills, such as using insects to learn how to count or alphabetize, or showing how a child learns about the life cycle of insects. One thing of note here is that children's fictionalized works aren't always accurate scientifically, but focus more on the moral or adventure of the character. For example, there are many books where worker bee or biting mosquito characters are male, when realistically they would be female.

The children's books included here are in general for school aged children, aged 5 and up. In some cases age ranges may also include younger children, but as long as the older age group is included, the book is on the list (i.e. a book for ages 4-8 would be included, but one for ages 1-4 would not). Recommended age ranges are listed in the citation when this information was available.

This bibliography includes books published in the United States (traditional or self-published) from 1950-2012. Where possible, publication city is included in the citation, but in some cases this isn't available for self-published books or if the book is only available in electronic format.

For purposes of this bibliography, novels must be approximately 100 pages or more in length to accommodate both adult novels, which tend to be longer, and young adult novels. Individual short stories and novellas are not included but a few anthologies may be. Adult novels that may be in a series are also included where applicable.

For series, one title within the series is listed bibliographically and other titles within that series are noted at the end of the citation. In some cases only one book in a series has an entomological focus.

Each title includes an online link to an internet source where you can purchase the work. This may be from Barnes and Noble, Amazon, or other online bookstores. Please note that some linked versions may be reprints as the originals may be out of print, and in some cases, they are electronic only.

Novels:

Adult novels (Ages 15 and up)

Arment, C. (ed.) (2008). [*Invertebrata Enigmatica: Giant Spiders, Dangerous Insects, and Other Strange Invertebrates in Classic Science Fiction and Fantasy*](#). Landisville, PA: Coachwhip Publications.

Synopsis: A collection of science fiction/fantasy short stories about odd and unusual insects and their interaction with man.

Baum, S. (2009). [*The Demon Queen and the Locksmith*](#). North Charleston, SC: CreateSpace Independent Publishing Platform.

Synopsis: Kevin begins high school on a strange note; he gets superpowers and follows a butterfly into a strange world.

Bloom, B. (2007). [*A Marriage of Insects: A Novel of World Tree*](#). Farmingdale, NY: Padwolf Publishing Inc.

Synopsis: Rajel and her spouses experience insect marital trials and errors.

Carter, D.V. (2007). [*The Hand of the Devil*](#). New York, NY: Random House Children's Books.

Synopsis: A journalist travels to Aries Island after receiving a letter about a rare mosquito, the Ganges Red. What he finds is a nightmarish insect and the collector who is studying it.

Cordiner, R.G. (2010). [*Bug Island*](#). North Charleston, SC: CreateSpace Independent Publishing Platform.

Synopsis: Survivors from a shipwrecked South American cruise must learn to live on an island with giant insects.

Crichton, M. and Preston, R. (2011). [*Micro: A Novel*](#). New York, NY: Harpercollins Publishers.

Synopsis: A group of graduate science students, including an entomologist and arachnologist, are shrunk to a half inch in size and enter the unique and dangerous world of microorganisms and insects.

Cuce, T.A. & Brand-Stories, R. (2011). [*PeeDee3, Intergalactic, Insectiod, Assassin in: Another Time Perhaps*](#). Tricorner Publishing.

Synopsis: PeeDee3 the bug must capture a time jumper. The challenge---bringing back at least part of the body instead of just disintegrating it!

Note: Other titles in this series: [*Gut Feeling*](#), [*Fafafalala and Dosido My Eggplant*](#), [*The Pachydwerp in the Room*](#), [*In Sheep's Clothing*](#), and [*Chase Seen Seven*](#).

Downs, T. (2003). [*Shoofly Pie*](#). Bug Man Series. New York, NY: Howard Books.

Synopsis: When forensic entomologist Nick Polchak helps an insect phobic client solve a case about her friend's death, he steps into a mystery about the death of his client's husband.

Note: Other books in this series: [*Nick of Time*](#), and [*First the Dead*](#)

Ellis, G.W. (2011). [*Hatchings*](#). Los Gatos, CA: Smashwords.

Synopsis: Jason Carter experiences tragedy when loved ones are killed by venomous centipedes and his town is destroyed by giant ants. Now he must fight against those who have created this ecological disaster.

Estrin, M. (2005). [*Insect Dreams: The Half Life of Gregor Samsa*](#). Lakewood, CO: Unbridled Books.

Synopsis: Inspired by Franz Kafka's early 20th century novella, *Metamorphosis*, *Insect Dreams* explores what happens when the Samsa family's chambermaid sells Gregor Samsa, a salesman who's been transformed into a cockroach, to a carnival.

Farley, R. (2008). [*Thripz*](#). North Charleston, SC: CreateSpace Independent Publishing Platform.

Synopsis: Reporter Nathan Brewster discovers an island where biogenetically altered thrips are resistant to pesticide and have increased reproductive capabilities. Together with others on the island, he must try to stop the thrips that are killing people and wreaking havoc in the community.

Fear, B. (2008). [*A Macabre Myth of Moth-man*](#). Bloomington, IN: Authorhouse.

Synopsis: Moth, a half-moth mutant, has been used as a science experiment, and now wants revenge. Nina, a barmaid pulled into helping out with a documentary about "Moth-man" soon learns that he's not just a myth.

Frontiera, D. K. (2000). [*Chronicles of Henry Roach Dairier*](#). Bloomington, IN: iUniverse, Inc.

Synopsis: Large ants and roaches have taken over the world and created complex civilizations. But like any species, they are dependent on certain resources, in this case, plastic left over from the ruins of the extinct Duo-Pods. Henry must help convince his fellow citizens that they must work and live together if they hope to avoid extinction like the Duo-Pods.

Note: This is a series. Other titles include: [*To Build a Tunnel*](#), [*New South Dairy Colony 50*](#), and [*The Re-creation of Roacheria*](#),

Girard, P.T. (2001). [*The Seventh Sister*](#). Five Star.

Synopsis: Lady Margaret's family wants to see her married, but she's more interested in insects than a husband.

Zollman, P. (2001). [*Don't Bug Me!*](#) New York, NY: Holiday House, Inc.

Ages: 9-11

Synopsis: Megan has a hard time when she needs to collect insects for her sixth-grade project.

Children's Fictional Books

Children's fiction books often have an educational scope as well as being entertaining. Because I am not including books that have to do with learning a skill (such as counting, alphabet, etc.), "Educational" here can be defined as an insect character learning or teaching about a life process (metamorphosis) or a life lesson (i.e. friendship or self-esteem). In my research I have found that most all of these books fit within this definition. However, there are also a few which involve a character's adventure or fun experience (i.e. solving a mystery, saving the day, going on vacation). In cases where the book has this latter element instead of or in addition to a moral lesson, I have marked it as being "Entertaining." Note also that age ranges are listed where they were available from the sources consulted.

Adams, M. & Gonzalez, J. (2004). [*Slinkie the Courageous Snail*](#). Bloomington, IN: Authorhouse.

Ages: 9-12

Synopsis: A young snail gets lost in the woods after entering a race to be the fastest snail.

Agra Deedy, C. (2008). [*Martina the Beautiful Cockroach*](#). Austin, M. (Illus.). Atlanta, GA: Peachtree Publishers

Ages 4-8; Entertaining

Synopsis: Martina the cockroach learns about love, marriage, and...coffee.

Alemagna, B. (2009). [*Bugs in a Blanket*](#) . New York, NY: Phaidon Press.

Ages: 1-9

Synopsis: Little fat bug has never met the other bugs who share her blanket. They all live in separate holes, but little fat bug decides to invite them all to her birthday party. Here the insects discover that no one looks the same, and are shocked and offended by it. Eventually they learn about tolerance and acceptance of those who are different, and gain an appreciation for diversity.

Alice, K. (2010). [*Hangin' with Timmy and Spinner*](#). Mustang, OK: Tate Publishing & Enterprises, Inc.

Synopsis: Spinner the spider teaches Timmy yo-yo tricks, increasing his confidence.

Amarel, C. (2010). [*Gary Grasshopper Hops Again!*](#) Debnath, S. (Illus.). Milwaukee, WI: Mirror Publishing.

Ages: 3-8

Synopsis: Gary hops a lot because he's happy, but when his best friend moves away, can he get his legs moving again?

Applefield, A. (2002). [*The Beetle and the Berry*](#). Sausalito, CA: E & E Publishing.

Ages: 4-8; Entertaining

Synopsis: A little beetle ponders how to get a berry back home.

Arena, F. (2008). [*Sally and Dave. A Slug Story*](#). La Jolla, CA: Kane/Miller Book Pub.

Ages: 4-8; Entertaining

Synopsis: Sally is a slim slug and her neighbor Dave is fat. She likes to remind him of how common he is, until Sally's life is in danger and Dave is the one to save her.

Arkhurst, J.C. & Pinkney, J. (1992). [*The Adventures of Spider*](#). New York, NY: Little, Brown Books for Young Readers.

Ages: 8 and up; Entertaining

Synopsis: How did spider get a thin waist or bald head? This story will tell you!

Arnold, C. (2007). [*Wiggle and Waggle*](#). Peterson, M. (Illus.). Watertown, MA: Charlesbridge Publishing.

Ages: 5-8; Entertaining

Synopsis: Wiggle and Waggle are two worms who enjoy having fun!

Asch, F. (1995). [*Insects from Outer Space*](#). Vagin, F. (Illus.). New York, NY: Scholastic, Inc.

Ages: 4-8; Entertaining

Synopsis: Earth bugs are surprised when alien insects land during the Bug Ball. Will they welcome the new visitors?

Ashley, P. & Wood, J. (ill). (2010). [*Have you Ever Been Hugged by a Spider?*](#) Wood, J. (Illus.). North Charleston, SC: CreateSpace Independent Publishing Platform.

Synopsis: Let the spider and her friends show you some of their secrets!

Atamer, B. (2011). [*Jeremy Finds the Rainbow*](#). Debroeck, S. (Illus.). Frederick, MD: PublishAmerica, Inc.

Synopsis: Jeremy the ant discovers the story of Noah's Ark.

Babic, J. (2011). [*Eddie's Travels*](#). Schillgalies, A. (Illus.). Frederick, MD: PublishAmerica, Inc.

Synopsis: Eddie, a compost worm, gets lost. As he slowly finds his way back home again, he meets new friends and learns more about composting.

Baca Haque, M. & du Houx, E. (2003). [*Madalynn the Monarch Butterfly and her Quest to Micoacan*](#). Lancaster-Jones, F. (Illus.). Solon, ME: Polar Bear & Company.

Ages: 6 and up; Entertaining

Synopsis: Madalynn meets friendly birds on her migration to Mexico.

Bach-Davis, S. (2011). [*The Story of Ms. Polka Dots*](#). Parker, CO: Brave Art Press.

Synopsis: Ms. Polka Dots, a ladybug, finds herself in a lot of trouble, and she'll need friends to help her get out of it.

Ages: 3-7; Entertaining

Synopsis: Insects greet each other and have a party to celebrate the coming of spring.

Children/Young Adult Book Series

Titles listed in this section include books that belong to a series, either 2 or more books with the same characters by the same author, or a set of books by different authors that follow a similar theme or feature the same characters. A bibliographical example is given for one book in each series, followed by a list of other titles in the series (if applicable or if the other books within the series are entomology related).

Like the adult and young adult novels listed in this document, the majority of these series are for Entertainment (whereas many stand- alone children’s books are educational even if they are also entertaining) If a series book is deemed to have an educational focus, this is noted.

Arnold, T. (2012). [*Fly Guy Complete Collection Series Set Books 1-11*](#). New York, NY: Scholastic, Inc.

Note: There is an online version of this game that can be accessed [here](#).

Cartoons/Comic strips

Many published cartoons or comic strips have featured insects or entomologists over the years. Two of the better known and popular strips that have frequently used insects as subjects include Gary Larson's *The Far Side* and Mark Parisi's *Off the Mark*. Individual cartoons will not be listed here, but you can find a comprehensive list at the following locations:

Parisi, M. *Off the Mark*. <http://www.offthemark.com/cartoons/insects/> (accessed Aug 8, 2012)

Shockley, F.W., 2012. Diversity, Phenology, and Natural History of Insects and Other Arthropods in *The Far Side* by Gary Larson. *American Entomologist*, 58: 74-77.

Tom Weissling, Entomology Department Distance Ed Coordinator

Final Comments:

It is my hope that this bibliography/filmography will be of interest and benefit to other entomologists as well as the general public. Anyone with a strong desire to see films or read books about insects should find a lot of choice here! In addition, one of the biggest surprises I had during the course of this project was finding how often insects are featured in children's literature. Insect characters make great protagonists for teaching life lessons!

A possible future direction/expansion for this project would be to increase accessibility to others by posting it to the UNL Entomology Departmental or similar website. Then perhaps promotion through ESA, other entomological organizations, and public libraries would increase awareness of its existence. Finally, after the tool is available to a wide audience, it would be useful to collect data from the community by developing a survey that measures its impact.

This project is a snapshot in time. Our popular culture and media is ever changing, and as such, there are many additions/expansions that could be made to this project in the future. These might include extending the range of publication years (pre-1950 and post 2012, once this occurs), titles targeted toward pre-school groups or skills (i.e. counting, alphabetizing, etc.), and foreign titles. A non-fictional list of works about entomology would also be beneficial to both scientists and the public. I would certainly enjoy seeing such publications!
