A BIBLIOGRAPHY ON THE RED-WINGED BLACKBIRD

Following the completion of my doctoral dissertation on the Red-winged Blackbird, I decided to compile a bibliography on the species. This bibliography updates and expands the selected bibliography on Redwings prepared by Mealey and Mitchell in 1966. No effort was made to list the many progress and final reports on various aspects of blackbird research issued by the Bureau of Sport Fisheries and Wildlife. Literature citations follow the Style used in *The Journal of Wildlife Management*.

I would like to thank the Northeast Experiment Station Regional Project (NE-49) and other individuals who contributed to this bibliography. Copies may be obtained from the author. Plans are to update this work every two years. The author would appreciate receiving new as well as old references on the Redwing for inclusion in the next bibliography.
