RECYCLING OPERATING COMMITTEE

The Recycling Operating Committee was formed to give guidance and direction to the Recycling Coordinator. Its primary function is to review both past and future operational aspects of Recycling Services and give input on all items of operations. Examples include the choosing of the desk side bin color, opportunities to educate students and staff and outreach contacts. Outside time requirements are minimal.

The committee consists of but is not limited to Purchasing, Housing, Landscape Services, students, UNOPA, staff and Public Relations. People selected have been by personal contact with those who have shown an interest in the environment. No set terms are established. Meetings are the last Thursday of the month, 1:30 pm, at Business Services and last about 1 hour. Some summer meetings and the Holiday's do limit the number of meetings to about 9 for the year.
