 ACTING DEAN

# Agricultural Experiment Station

Vol. 6, No. 7, January 1974

## 1974-75 BUDGET REQUESTS

### Institute of Agriculture and Natural Resources - New and Improved Programs:

	1973-74 Base		College Requests		Regents Request	
	Amount		Amount	% of 1973-74	Amount	% of 1973-74
Vice Chancellor Office	-0-		-0-	-0-	\$ 50,000	
Resident Instr.	\$ 1,172,574		\$ 130,377	11.1	111,000	9.4
Agr. Exp. Station	5,199,083		525,083	10.0	229,000	4.4
Agr. Ext. Service	4,520,899		652,800	14.4	154,000	3.4
UNSTA - Curtis	607,112		63,352	10.4	60,000	9.9
Conser. & Surv. Div.	349,989				69,000	19.7
Water R. R. Inst.	110,387				77,000	69.7
Faculty Salary Adj.	-0-		1,131,460		250,000	
Totals	\$11,960,044		\$2,503,072		\$1,000,000	8.4

### Agricultural Experiment Station - New and Improved Programs:

Priority	Activity	Location	College Request <sup>1/</sup>	Regents Request
			July 23, 1973	Sept. 22, 1973
1	Operating Support Budget	All Units	\$ 175,647	\$ 96,240
2	Micrometeorological Res. I	Horticulture	30,360	30,360
3	Plant Virology Res.	Plant Pathology	30,000	29,000
4	Soil Fertility Management <sup>2/</sup>	North Platte	16,600	
5	Farm Management Res. <sup>2/</sup>	Northeast	9,900	
6	Operating Support Budget	All Units	187,186	
7	Micrometeorological Res. II	Horticulture	15,140	
8	Turf. & Orn. Ento. Res.	Entomology	25,000	
9	Clothing for Handicapped	Tex. Clo. and Des.	14,900	14,900
10	Vice Chairman <sup>2/</sup>	Agronomy	4,000	
11	Phys. of Sorg. & Other Cr.	Agronomy	16,350	
12	Serious Weed Control	Agronomy	--	15,000
13	Ornamental Hort. & Turf <sup>2/</sup>	Horticulture	--	6,050
14	Wildlife Management <sup>2/</sup>	Poultry Science	--	7,450
15	Feedlot Pollution Control	Agr. Engineering	--	30,000
	Experiment Station Totals		\$ 525,083	\$ 229,000

<sup>1/</sup> New position requests include funds for scientist and support

<sup>2/</sup> Joint with teaching and/or extension

Continuation Budget Increases (UN-L):

Classified Personnel - State Pay Plan - 4½% Increase  
Academic and Professional Personnel - 6½% Increase  
Non-Personnel Services - Support - 3% Increase

GRANTS AND CONTRACTS

Ball, H. J. - Entomology - American Cyanamid Company	\$ 600
Burnside, Orvin C. - Agronomy - Chevron Chemical Company	1,000
Kerr, Eric D. - Plant Path. (Panhandle Sta.) - Dow Chemical Company	1,000
Lucas, Leo E. - North Platte Station - Banks of Central and Western Nebraska	1,710
Mayo, Z. B. - Entomology - American Cyanamid Company	1,500
Palmer, Louis T. - Plant Pathology - Dow Chemical Co.	750
Twiehaus, Marvin J. - Veterinary Science - Mr. Willard Waldo	1,000
Ward, John K. - Animal Science - E. I. DuPont De Nemours & Co.	2,500

GENERAL NOTES

1. New Guidelines for Civil Rights Compliance have been received from CSRS and copies are available in your departmental or station offices. Please review them. There can be no discrimination in employment, research benefits or other University activities. Indeed, overt efforts to avoid such must be documentable.
2. We also are under new regulations for protection of human subjects involved in research. They relate to any research involving human health, habits, attitudes, economic status, etc. Most of our projects submit to easy certification that human subjects are not involved; but, many do not. Our office is doing this screening.
3. We have recently processed recommendations for promotion and tenure. The attached criteria for promotion considerations were approved by you, the faculty, and provide the basic reference for such actions. We think you you should keep a copy for your own reference.
4. Schnieder on Safety - "Drive unto others as you would have others drive unto you."
5. Hunting at the Field Laboratory:

	<u>1973</u>	<u>1974</u>
Number of hunters	3,378	3,511
Pheasants	682	711
Quail	32	42
Rabbits	120	198
Squirrel	9	11

6. Sahs Sez - Now is the time to check emergency vehicles, standby power units, and emergency feed supplies and to be sure that livestock has a reliable water supply.
7. Burning is not a recommended method for disposing of marijuana!

Criteria for Appointment and Promotion in Rank  
The University of Nebraska College of Agriculture  
June 16, 1972

EXPERIMENT STATION

Instructor

1. A Masters degree\*
2. An interest in experiment station research
3. Recommendations indicating research capability

Assistant Professor

1. A Doctorate degree in appropriate field\*
2. Demonstrated understanding of and interest in the research program of the experiment station
3. Recommendations indicating demonstrated research capability

Associate Professor

1. A Doctorate degree in appropriate field\*
2. Evidence of professional growth and developing stature
3. Effective participation in supporting activity such as committee assignments and program planning
4. Demonstrated ability to communicate results of research both in scientific and lay channels
5. Experience in effective research project leadership and demonstrated personal creativity (normally requiring four or more years)
6. Membership in graduate faculty preferred
7. Above average evaluations of past work\*\*

Professor

1. A Doctorate degree in appropriate field\*
2. Demonstrate intellectual depth and versatility in a number of research activities
3. Recognition by colleagues in the College and in his profession, and by his clientele, as a scholar
4. Demonstrated ability to direct the research efforts of others, and to contribute to the programs of his department and colleagues
5. Demonstrated continued professional growth and potential
6. Full graduate staff status as partial evidence of (2) and (5)
7. Above average evaluation of past work\*\*
8. Because this is the terminal academic rank, recommendations are based upon sustained records of effective performance (normally at least five years as Associate Professor) and involve more subjective evaluation than earlier promotions

\*Circumstances may, in rare instances, cause this requirement to be modified.

\*\*Average of evaluations is based upon most recent four years and will be compared to others in the rank in which the ratings were earned.
