Dear Online Graduate Committee:

I am submitting my project document of a guide of plant types and associated insect families, as well as a short report, for approval to graduate December 2019 with the Master of Science in Entomology degree.

Thank you for your time in assessing the project. Please let me know if there is anything that requires more attention. I would be happy to meet with you and discuss the work I have done over the last several months on this project.

Best Regards,
