The Prairie Naturalist

Volume 49

No. 1

The Journal of the Great Plains Natural Science Society

The Prairie Naturalist

Established in 1969

EDITOR-IN-CHIEF

Christopher N. Jacques, Department of Biological Sciences, Western Illinois University

ACTING ASSISTANT EDITORS

Jonathan A. Jenks, Department of Natural Resource Management, South Dakota State University

Brandi L. Felts, Department of Natural Resource Management, South Dakota State University

ASSOCIATE EDITORS

Brian G. Blackwell, South Dakota Department of Game, Fish and Parks

Jack L. Butler, U.S. Forest Service, Rocky Mountain Research Station

M. Colter Chitwood, Department of Fisheries and Wildlife Sciences, University of Missouri

Sue Fairbanks, Department of Natural Resource Ecology and Management, Oklahoma State University

Dan Fogel, Arts and Science Division, Southeast Community College

Keith Geluso, Department of Biology, University of Nebraska at Kearney

Lawrence D. Igl, Northern Prairie Wildlife Research Center, U.S. Geological Survey

Seán E. Jenkins, Department of Biological Sciences, Western Illinois University

James T. Lamer, Department of Biological Sciences, Western Illinois University

Mark A. Rumble, U.S. Forest Service, Rocky Mountain Research Station

Mark Vrtiska, Nebraska Game and Parks Commission

Melissa R. Wuellner, Department of Natural Resource Management, South Dakota State University

BOOK REVIEW EDITOR

Lawrence D. Igl, Northern Prairie Wildlife Research Center, U.S. Geological Survey

OUTREACH COORDINATOR

Brandi L. Felts, Department of Natural Resource Management, South Dakota State University

THE PRAIRIE NATURALIST is published by The Great Plains Natural Science Society, Box 2140B, NPB 138, Department of Natural Resource Management, South Dakota State University, Brookings, SD 57007. Publishing services provided by Minuteman Press, Sioux Falls, SD. The annual membership rate for The Great Plains Natural Science Society is \$15 for students, \$25 for individuals, \$50 for libraries, and \$250 for lifetime membership, and includes a subscription to *The Prairie Naturalist*. Address all membership and business correspondence to the Assistant Editor, Box 2140B, NPB 138, Department of Natural Resource Management, South Dakota State University, Brookings, SD 57007. Submit manuscripts via email to the Editor-in-Chief using *The Prairie Naturalist* website, <http://www.sdstate.edu/wfs/GPNSS/TPN/index.cfm>.

The Prairie Naturalist

Vol. 49, Issue 1, June 2017

TABLE OF CONTENTS

1	EDITOR'S NOTE	28	Assessing Parturition Date Synchrony for North Dakota Ungulates <i>Eric S. Michel, Jonathan A. Jenks, and William F. Jensen</i>
RESEARCH ARTICLES			
3	Diel and Monthly Movement Rates by Migratory and Resident Female Pronghorn <i>Paul F. Jones, T. Andrew Hurley, Chelsea Jensen, Karl Zimmer, and Andrew Jakes</i>	31	Use of Satellite Trap Transmitters in Capturing Mountain Lions <i>Randy D. Johnson, Jonathan A. Jenks, and Stephanie A. Tucker</i>
13	Pheasant Response to Lead Ingestion <i>Travis J. Runia and Alex J. Solem</i>	37	Long-Term Changes in Canada Goose Nest Success and Nest Densities at an Iowa Wetland Complex <i>Brenna N. Ness, Robert W. Klaver, and Guy G. Zenner</i>
NOTES			
19	Examining the Potential Competitive Effects of <i>Ventemata dubia</i> on Annual and Perennial Grasses <i>Shawn McKay, Lesley R. Morris, Christopher E. Morris, and Elizabeth A. Leger</i>	BOOK REVIEWS	
23	Adult Red-Headed Woodpecker Interaction with Bullsnake After Arboreal Nest Depredation <i>Brittany J. Yohannes and James L. Howitz</i>	41	American Serengeti: The Last Big Animals of the Great Plains <i>Daniel S. Licht</i>
26	Breeding Trumpeter Swans in Northeastern North Dakota <i>Mark R. Fisher, Matthew D. Sprenger, Chris R. Roed, and David O. Lambeth</i>	ERRATUM	
		43	Erratum

The Great Plains Natural Science Society

The Great Plains Natural Science Society, formerly the North Dakota Natural Science Society, was founded in 1967 and seeks to promote interest in and understanding of natural history in the Great Plains, to encourage the conservation of natural resources, and to provide communication among individuals, institutions, and organizations of like interests. The GPNSS actively promotes the study of natural history of the Great Plains region, including geology, plants, birds, mammals, fish, insects, and other forms of life. Together with local, state, and national conservation organizations, the GPNSS fosters natural resource conservation and preservation of outstanding natural areas. The GPNSS publishes *The Prairie Naturalist*, a widely read, peer-reviewed journal which deals with the natural history and environment of the Great Plains region.

The GPNSS is currently composed of a diverse membership, many of whom are professional scientist. Society members have strong interests in sustainable management of Great Plains natural resources and their habitats. Natural history and ecology of the Great Plains is the primary focus and interest of the GPNSS, thus, the primary interests and goals of the Society seeks to promote increased scientific knowledge of the interactions of all Great Plains organisms with their natural environments, enhance professional stewardship of Great Plains natural resources and their habitats, and encourage use of applied research for informing Great Plains natural resource policy decisions.

The GPNSS hosts annual meetings and serves host to symposiums covering a broad spectrum of topics. Located within the Department of Natural Resource Management at South Dakota State University, the GPNSS takes great pride in working with students, staff, and faculty to foster a greater understanding of the natural history and ecology of Northern Great Plains organisms and their biota.

First published in 1969 by the University of North Dakota, *The Prairie Naturalist* has been published by South Dakota State University since 2010 and fills an important role as the avenue of communication of research on the North American grasslands and their biota. Research topics include articles investigating Great Plains community and landscape ecologies, species-specific population dynamics, mammalogy, ornithology, invertebrate zoology, herpetology, ichthyology, botany, animal behavior, infectious diseases, and biostatistics. This journal offers timely technical information for researchers, educators, students, and the interested public. Published quarterly, *The Prairie Naturalist* reaches subscribers throughout the United States and Canada, as well as libraries in Europe and Asia. A portion of each volume is devoted to shorter and less comprehensive communications (notes) and book reviews. Manuscripts containing original material not submitted elsewhere are considered for publication; all are reviewed by specialists in relevant fields.
