## INTRODUCTION

"When Johnnie stepped on that rusty nail last summer, the doctor asked right away about the date of the last tetanus injection. Luckily, I had brought our health record along."

"When I was expecting my third baby and my oldest child came down with measles, my doctor was as concerned about me and my unborn child as he was about my child's measles. We didn't have a family health record and I couldn't remember so the doctor had to give me temporary immunization to be sure I wouldn't get the measles."

Certainly it's a good idea to keep a family record of immunizations and other health information, -that's the purpose of this study lesson on Family Health Records.
