CORRECTION TO 1979 FALL OCCURRENCE REPORT

In the Garden Co. column in the 1979 Fall Occurrence Report Common Goldeneye, Common Merganser, Common Flicker, and Cedar Waxwing were listed with a single date only. Each should have shown "W" also, since they did stay past 31 December, although they left before the winter was over. Also Bald Eagle, Turkey, Rock Dove, and Starling should have shown a * to indicate that they did winter in the county, although not on the Refuge.
