NOTES

CORRECTION TO 1983 NEBRASKA NESTING SURVEY. The "Y" for Great-tailed Grackle in the Scotts Bluff column (*NBR* 52:50) should be for Common Grackle. This cuts the "No Nest Cards" entry for the county to 3, and the total species to 18. No change in the state figures.

RED CROSSBILL. On a science club outing to the Niobrara River in Keya Paha Co. we saw a Red Crossbill in the pines, 26 May 1984.
--- *Mike Erickson, Route 2, Wayne, Nebraska 68787*
