It has been accepted for inclusion in Faculty Publications, UNL Libraries by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

## **Cresting toward the Sea Change: Literature Review of Cataloging and Classification, 2009-2010**

### **List of Sources**

Compiled by Sue Ann Gardner, Scholarly Communications Librarian, University of Nebraska-Lincoln  
December 22, 2011

### **Introduction**

This bibliography is meant to accompany the literature review on cataloging and classification covering 2009 and 2010, "Cresting toward the Sea Change," that is published in the April 2012 issue of *Library Resources and Technical Services* (volume 56, number 2). It contains citations to English-language journal articles, books, book chapters, conference papers, manuscripts, newsletter and magazine articles, selected news items, reference sources, text books, dissertations and theses, and one poster. Not cited are book reviews, blogs, blog posts, podcasts, videos, and presentation materials. Many more sources are listed here than were discussed in the literature review.

The citations were gathered by the author and Anna Sophia Cotton. Ms. Cotton performed the initial searches in *Library, Information Science & Technology Abstracts* and in Google, and the author performed additional searches in those sources as well as the *Directory of Open Access Journals*. Keywords used included: cataloging, bibliographical control, information organization, AACR2, RDA, MARC, authority control, classification, DDC, subject heading\*, LCSH, FRBR, metadata, OCLC, WorldCat, and Semantic Web.

The citations are arranged in the same manner as the article, with entries listed under nine broad topic headings (see the list, below). All site addresses included in the citations were viewed and the links correct as of December 16, 2011.

### **Acknowledgments**

The bibliography was funded in part through a Carnegie-Whitney grant awarded to Sue Ann Gardner by the *Library Resources and Technical Services (LRTS)* Editorial Board. Many thanks to Charles Wilt, ALCTS Executive Director, who facilitated the awarding of the grant, and to the *LRTS* Board for their support. Thanks are due to Anna Sophia Cotton, research assistant for the project, who gathered citations for this project from August through November 2010.

### **Topic Headings**

- Bibliographic Standards, Principles, Formats, and Codes
  - Library Data in the Web World
  - Workflow and Tools
  - Cooperative Cataloging
  - Personnel and Education
  - History of Cataloging and Classification
  - Classification
  - Controlled and Uncontrolled Headings
  - Cataloging Special Formats and Non-English Language Cataloging
- 
- Bibliographic Standards, Principles, Formats, and Codes
