Pre-Party Activities

Name Acrostics - All players are given small cards and pencils and are told to write their own first and last names, letter by letter in a vertical line down the left side of the cards. The idea is to mingle in the crowd and get the signature of any person whose first or last name begins with any of the letters in one's own name.

Finding The Owner - All players in a single circle. Each player has his or her name on a card. These may be pinned on, when players come into the party. Players unpin the name cards and lay them on the floor in front of them. When music starts, players march in a circle around the name cards. The players stop when music stops, pick up name card that is in front of them and pin it on the correct person. Player who is last in locating the correct owner may be required to pay some forfeit.

Games For Small Spaces

Self Portraits - Players are seated in circle or around tables. Each has a piece of paper, 1/5 of which he folds away from him. On this he draws the funniest hat or hair he has ever seen, drawing the hair a little down over the fold. Then he folds it over once more so that his own drawing doesn't show and hands it to the person on his right. This person draws the face, extends the neck over the fold, turns it once more and hands it on. This continues as the next person draws the top of the body, the 4th draws down to the knees and the fifth draws the legs and feet. The pictures are then unfolded and passed around the circle.

Ring On A String - Players stand side by side in a circle with a string in their hands that reaches every player. On the string is a ring which players pass from one to the other. "It" stands in the middle and tries to guess who has the ring and if he is successful, the person caught with the ring must take his place.

The Moon Is Round - With a pencil, the leader draws a moon on the floor where all the players can see it; saying, as she draws, "The moon is round, here is an eye, and another eye, a funny nose, and a great big grinning mouth." Then she hands the pencil to someone else saying "I drew the moon, now you draw it." The secret is that the pencil must be changed from the right to the left hand as it is handed to the other person.

Relays and Contests

Feather Flying - Each group gets into a small circle. Some one in center of each group holds a large feather above everyone's head. The object of the game is to keep the feather from touching the floor after it has been released. This
