Journal of World Insect Systematics

INSECTA MUNDI (ISSN 0749-6737) is the quarterly journal of The Center for Systematic Entomology. Short papers on broadly defined insect systematics are published, including descriptions of new taxa, informal taxonomic notes, bibliographies, checklists, catalogs, and reviews.

For papers about new insect species, INSECTA MUNDI provides authors early publication so that the species may be included in other books and catalogs.

Authors are fully responsible for the contents of their papers, however, all papers are reviewed by the Editorial Board and by individuals with special expertise. Acceptance by a majority of the Editorial Board is a requirement for publication.

Research notices and other noncommercial news are published at the discretion of the Editorial Board. New literature reviews are published also.

INSECTA MUNDI is distributed worldwide to entomology libraries and systematists.

Announcements and advertisements are accepted; rates upon request.

SUBSCRIPTIONS (four issues per year)

Individuals: \$25.00 per year

Libraries: \$50.00 per year

Foreign subscribers add \$6.00 for postage

Send subscription orders to:

Center for Systematic Entomology

P.O. Box 1269

Gainesville, FL 32602 USA

MANUSCRIPTS

Send manuscripts and queries to:

M.C. Thomas, Editor

INSECTA MUNDI

c/o Florida State Collection of Arthropods

P.O. Box 1269

Gainesville, FL 32602 USA

Notice of acceptance/rejection sent within two weeks.

Include (U.S.) postage if you want your manuscript returned.

No page charges are made. However, all authors are required to subscribe. Separates may be ordered on acceptance.

INSTRUCTIONS TO AUTHORS

1. All papers must adhere to the International Rules of Nomenclature.

2. Papers are limited in length to 25 printed pages. Longer papers may be published in parts, or the author(s) may elect to pay the full price of additional pages; details upon request.

Papers may be in English, French, German, Italian, Portuguese, or Spanish. An English summary is required for non-English papers.

Publisher will design, typeset, and assemble text and artwork for publication.

5. Each new taxon must be illustrated and included in a new key, or as an addendum to an existing key. The only exceptions to this rule are:

A. the publication of a replacement name for a homonym, or

B. for a new combination of a species or subspecies.

6. Type species of each genus must be stated, with the manner of designation and reference to the designation.

7. Start the paper with an Abstract defining your conclusion. Follow with an Introduction that describes the scope and purpose (not a summary) of the paper.

8. Distribution data may be summarized. For new taxa or comprehensive species studies, full data from labels may be given. Include the names of the collections in which the specimens are deposited.

9. List references under Literature Cited; follow the format shown in this issue.

10. Footnotes are prohibited; use Text Notes at the end of the paper. Provide a separate sheet/file with captions and legends for photos, tables, and artwork.

11. Text: The publisher uses MS-DOS personal computers to prepare each issue. When possible, supply your paper on MS-DOS 360k 5-1/4" diskettes and a hardcopy printout. Most popular word processor formats are acceptable; write for instructions. Text may be submitted in ASCII format, but special preparation is required; write for instructions.

Other computer formats and typewritten papers will be converted and charged to the author at cost.

12. Photos, Tables, and Artwork: Whenever possible, illustrations should be assembled into plates. Maximum dimensions of printed artwork are: 1-column 3.25" x 9" (2.75:1) and 2-column 6.75" x 9" (1.3:1). Please take these dimensions and proportions into account when assembling plates. Number individual figures. Use scale lines. Attach captions to back of illustration. Do not mix photos and line art on the same plate. Photos extra: \$10 per page. Color available at extra cost. Artwork will be returned on publication, but not manuscript or electronic media unless specifically requested.

INSECTA MUNDI HAS NEW PUBLISHER

Insecta Mundi, the official Journal of the **Center for Systematic Entomology**, a not-for-profit organization, located at the **Florida State Collection of Arthropods** in Gainesville, Florida, will be published by the Center beginning with volume 5, 1991. All subscribers have been sent this issue, volume 4 for 1990.

Members of the Center and current subscribers will receive further information from the Secretary/Treasurer of the Center. All prepaid subscriptions have been turned over to the Center by Sandhill Crane Press, along with submitted manuscripts, correspondence, etc. The complete back stock of *Insecta Mundi*, including volume 4, is now in the hands of the Center.

We thank subscribers and all who have helped with the launching of this new journal. This support has enabled Sandhill Crane Press to turn over an established publication which will make a lasting contribution to systematic entomology in the years to come. Your continued support of the journal, now in the capable hands of the Center, will be greatly appreciated.

THE SANDHILL CRANE PRESS, INC.

Including:

The Sandhill Crane Nature Books

Natural Science Publications, Inc.

Flora & Fauna Publications

A 20% DISCOUNT APPLIES TO ALL BOOKS ORDERED FROM THIS AD.

SPECIAL FOR: *INSECTA MUNDI* subscribers through June 30, 1991 if this ad is cited with order and payment is in advance by check or credit card (VISA or MASTERCARD).

We are publishing many books of particular interest to Entomologists. Many are listed on this two page ad. Our complete catalog is also available for the asking. Book orders are sent by U.P.S. Add \$2.50 for first book and 1.00 for each additional book for shipping, and use street address, not P. O. Box number. Discount prices in effect through June 30, 1991.

NEW:

THE NATURALISTS' DIRECTORY & ALMANAC (INTERNATIONAL), 45th edition, 113th year. 1990. x+320 pp. Paper \$24.95. **Discount price: \$20.00.**

This is a list of the naturalists of the World as an index to PIFON (*Permanent International File of Naturalists*), including the PIFON data base number for each naturalists, their mailing address, phone number, and interest statement. The book includes a detailed geographical index useful to the user for locating naturalists when on a field trip. The extensive subject index enables the owner to locate specialists as well a generalists, a feature of particular help in finding those interested in topics other than the users own speciality. Most systematists will find this useful reference a necessary working tool.

MAYFLIES OF THE WORLD: A CATALOG OF THE FAMILY AND GENUS GROUP TAXA (INSECTA: EPHEMEROPTERA) [Flora & Fauna Handbook No. 8], by Michael D. Hubbard, 1990. viii+119 pp. Paper: \$24.95. **Discount price: \$20.00.**

This catalog lists all family-group (family, subfamily, tribe, subtribe) and genus-group (generic or subgeneric) names which have been proposed for the Ephemeroptera, both recent and fossil, including the hierarchical classification of the order.

BIOGEOGRAPHY OF THE WEST INDIES: Past, Present, and Future, ed. by Charles A. Woods. 1990. 7 x 10 in. 896 pp. Cloth: \$98.50. **Discount price: \$79.00.**

As a review of the status of biogeography in the West Indies at the end of the century, this book, which emphasizes endemic species and their evolution, serves as a synthesis of our knowledge of a broad range of topics of relevance to West Indian biogeography.

FLORA & FAUNA HANDBOOK SERIES

In addition to the "Mayflies" above, the following is of special interest:

A CATALOG OF THE NEOTROPICAL COLLEMBOLA [Flora & Fauna Handbook no. 5], by Jos? A. Mari Mutt and Peter F. Bellinger, 1990. 6 x 9 in., xii+237 pp. biblio. [ISBN 1-877743-00-3] Paper \$24.95. **Discount price: \$20.00.**

The geographical area covered by this catalog is the Neotropical Region in its widest sense plus all of Mexico, and includes such marginal areas as the Bahama Islands, Islas Malvinas (Falkland Islands), the Juan Fernandez Archipelago, and Easter Island. The catalog lists 908 species in 158 genera.

Other titles in the series are:

THE SEDGE MOTHS OF NORTH AMERICA (Lepidoptera: Glyphipteridae) [Flora & Fauna Handbook No. 1], by John B. Heppner. 1985. Paper: \$24.95. **Discount price: \$20.00.**

THE POTATO BEETLES [Flora & Fauna Handbook No. 3], by R. L. Jacques, Jr., 1988. Paper: \$24.95. **Discount price: \$20.00.**

THE PREDACEOUS MIDGES OF THE WORLD [Flora & Fauna Handbook No. 4], by W. W. Wirth and W. L. Grogan. 1988. Paper: \$24.95. **Discount price: \$20.00.**

A REVIEW OF THE GENERA OF NEW WORLD MYMARIDAE (Hymenoptera: Chalcidoidea) [Flora & Fauna Handbook no. 7], by Carl M. Yoshimoto, 1990. 6 x 9 in., x+166 pp. Paper: \$24.95. **Discount price: \$20.00.**

ENDANGERED ANIMALS OF THAILAND, by Stephen R. Humphrey and James R. Bain. 1990. 6 x 9 in., 468 pp. Paper: \$29.95. **Discount price: \$24.00.**

Although first published in March of 1990, the cloth bound edition is now out of print; a second printing (paperback) is ready April 15, 1991.

INSECTS AND PLANTS: PARALLEL EVOLUTION AND ADAPTATIONS, 2nd ed. [Flora & Fauna Handbook no. 2], by Pierre Jolivet. 1991. Second edition now in press: Approx. 200 pp. \$24.95.

Insects and plants, whether or not they coevolved, have intimate interrelationships. Here is a book that concisely, yet thoroughly, describes these phenomena. The French edition was highly acclaimed by *Science*, and the first English edition sold out within months of publication.

OTHER POPULAR BOOKS WE OFFER:

FLORIDA BUTTERFLIES, by Eugene J. Gerberg and Ross H. Arnett, Jr. 1989. 5 1/2 x 8 1/2 in., 96 p., 137 full color illus. Paper: \$11.95. **Discount price: \$9.00.**

The most interesting butterfly fauna of the United States is that of Florida where these beautiful tropical animals may be seen flying throughout the entire year. All 164 species of Florida butterflies and skippers, plus several strays, are recorded in this book, most in full color, with descriptions and illustrations of all of the breeding butterflies. With this book butterflies may be identified on sight as they visit garden or woods flowers. It answers all questions about "what butterfly is that?"

AMERICAN INSECTS, by Ross H. Arnett, Jr., 1985. 8 1/2 x 11, 3rd printing, 850 pp., over 1200 illus. Cloth: 109.50. **Discount price: \$88.00.**

DRAGONFLIES OF THE FLORIDA PENINSULA, BERMUDA, AND THE BAHAMAS, by Sidney W. Dunkle, 1989. 6 x 9 in. 154 pp., 129 color figs. Paper \$14.95. **Discount price: \$12.00.**

THE INSECT AND SPIDER COLLECTIONS OF THE WORLD, by Ross H. Arnett, Jr. and G. Allan Samuelson, *et al.*, 1986.

This edition is now out of print. A new, definitive edition is underway and will be ready in 1992.

ADVANCES IN NEOTROPICAL MAMMALOGY, ed. by Kent H. Redford and John F. Eisenberg. 1989. 7 x 10 in., 566 pp. Cloth: \$62.50. **Discount price: \$50.00.**

IN SEARCH OF REPTILES AND AMPHIBIANS, by Richard D. Bartlett. 1988. 6 x 9, xii+363 p., 40 color illus. Cloth \$24.95. **Discount price: \$19.95; paper, \$19.95. Discount price: \$15.95.**

REMINDER: All books previously published under the "Flora & Fauna Publications" imprint are in stock in our warehouse only. They may be obtained directly from us or through your own dealer. This includes the *LEPIDOPTERORUM CATALOGUS*, Fasc. 118, *Noctuidae* **Discount price: \$175.00, 3 vol. set.** and *Catalog of the Heteroptera, or True Bugs, of Canada and the Continental United States.* **Discount price: \$47.00 (SEE OUR BOOK CATALOG)**

Send orders with payment to the address below. If you use credit card, please give number, expiration date, and sign order. Add suitable amount for shipping. Florida residents must add 6% sales tax.

Please recommend our books to your librarian.
