GRADUATE STUDENT NEWS

In April and May, we experienced the annual emergence of elementary school children. As final exams and the department head search also occurred in this period, it took a lot of people and much schedule-juggling to meet the demand. In all, we made presentations to 960 students and 85 parents and teachers who represented 11 different schools. Presentations were made by **Paula Gouveia-Marcon, Fikru Haile, Tom Hunt, Kandy Lytle, Midori Ono, Pari Pachamuthu, Luck Pornkulwat, Terence Spencer, Ramnath Subramanian, Mario Urias, and Tony Weinhold.** Special thanks to **Stephanie Brown and Tom Clark** who made presentations and also scheduled everyone involved.

French Agricultural Research Inc Orders
Those of you who order from French Ag please follow the same ordering procedure used with other vendors:

1. Complete a request form, including company/center and approximate \$ amount.
2. I will return it to you with an assigned PO#.
3. Then you may phone the order in.

By-passing the first two steps has created problems in tracking orders and estimating your expenses. This may help shorten the time between shipping and invoicing.
