The 1933 Outlook for the Farm Home and Suggested Adjustments

Outlook	Adjustments
1. Continued low income	1. Plan food supply needed to maintain family health. Develop community facilities for health and medical care.
2. No marked change in purchasing power of the farmer's dollar.	2. Increase home production a. Garden, dairy, meat, and poultry products. b. Use available labor for canning, storing, bread, cheese, butter and soap making, and home sewing.
3. Increased home production and repair of clothing, furniture and furnishings.	3. Do home repair work - a. On house b. On yards Also No. 2 c. On clothing d. On furniture
4. More family members at home.	4. Divide the farm and home responsibilities so each has his share. Plan for home and community recreation.
5. More labor available for home production.	5. Follow plans for use of time and money.
6. Reserves in cash, clothing, and equipment low.	6. Increase receipts when possible by retailing home products thru curb markets, roadside stands and marketing routes.
7. A large proportion of the family food supply produced at home.	7. Use care in buying. Also No. 2.
8. Increased canning, drying, baking, cheese and soap making.	8. Use approved methods for home processing.
9. Reduction in all expenditures, especially those for home furnishings, clothing, and recreation.	9. Exchange with neighbors transportation, skilled labor, equipment, reading material, and games.
10. Increased use of cooperative purchasing.	10. Develop organizations for cooperative purchasing.
11. Increased use of barter.	11. Barter in so far as possible.
12. Greater need for all to be accurately informed on conditions and changes.	12. Keep informed on national and world-wide economic changes and their effect on the home.
