Nebraska Solar Energy Companies

Ann Ziebarth, Extension Specialist, Housing

Americans use more than one-third of all the energy consumed in the world. And residential energy consumption accounts for approximately one-fourth of all the energy used in the U.S.

Energy conservation measures are the first step that most households can make to reduce their contribution to the energy glut. For people interested in more significant changes using solar energy is one alternative. The list below identifies Nebraska firms that either manufacture or distribute solar energy equipment. For more information contact the firms directly.

Manufacturers of Solar Equipment

LI-COR

4421 Superior Street
Box 4425
Lincoln, NE 68504
(402) 467-3576
Contact: Dave Fredrickson

Product:

Instrumentation/Measurements
