A Guide to Plant Societies

By Susan Schoneweis, Extension Coordinator - Home/Environmental Horticulture

Plant societies and organizations can provide a vast amount of information for gardeners. Along with cultural information, they can provide verbal and written interaction and, in many cases, plant material or sources of material for their members. There may be local chapters near your community that are not listed in this guide. Check with each national organization you are interested in for information on a chapter in your area.

Many of these organizations publish newsletters or magazines and have annual meetings. The following listing of plant societies, although not all inclusive, includes both highly specialized and general groups. There should be something for almost every gardener.

Note: dues listed are for single, one-year memberships in the United States. Other types (international, family, couples, etc.) or lengths of memberships vary. All membership dues are in U.S. dollars unless otherwise stated.

African Violet Society of America, Inc.

P.O. Box 3609
Beaumont, TX 77704
(409) 839-4725
