This Presentation is brought to you for free and open access by the Discipline-Based Education Research Group at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in DBER Speaker Series by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

Abstract for DBER Group Discussion on 2015-02-19

Presenter(s), Department(s):

Lorna M. Dawes

Assistant Professor

First-Year Experience and Learning Communities Librarian

University of Nebraska-Lincoln

Title:

The New Library: An Integrated Service Model

Abstract:

The constantly evolving digital technologies have introduced exciting possibilities for library services while introducing new challenges for libraries in our contemporary academic environment. The UNL library system has sought to keep up with the demands of new technology, while retaining some of the core values of library services that have always valued focused and specific attention to the needs of its users. This presentation will explore some of the dynamic service possibilities that are becoming parts of our integrated model of service to scholars at our university. These include the Digital Commons, the new data Management Services, the Federal Depository Library Program, our E-Text services and the Foundation Center Grants Database, along with our more traditional services like document delivery, Faculty Workshops and our various collaborative programs with other units of the university. By integrating advanced digital technological skills and traditional service protocols that involve close interaction with our key clients, we are effectively establishing a model for the relevance of the library for the future.

Improved Services and Spaces

Delivery/Interlibrary Loan:

- Free scanning of articles and book chapters from UNL collections.
- 24hr deliver of most items from UNL Libraries.
- Delivery time within 7 business days for most items from other libraries.
- Delivery to UNL Buildings

U-Borrow: Search catalogs and request loans directly from CIC member libraries.

One Button Studio

A simple video recording studio that can create high quality video projects without prior video production knowledge. Reservations can be made through Love Library Media Services Desk on the second floor Link area. More information @ <http://its.unl.edu/onebutton>

Coming in December 2015

Love Library Learning Commons

- Love Coffee- Drinks, Sandwiches vending machines, microwave.
- Answer Bar- Technology and Research help in one place.
- Digital Learning Center-students can participate in computer-aided self study.
- Technology rich individual and group study spaces.

Keep up-to-date @ [Learning Commons Webpage](#)

Increased Support

ASKUS

Workshops & Consultations-Undergraduates

These workshops are offered several times during September/October and February/March from 3-5pm in Love Library Instruction Rooms. Go to [Quick Tips Sessions](#) for the current Schedule. Workshops are also offered for classes or groups on request.

'Quick Tips' Workshops

- How to Read Long Articles-** Gives students strategies that will help them read peer-reviewed research articles.
- Finding the "Good Stuff on the Web"**- Students learn how to find and evaluate information on the web. How to find open sources databases and journals, and how to use Google more efficiently to find relevant sources.
- Save Time & Organize-** Introduces students to 'Citation Management Software' and gives tips on how to organize references and citations.
- Find it Fast and Finish the Paper on Time-** Shows students how to use the library databases and how to identify and find peer-reviewed articles.

Research Coaching

Individual help for students who are having trouble finding the information they need for assignments and projects.

Research Support

Faculty and Graduate Students

Digital Commons@University of Nebraska-Lincoln

This repository is a collaborative service of the University of Nebraska - Lincoln libraries. Faculty, researchers, and students associated with the University of Nebraska-Lincoln are invited to deposit digital materials for long-term preservation and world-wide electronic accessibility. For assistance in depositing documents or for more information regarding the Digital Commons.

Data Management

UNL Libraries provide several services to assist in research data management:

Consultations: Receive guidance on writing data management plans and managing datasets

Workshops: We offer data management workshops throughout the year. Researchers can also request a workshop for their department, students, research team etc.

- An overview of data management
- Locating and evaluating data repositories
- Citing datasets
- File format best practices

UNL Data Repository & Registry: UNL Libraries maintain the UNL Data Repository

@ <https://dataregistry.unl.edu/> where researchers can deposit up to 50GB of data free, for preservation and sharing.

Contact : Jenny Thoegersen | jthoegersen2@unl.edu. More information @ <http://libraries.unl.edu/data-management>
