Envelopes addressed to victims postmarked Chicago, Illinois, 2/1/66 and 2/4/66, return address of [REDACTED] Lawrence Hotel, [REDACTED] 4727 North Malden, Chicago, Illinois, and YWCA Hotel, 826 South Wabash Avenue, Chicago, Illinois, and letters to victims, handprinted and handwritten.

Enclosed for Chicago and Milwaukee are one xerox copy each of above letters dated 2/22/66 and 2/24/66, Milwaukee, Wisconsin, addressed to the Los Angeles Office.

The FBI Laboratory is requested to compare handwriting of letters addressed to victims from [REDACTED] (a suspect in this case). It is requested handwriting in letters written by [REDACTED] be compared with the Anonymous Letter File and with the anonymous letter dated 2/12/66 furnished the FBI Laboratory in referenced Los Angeles airtel, to determine if subject in this case is identical with suspect [REDACTED].

The above letters written by [REDACTED] were furnished this office by [REDACTED] Los Angeles on 2/28/66. The above two letters postmarked Milwaukee, Wisconsin were received by the Los Angeles FBI Office on 2/28/66. It is noted that a carbon copy of the letter dated 2/24/66 was received by the Los Angeles FBI Office in letter addressed to this office, postmarked 2/25/66. This letter is not being furnished the FBI Laboratory since it is obviously a carbon copy of letter dated 2/24/66 (Envelope postmarked Milwaukee, 2/24/66). It would appear that [REDACTED] is a fan of victims and possibly has mental problems.

The Chicago and Milwaukee Offices are requested to review indices for any information identifiable with a [REDACTED] and a [REDACTED].

The LAPD has been furnished with pertinent information in this case.

The Bureau and interested offices will be immediately advised upon receipt of additional pertinent information.

Result of examination:

The Anonymous Letter File disclosed no specimen identifiable with Qc1 through Qc7 and Kc1 through Kc7. Representative photographic portions of this material are being added to this file for future reference.

The writer or writers of the hand printing designated Kc1 through Kc7 wrote the hand printings on page one of Qc5 and the hand printing on the specimen numbered Qc6. There are too few significant differences to determine whether the hand printed portion of Qc2 was or was not written by the writer or writers of Kc1 through Kc7. Inasmuch as hand printing is not comparable with script handwriting, no conclusion was reached concerning whether the writer or writers of the hand printings may or may not have written the script handwritings.

The script handwritings designated Qc1 through Qc4 were written by one person. Due to too many unexplained variations, it was not possible to determine whether the script handwritings on page one of Qc5, page two of Qc5 or Qc7 and Kc2 were or were not written by the same person. However, a few handwriting peculiarities were noted in the script handwritings on page two of Qc5, Qc7 and Kc2 indicating this material may have been written by one person. The

different style of writings on Qc1 through Qc4 indicates the writings of a person not involved in writing the script hand-writings appearing on other specimens in this case.

The material submitted is retained.
