THE AGRICULTURAL EXPERIMENT STATION
INSTITUTE OF AGRICULTURE
AND NATURAL RESOURCES
UNIVERSITY OF NEBRASKA-LINCOLN
H. W. OTTOSON, DIRECTOR

Agricultural Experiment Station

Vol. 7, No. 12, June 1975

FROM THE DIRECTOR'S DESK

Goodbye to Duane Acker--In the short months he has spent with us, much has happened, and Duane's energy and dedication have been instrumental. Two budgets have been activated during this period, and a new organization has been brought into being. The programs of two new units, Conservation and Survey, and WRRI have been articulated with those of the three agricultural divisions. Important progress has been made with respect to physical facilities. The visibility of the Institute within the University, in the state house, and among the people of the state in general has been perceptibly enhanced. He has been a pleasant colleague and boss! Our best wishes go with Dr. and Mrs. Acker in their new assignment.

In the meantime, business goes on. In my absence, while serving as Acting Vice Chancellor, Bob Kleis will be Acting Director of the Station, with the able help of everyone in the Experiment Station office. My best wishes to you for a good summer and good research progress.

We will also miss Pat Sailor, who is leaving Nebraska to become Director of the School of Home Economics at Louisiana State. Pat has been a most effective member of the Station team as Assistant Director. We wish her well. Howard W. Ottoson

NEW LEADERSHIP - HORTICULTURE AND WRRI

On or about July 1, Dr. Millard Wayne Hall will replace Warren Viessman as Director of our Water Resources Research Institute. Wayne comes to us from a similar position at the University of Maine. He received his Civil Engineering degree from Vanderbilt and his graduate degrees in Sanitary Engineering from the University of Illinois where he also served on the staff. Wayne and Marlene have a daughter, Crystal Diane, 16, and a son Michael Wayne, 12. We look forward to having them with us.

Also on July 1, Dr. Roger Uhlinger of our North Platte Station staff will take over the Chairmanship of the Department of Horticulture. We are pleased that in this case one of our own able staff members has been picked for this important position. Rogers B.S. from the University of Rhode Island was in Chemistry and his graduate degrees from Cornell were in Genetics. We also look forward to having Roger and Winifred with their three sons David, 17, Drake 15, and Keith, 13, in Lincoln.

PERSONNEL ACTIONS

Childears, John M. - Instructor in Animal Science, MARC, Courtesy Appt. (Resignation)
Dickason, Elvis A. - Relinquishing the Directorship of International Programs (Change)
Olson, Robert A. - Professor of Agronomy (returns from leave of absence)
Peters, Edward J. - Assistant Professor of Poultry and Wildlife Sciences (new appt.)
Sailor, Patricia J. - Associate Dean Home Economics & Asst. Director AES (resignation)
Skinker, Georgia L. - Instr. & Ext. Specialist - Family Economics & Management (resignation)
Stair, Ernest J. - Professor of Veterinary Science (resignation)
Webster, Jason S. - Asst. Professor of Agronomy, Emeritus, PH Sta. (retirement)
